Common Ground Eileen Flanagan, 2025-08-26 In Common Ground veteran organizer Eileen Flanagan weaves together a series of stories of hard won successes in the climate change movement including against a multinational bank in one case and a heavily polluting fossil fuel company in another based on grassroots organizing As heat waves wildfires storms and floods become ever more deadly the book describes a groundswell of action in which citizens of all ages races and political stripes struggle to understand each other and the enormous challenges we face fighting companies and governments wilfully blind to the climate change dangers we face as a society A Quaker activist facilitator and teacher Flanagan takes us on a personal journey through her environmental direct action experiences as well as her relationships with community leaders to understand how we can form coalitions to actually make a difference Flanagan shows that the illusion of separation the fallacy that humans can thrive in a dying world is at the root of interlocking environmental crises and that it's often politicians and corporations who benefit by keeping the rest of us divided across lines of race class religion and generation In Common Ground Flanagan argues that more than technology or

even elections acting in solidarity with all life is humanity's best hope for survival Includes a foreword by internationally acclaimed South African activist Kumi Naidoo President of the Fossil Fuel Non Proliferation Treaty Initiative and former head of Greenpeace International and Amnesty International Remapping Second-Wave Feminism Janet Allured, 2016-11

Scholars of second wave feminism often center their research on northern thought and political activity and usually overlook the vibrant pockets of activism that existed elsewhere In Remapping Second Wave Feminism Janet Allured attempts to reshape the national narrative by focusing on the grassroots women's movement in the South particularly in Louisiana This book delves into unexplored origins of the feminist movement While acknowledging the ways that the fight for African American civil rights produced the women's liberation movement in the South and subsequently in the North Allured also locates other wellsprings of the movement that were particularly important to southern change seekers especially preexisting women's organizations such as the League of Women Voters and the YWCA Also for many southern feminists being part of a faith tradition that emphasized social justice reform is what ultimately propelled them into working for gender equality Allured highlights key figures in Louisiana divisions based on regional sexual and ideological differences access to abortion lawsuits that had national implications that emanated from southern women and the fight against sexual assault and domestic violence Through detailed archival and oral history research she has forged a new path making this a foundational work for the field Remapping Second Wave Feminism will amend how we reflexively view feminism as a northern phenomenon giving proper due to the southern contribution **Playing with Fire** John W. Sutherlin, Daniel Elliot Gonzalez, 2021-04-15 Playing with Fire chronicles the ongoing struggle facing Louisiana families trying to live and work against the backdrop of corrupt politicians and corporate greed However the story presented here is relevant wherever low income disenfranchised people are not included in decisions about their health and environment This book examines the tale of Marine Shale Processors the world's largest hazardous waste company and the women who fought to protect their community and their children The lesson here is that a dedicated group of people fighting for what is right can win and it serves as an example for any community that wants to determine what their own environmental future Playing with Fire is a well documented account that provides lessons for communities government agencies and corporations It dispels the narrative that low income communities must settle for jobs at the expense of clean air and water and politicians and demonstrates that corporations that further trample on the rights of people will ultimately pay the price Historical Dictionary of the Green Movement Miranda Schreurs, Elim Papadakis, 2020-02-26 There are very serious environmental problems facing the planet Biodiversity loss has reached unprecedented levels Climate change is progressing so rapidly that within this century we are likely to see substantial sea level rise There has been dramatic loss of tropical rainforests Plastic pollution is killing wildlife and polluting our oceans Various movements old and new are addressing these green issues Civil society activism has taken on new strategies with the emergence of new technologies and global networks of green activists

have formed A new generation of green activists are emerging and boldly criticizing the status quo At the same time in some parts of the world green movements that looked like they were beginning to gain a political foothold or were even doing quite well are in retreat The reasons are complex Some suffer from lack of funding and hostile political and legal environments Others are being attacked by populist politicians who see green activism as a threat The second edition of Historical Dictionary of the Green Movement contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced on green movements green politics green trends and major environmental agreements and events This book is an excellent resource for students researchers and anyone wanting to know more about the green movement

The Urgency of Climate Change Kiarash Aramesh, Gerard Magill, 2017-01-06 The Urgency of Climate Change addresses a pivotal challenge for the sustainability of our planet This topic was selected for the inaugural conference in 2015 of an annual series on the Integrity of Creation The essays in this collection were selected in a peer reviewed manner and appeal to a general audience The chapters move from general to more specific points of view with a discussion at the end of each section addressing the global impact of climate change The first section sets the Context for the discussion explaining that the climate is an indispensable common good The part on Science emphasises that empirical reality must guide any analysis of the climate as a matter of basic knowledge and comprehension A crucial implication is whether the climate is sufficiently robust for the Earth to flourish for millennia ahead as discussed in the part on Sustainability In turn these sections raise pivotal questions regarding Ethics about social obligations for the planet to flourish and regarding Religion to foster global stewardship Finally this alignment of Ethics and Religion around the problems related to Science and Sustainability leads to the final section on Law that considers policy possibilities to effectively engage Climate Change

This Era of Black Activism Mary Marcel, Edith Joachimpillai, 2023-10-15 While much focus has been placed on Black Lives Matter activism in response to police and civilian murders of Black men and women the contributors argue that Black activism in this era has addressed a broader range of issues in a wide array of settings both on the street and inside institutions and communities This Era of Black Activism includes chapters on this era of Black activism from 2000 2022 It describes how previous activism has influenced this generation while showing innovations in political approaches leadership and organizational formations and the use of social and other media for movement purposes Topics include the innovations of BlackLives Matter as a movement the Florida activist group Dream Defenders policing and discrepancies in reporting on Ferguson the role of citizen cameras in Black activism social media for Black community coping and well being BIPOC Gay Power activism vs Gay Pride academic activism by Black and White professors corporate responses to BLM MeToo and healing within the Black community Black health activism and the Covid pandemic and bridging activism and policy for a new social contract It also offers an additional bibliography on Black activism for environmental justice athlete anti racist activism and the role of the Black Church in this era
