1797, 0000 0000 **Words Upon the Word** James S. Bielo, 2009-04 James S Bielo draws on over nineteen months of ethnographic work with five congregations to better understand why group Bible study matters so much to Evangelicals and for Evangelical culture Through a close analysis of participants discourse Bielo examines the defining themes of group life from textual interpretation to spiritual intimacy and the rehearsal of witnessing from publisher description *Jesus Christ, Hermeneutics, and Scripture* Hans Burger, 2024-04-18 Soteriology not epistemology is the best entrance to theological hermeneutics and to the doctrine of Scripture The triune God uses Scripture to make the community of believers live in Christ We hear the words of Scripture in the light of Easter and Pentecost We understand Scripture from faith in Christ and with the mind of Christ At the same time we come to know Christ in Scripture and we receive the mind of Christ by reading Scripture We remain in Christ by remaining in the Word Understanding Scripture and Christlikeness mutually reinforce each other Living a Christian life with God and our neighbor in God s world will deepen our understanding of Scripture This book explores the complex relationships between Jesus Christ participation in Christ theological hermeneutics and the doctrine of Scripture It shows the necessity of a holistic approach of life knowledge understanding and renewal [African Literacies and Western Oralities?](#) William A. Coppedge, 2021-11-03 How do twenty first century Christians communicate the Bible and their faith in today s mediascape Members of the International Orality Network ION believe that the answer to that paramount question is orality For too long they argue presentations of Christianity have operated on a printed literate register hindering many from receiving and growing in the Christian faith Instead they champion the spoken word and narrative presentations of the gospel message In light of the church s shift to the Global South how have such communication approaches been received by majority world Christians This book explores the responses and reactions of local Ugandan Christians to this oral renaissance The investigation grounded in ethnographic research uncovers the complex relationships between local and international culture brokers all of whom are seeking to establish particular modern identities The research conclusions challenge static Western categorizations and point towards an integrated understanding of communication that appreciates the role of materiality and embodiment in a broader religious socioeconomic discourse as well as taking into account societal anticipations of a flourishing modern African Church This book promises to stimulate dialogue for those concerned about the communication complexities that are facing the global church in the twenty first century **The Priesthood of All Students** Timothée Joset, 2023-06-30 Drawing on archival records and firsthand accounts this work explores the history theology and missiology of the International Fellowship of Evangelical Students IFES It examines how IFES s commitment to immediacy mediation and participation are grounded upon a firm belief in the priesthood of all believers and a missional ecclesiology that presupposes God s involvement in all aspects of life including the university It traces the impact of diverse cultures and theologies upon the manifold expressions of mission IFES has engaged

and the role of IFES in extending the presence of God's people in places and among ideologies where traditional church structures have limited access. This book is a powerful reminder of the transformative impact created when believers, whether students or otherwise, participate in the *missio Dei* as faithful and creative witnesses in their own contexts. Bearing relevance for all those interested in a Christian perspective on the university or the theological reverberations of student ministry, it also offers a robust theological framework for understanding the legitimacy of parachurch organizations and lay ministry.

Storytelling the Bible at the Creation Museum, Ark Encounter, and Museum of the Bible Paul Thomas, 2020-04-16 Paul Thomas chronicles a multi-level reception study of the Bible at both the Creation Museum and the Ark Encounter in Kentucky, USA. Thomas explores the commercial presentation of biblical narratives and the reception of those narratives by the patrons of each attraction, focusing upon three topics: what do young Creationists believe, how they interpret their beliefs from the Bible, and what is the user experience at the museums. The volume begins by explaining how Answers in Genesis (AiG) uses Bible passages to support young Earth creationist arguments, allowing for the chance to consider the Bible via physical means. Thomas then examines how the Creation Museum and the Ark Encounter visitors receive the Bible as presented by AiG and how this presentation informs visitors' understanding of the text, exploring concepts such as the most prominent displays of the two attractions, the larger context of museums and theme parks, and the case studies of the Methuselah display and The Noah Interview. He concludes with the summary of the user experience generated by the attractions, analyzing the degree to which patrons accept, negotiate, or resist the interpretation of the Bible offered by AiG.

Ireland and the Reception of the Bible Bradford A. Anderson, Jonathan Kearney, 2018-04-19 Drawing on the work of leading figures in biblical, religious, historical, and cultural studies in Ireland and beyond, this volume explores the reception of the Bible in Ireland, focusing on the social and cultural dimensions of such use of the Bible. This includes the transmission of the Bible, the Bible and identity formation, engagement beyond Ireland, and cultural and artistic appropriation of the Bible. The chapters collected here are particularly useful and insightful for those researching the use and reception of the Bible, as well as those with broader interests in social and cultural dimensions of Irish history and Irish studies. The chapters challenge the perception in the minds of many that the Bible is a static book with a fixed place in the world that can be relegated to ecclesial contexts and perhaps academic study. Rather, as this book shows, the role of the Bible in the world is much more complex. Nowhere is this clearer than in Ireland, with its rich and complex religious, cultural, and social history. This volume examines these very issues, highlighting the varied ways in which the Bible has impacted Irish life and society, as well as the ways in which the cultural specificity of Ireland has impacted the use and development of the Bible, both in Ireland and further afield.

From Scrolls to Scrolling Bradford A. Anderson, 2020-06-22 Throughout history, the study of sacred texts has focused almost exclusively on the content and meaning of these writings. Such a focus obscures the fact that sacred texts are always embodied in particular material forms, from ancient scrolls to contemporary electronic devices. Using the digital

turn as a starting point this volume highlights material dimensions of the sacred texts of Judaism Christianity and Islam The essays in this collection investigate how material aspects have shaped the production and use of these texts within and between the traditions of Judaism Christianity and Islam from antiquity to the present day Contributors also reflect on the implications of transitions between varied material forms and media cultures Taken together the essays suggests that materiality is significant for the academic study of sacred texts as well as for reflection on developments within and between these religious traditions This volume offers insightful analysis on key issues related to the materiality of sacred texts in the traditions of Judaism Christianity and Islam while also highlighting the significance of transitions between various material forms including the current shift to digital culture
