10 **Changing Teaching And Learning In The Primary School** Webb, Rosemary,2006-09-01 Assessing the effects of New Labour s education policies on primary schools this book discusses the impact of policies on primary school practices as well as looking at the views and experiences of primary school teachers and pupils **The Nordic Education Model** Ulf

Blossing,Gunn Imsen,Lejf Moos,2013-10-21 This book presents a detailed analysis of the educational model in Nordic European countries It describes the traditional idea of education for all which can be characterized by the right for every child to have an education of equal quality in a common school for all pupils regardless of social class abilities gender or ethnicity Against this background The Nordic Education Model traces the rise of neo liberal policies that have been enacted by those who believe the School for All ideology does not produce the knowledge and skills that students need to succeed in an increasingly competitive and global marketplace It examines the conflict between these two ideas and shows how neo liberal technologies affect the Nordic model in different ways The authors also show how social technologies are being interpreted in different ways in actual school practices This process of translating national regulations into internal sense builds on the values in the culture to which they are introduced In the end this book reveals that a Nordic model can constitute a delicate balance between traditional values institutionalized practices and contemporary neo liberal forms of governance and policies It may be argued from a new institutional perspective that the main structures of the Nordic educational model will sustain as long as the deeply rooted Nordic culture survives in the globalised society *Radical*

Reforms Christopher Chapman,Helen Gunter,2008-12-09 This book draws on the lessons from one of the most intensive periods of educational reform in any country during recent times The post 1997 English experience under a New Labour government is used to illustrate the opportunities and challenges associated with attempting to develop a world class education system Such reforms are fiercely contested and often polarized with proponents stressing the opportunities created while others reveal the erosion of professional values Contributions from UK and overseas researchers including Andy Hargreaves and John Smyth reflect on the implications for those concerned with developing education systems across the globe Focusing on the challenges of radical reform in key areas including variation in educational achievement accountability and standards linking school and community policies workforce reform and choice and diversity the book includes chapters on Accountability for School Improvement Workforce modelling and Distributed Leadership Multi agency Work and Children s Services The Education and Poverty Link Personalised Learning Initial Teacher Education Drawing on

the framework developed by New Labour to assess the approaches to and outcomes of interventions and the extent to which policies can deliver promised transformations but going much deeper and wider than this the authors present a critical account of reform by studying examples of policies and conceptualizing the interplay between policy practice and research With contributions from leading international commentators this book will be of interest to researchers in education education policy and school leadership
