Yearning Devotion Yearning Series Volume 1:

Sri Ramakrishna and His Gospel (Volume 1) Swami Bhuteshananda, For nearly a decade Swami Bhuteshananda the 12th President of the Ramakrishna Order devoted his weekly Bengali religious classes to discussions on Sri Ramakrishna and to the unique book *The Gospel of Sri Ramakrishna*. His illuminating discussions brought out the thought provoking deeper dimensions of the simple homely utterances of the great prophet and they helped the audience comprehend these simple sayings of the Great Master in the light of the ancient scriptures of India specially the Vedanta as well as modern thought. Not unoften many abstruse concepts many knotty philosophical questions and doubts of Vedanta metaphysics were lucidly explained and resolved. These were later transcribed and eventually published in a seven volume Bengali work *Sri Sri Ramakrishna Kathamrita Prasanga*. The present work is an English translation of the first three volumes of the original Bengali book. Published by Advaita Ashrama a publication house of Ramakrishna Math Belur Math India

The Annual of Psychoanalysis, V. 20 Jerome A. Winer, 2013-05-13 Volume 20 of *The Annual of Psychoanalysis* ably traverses the analytic canvas with sections on Theoretical Studies Clinical Studies Applied Psychoanalysis and Psychoanalysis and Philosophy The first section begins with Arnold Modell s probing consideration of the paradoxical nature of the self provocatively discussed with John Gedo Modell focuses on the fact that the self is simultaneously public and private dependent and autonomous Alice Rosen Soref next explores innate motivation and self protective regulatory processes from the standpoint of recent infancy research her notion of a lifelong two track model of self and relatedness helps establish a normative baseline that can anchor psychoanalytic theory George Mahl makes an interesting contribution to Freud studies in the form of a new chronology of Freud s works and the number of pages they contain in the Standard Edition The section ends with Robert Galatzer Levy and Mayer Gruber s quasi experiment about disgust They test and disconfirm the hypothesis that disgust is an affective response to an abstract sense of disorder rather than a transformation of a concrete bodily experience by systematically exploring references to concepts of disgust in the Old Testament Section II on Clinical Studies opens with Henry Smith s fascinating elaboration of Freud s notion of screen memories into a theory of screening that denotes the general process by which mental content is organized He illustrates his thesis by invoking the screen language employed by a patient throughout her analysis Ernest Wolf next explores the tension between being a scientist and a healer in Freud and his followers to illuminate struggles within the psychoanalytic movement

and to help account for current attitudes toward abstinence neutrality and gratification Kenneth Newman focuses on this same triptych of technical precepts He argues in the spirit of Winnicott and Kohut that analysts can only alter the hostile internal environments of their patients by becoming usable objects and cultivating an optimally responsive analytic environment A particularly rich collection of applied analytic studies forms Section III of the volume Individual chapters focus on the childhood of Vincent van Gogh W W Meissner the psychological healing process depicted in George Eliot's *Silas Marner* Richard Almond the self psychological meaning of blood brotherhood in D H Lawrence's *Women in Love* James Cowan ecstatic mysticism in the 19th century Indian saint Sri Ramakrishna Sudhir Kakar the disintegration of the Tyrone family in Eugene O'Neill's *Long Day's Journey into Night* Frank and Annette Lachmann and the nature and analytic significance of Freud's aesthetic response to Michelangelo's *Moses* Gary Goldsmith Finally in Section IV George Brook examines the commonsense psychological knowledge of everyday life that is the nonpsychoanalytic knowledge on which much of clinical psychoanalysis ultimately depends Taken together the four sections of Volume 20 of *The Annual* offer an exciting overview of contemporary psychoanalysis Section I highlights recent trends in psychoanalytic theorizing and the testing of psychoanalytic propositions Section II explores the relevance of new theoretical perspectives to clinical work Section III demonstrates the applicability of these new perspectives to psychobiographical and literary analysis and Section IV provocatively explores the points of connection between everyday ideas and attitudes and the tenets of psychoanalytic practice
