

General Term Summary

Grade 6 – Term 1

Language Arts

In Language Arts, we focused on several types of functional writing, and extended our knowledge of reading strategies to deepen our understanding of literature. Our writing practice explored the traits of writing (organization, content, sentence structure, conventions and word choice). Students were also engaged in responding to a variety of writing prompts, which included regular blogging, personal reflections, descriptive paragraphs and persuasive arguments. Our class read aloud focused on the comprehension strategies of self-monitoring, making connections and making inferences. Further, students practiced their ability to manage ideas and information through research and engaged in many research activities that required them to access information, evaluate sources, record information and share their ideas and information. The above concepts were applied to real-world situations, as well as selected texts.

Science

This term we performed an in-depth study of Topic A: Air and Aerodynamics, as well as Topic B: Flight. This included the properties of air, and specific ways that air movement can create lift. The class also focused on making observations as part of Topic C: Evidence and Investigation. Through the study of the topics, we applied the scientific process and used an investigative approach.

Social Studies

6.1 Citizens Participating in Decision Making: The broad focus in Social Studies in Grade 6 is on active citizenship and how we can affect others through our decisions and understanding of the world around us. This term we studied decision-making processes, the components that make up democracy, and how our rights and freedoms are protected in Canada. Students learned and used this information by exploring their values and attitudes, applying their knowledge and understanding, and practicing a variety of skills and processes (active inquiry, critical thinking, reflection and using and managing information).

Mathematics

The strands of Number and Patterns and Relations: While working with these strands, we looked at ways to describe patterns and relationships between numbers, and the different ways that we can write, describe and organize numbers. Students were required to represent and describe patterns and relationships using graphs and tables, understand relationships within tables of values to solve problems, develop and use equations with letter variables (basic algebraic equations), understand and apply the order of operations, demonstrate the meaning of preservation of equality and identify multiples and factors of various numbers.

The strand of Shape and Space: Angles and their relationships in different shapes were examined. Students were required to demonstrate the ability to identify angles in their environment, classify angles according to their measure, determine angle measures in degrees and understand the relationship between angles relative to their shape type (triangles and quadrilaterals).

Students are expected to demonstrate mathematical understanding by explaining their understanding, connecting mathematical ideas to other concepts and subject areas, demonstrating fluency with mental math, developing and applying new mathematical understanding through problem solving, developing mathematical reasoning, selecting and using technology as tools in problems solving and using visualization skills to assist in making connections and with problem solving. All of the above skills were used to solve problems that are encountered in daily life, and show how mathematics can be used in and out of the classroom.

Multifaceted Assessment for Early Childhood

Education Robert J. Wright, 2010. Multifaceted Assessment in Early Childhood is ideal for those on upper division undergraduate courses and first level graduate courses in early childhood education assessment. The book covers the various measures used in a range of assessment dimensions and includes valuable information regarding young children with special needs and English Language Learners which has rarely been touched upon in other textbooks. The chapters are focused on student accessibility and include practical applications of key concepts. Features and benefits: Covers a range of assessment concepts including Formative uses feedback from learning to adapt teaching. Summative i.e. tests, quizzes. Authentic focuses on complex deeper tasks. Standardized STAR, SAT. Includes coverage of assessment for English language learners and children with special needs. Topics that are not provided enough coverage in other books including Wortham, McAfee, Puckett and Mindes. Wright's writing style grabs and engages the reader in the topic. Two of our reviewers who use Wortham specifically cited Wright's writing style as a reason they would adopt our book. A McAfee reviewer is likely to switch for the same reason.

Developing Standards-Based Report Cards Thomas R. Guskey, Jane M. Bailey, 2010. Providing a clear framework, this volume helps school leaders align assessment and reporting practices with standards-based education and develop more detailed reports of children's learning and progress.

Questions & Answers About RTI Heather Moran, Anthony Petruzzelli, 2013-10-02. As Response to Intervention (RTI) models continue to attract a great deal of attention, school and district leaders need to understand the structures needed, the personnel required, the challenges faced, and rewards realized from RTI. Questions and Answers About RTI: A Guide to Success is designed to guide a school or district through the implementation of a new RTI program. Moran and Petruzzelli deliver a concrete understanding of the components of a successful RTI model, the resources needed, and the underlying philosophy. Educators will find this resource rich with practical examples and straight talk. It also provides an easily understandable how-to manual for teachers that are being asked to provide service in an RTI structure.

