Women Masters Or Mothers:

Women Swami Bhakti Vikāśa, 2015-04-25 *Women Masters or Mothers* presents traditionalist arguments for the direction of the Krishna consciousness movement proposing that we should take up Srila Prabhupada's mandate to establish varnasrama dharma rather than capitulate to the norms and ideologies of secular culture. Particularly discussed are gender roles, parental responsibilities, feminist follies, and some of Srila Prabhupada's more controversial teachings such as those concerning early marriage, divorce, and polygamy.

Women in Ochre Robes Meena Khandelwal, 2012-02-01 Meena Khandelwal offers an engaging and intimate portrait of extraordinary Hindu women in India who wear ochre robes signifying their renunciation of marriage and family for lives of celibacy, asceticism, and spiritual discipline. While the largely male Hindu ascetic tradition of sannyasa renders its initiates ritually dead to their previous identities, the women portrayed here are very much alive. They struggle with and joke about the tensions and ironies of living in the world while trying not to be of it. Khandelwal juxtaposes the common refrain that in renunciation there is no male and female with arguments that underscore the importance of gender. In exploring these apparent contradictions, she brings together worldly and otherworldly values within renunciation and argues that these create tensions that are at once emotional, social, and philosophical.

Mothers, Mothering and Sport: Experiences, Representations, Resistances Judy E. Battaglia, 2018-09-01 Mothers and mothering have been a longtime focus of research and study in various academic disciplines and common topics of interest in mainstream press and popular culture, yet the experiences of mothers and mothering in the area of sport have been less explored. This innovative interdisciplinary collection provides a space for exploration of the complex dimensions of intersections between mothers, mothering, and sport as athletes, players, participants, parents, and discursive figures. Topics discussed are wide ranging from motherwork in sport, mothers as athletes, the athlete-mother in sports, representations and expectations of motherhood, and health, legal regulation of sports and parenting, as well as sexuality and gender in sports and gaming.

African American Single Mothers Bette Dickerson, 1995-01-17 The African American single parent family has tended to be a scapegoat for a variety of social problems ranging from poverty to drug abuse. As a result, there exists much misinformation about this family form. In this collection, the African American matriarchal family is re-evaluated to present a more informed picture of its actual structure and functioning. From an Afrocentric feminist perspective, contributors examine the history, legal dilemmas, media images, and religious values of these families. The roles of children, grandparents, fathers, other support figures, and the government are reviewed. This insider view of these households concludes with suggestions of more effective and sensitive policy approaches to this.

Southern Mothers Nagueyalti Warren, Sally Wolff, 1999-10-01 *Southern Mothers* a collection of critical essays by prominent southern literary scholars examines the significance of motherhood in southern fiction. The belle, the mammy, religion, and racism are several of the distinctive threads with which southern women writers have woven the fabric of their stories.