International Case Studies of Dyslexia Peggy L. Anderson, Regine Meier-Hedde, 2011-05-09. Dyslexia is a disability that exists in all countries that have high expectations for literacy. The inability to read in spite of normal intellectual potential represents one of the most

puzzling educational challenges for literate societies regardless of the culture or language This book examines medical psychological educational and sociological data from comprehensive case studies of preteen dyslexic children in order to profile the disability as it occurs in seventeen different nations Interviews with the children and their parents reveal how children with dyslexia are identified and treated around the world and provide a look at various perceptions of dyslexia and its challenges Researchers and practitioners in education psychology and health related professions will find this case book to be an excellent reference Parents of children with dyslexia will find the advocacy recommendations helpful *Assessment of learning* Shrinkhla dubey,2022-09-30 Assessment of learning Characteristics Objective Advantages Disadvantages

s identified challenge allowing for systemic and systematic change that meets the needs of the identified challenge guided by the experts in our field Connecting evidence based strategies with day to day practice this book is aimed at educational leaders principals superintendents special education directors teachers in their role as practitioners and those working toward their certifications in the university setting

For the Love of Learning Kristin Phillips, 2022-08-16 An illuminating and refreshing memoir about a year in the life of an elementary school principal outlining the joys and challenges for teachers and students of education today Outside of home children spend more time at school than anywhere and teachers play an important role in their young lives Teachers inspire nudge support and help students through many difficulties both academic and developmental And yet we almost never hear about what s really happening in school Kristin Phillips taught grade school for years before becoming a principal helping to guide not just students but also staff through better learning Here she takes us through a school year from the excitement of fall through the long days of winter and into the renewed energy that comes with spring Through her eyes we experience the increasingly complex education system children with disruptive behaviours teachers attempting new practices some more successfully than others and even parents who need a little help parenting As she walks us through this year we re introduced to the many problems that she faced but also those of the students and teachers she worked with What s the best way to address bullying in the classroom and school yard What do you do with a five year old who won t stop cursing in class And importantly how do we ensure all students are learning And these are just the concerns Phillips faced during school hours At home she reckoned with her own family s problems Recently divorced Phillips shares the ups and many downs of parenting three teenagers one of whom at times suffers from debilitating mental health issues With the realities of Covid 19 the importance of schools and their vital role for children and all of society has never been clearer Phillips takes us into the classrooms hallways and principal s office revealing the innovations happening in our schools and also the areas where education can do better With honesty and compassion Phillips gives a human face to the very real challenges educators work to overcome one year and one student at a time

A Carpenter's Daughter Renny Christopher, 2009-01-01 A Carpenter s Daughter is the story of the difficulties and rewards of the educational system for one who was not meant to go through it The single most reliable predictor of whether someone will earn a BA is whether at least one of their parents has one yet today there are an increasing number of first generation college students A Carpenter s Daughter is both a memoir of the author s experiences growing up going to school and becoming an academic and a thoughtful commentary on the meaning of class in American culture By connecting her own story with ideas from scholarly works on class and identity Christopher shows how her individual experiences reflect common struggles that people of working class background face when their education profession income and lifestyles change This work reminds us forcefully that moving up isn t necessarily good and that changing one s class isn t as simple as going to class or even becoming the teacher of the class Sherry Linkon author of Teaching Working Class The work is stellar merging

the tangled and complex webs of social mobility through education in ways that leave lots of loose ends dangling just the way it should No pretty bows adorning carefully wrapped packages here No straight and narrow trajectory toward a mainstream version of success Instead readers will be pulled along by nuanced narratives portraying the warped nature of society s construction of success and a careful crafting of the book in its entirety as a disjointed text presenting shards of a life that can never be visible in a tidied up tale Stephanie Jones University of Georgia *Federal Register* ,1986-12
