Psycho-social Explorations of Trauma, Exclusion and Violence Christopher Scanlon, John Adlam, 2022-01-06 The central theme of this book is the operation of intersecting discourses of power privilege and positioning as they are revealed in fraught encounters between in groups and out groups in our deeply fractured world The authors offer a unique perspective on inter group dynamics and structural violence at local societal cultural and global levels dissecting processes of toxic othering and psychosocial re traumatisation The book offers the Diogenes Paradigm as a unique conceptual tool with which to analyse the ways in which those of us who come to be located outside or on the margins of dominant social structures are in one way or another the inheritors of the legacies of centuries of oppression and exclusion This analysis offers a distinctive psycho social redefinition of trauma that foregrounds the relationship between the inhospitable environments we generate and the experiences of unhousedness that we thereby perpetuate Written in an engaging and accessible style *Psycho social Explorations of Trauma Exclusion and Violence* directly addresses pressing global issues of racial trauma human mobility and climate disaster and offers a manifesto for the creative re imagining of the places and spaces in which conversations about

Hope for the Oppressor Patrick Oden,2019-07-26 The liberating work of God calls the oppressed out of oppression and the oppressor out of oppressing The challenge in seeking a thorough liberation of oppressors is to help them understand their need for freedom and how to seek this freedom in their own contexts Patrick Oden provides a holistic biblical historical and theological analysis that diagnoses the underlying motivations and inclinations that lead to oppression Part one addresses the context of oppression in which most participants in oppression do not actively seek to harm others but are caught up in systems that tend toward the diminishment of others Part two examines the biblical and early Christian response to oppression discovering a thread that avoids condemning participation in society generally while also cautioning the people of God about being co opted by society Part three discusses how oppressors can withdraw from oppression through a constructive analysis of four contemporary theologians Wolfhart Pannenberg J rgen Moltmann Sarah Coakley and Jean Vanier each of whom contributes to a widening vision of liberated and liberating life in which the once oppressed and former oppressor can find peace together in community *The Souls of Black Folk* William Edward Burghardt Du Bois,Cecil

Murray,1903 *Physics of Blackness* Michelle M. Wright,2015-02-15 What does it mean to be Black If Blackness is not biological in origin but socially and discursively constructed does the meaning of Blackness change over time and space In *Physics of Blackness Beyond the Middle Passage Epistemology* Michelle M Wright argues that although we often explicitly define Blackness as a what it in fact always operates as a when and a where By putting lay discourses on spacetime from physics into conversation with works on identity from the African Diaspora *Physics of Blackness* explores how Middle Passage epistemology subverts racist assumptions about Blackness yet its linear structure inhibits the kind of inclusive epistemology of Blackness needed in the twenty first century Wright then engages with bodies frequently excluded from contemporary mainstream consideration Black feminists Black queers recent Black African immigrants to the West and Blacks whose histories may weave in and out of the Middle Passage epistemology but do not cohere to it *Physics of Blackness* takes the reader on a journey both known and unfamiliar from Isaac Newton s laws of motion and gravity to the contemporary politics of diasporic Blackness in the academy from James Baldwin s postwar trope of the Eiffel Tower as the site for diasporic encounters to theoretical particle physics theory of multiverses and superpositioning to the almost erased lives of Black African women during World War II Accessible in its style global in its perspective and rigorous in its logic

Physics of Blackness will change the way you look at Blackness **Nafssiya, or Edward Said's Affective Phenomenology of Racism** Norman Saadi Nikro, 2024-03-30 This book adapts the Arabic term nafsiyya to trace the phenomenological contours of Edward Said's analysis of the affective dimensions of colonial and imperial racism Reflecting on what he called his colonial education Said rendered his Palestinian Arab background and experience of racism an enabling component of his academic work The argument focuses on his personal dimension section in his introduction to his famous volume *Orientalism* discussing key notions of Said's oeuvre such as elaboration circumstance humanism worldliness inventory and critical consciousness Providing a lengthy study of his earlier and somewhat neglected *Beginnings* *Intention and Method* the book discusses the significance of the style of the essay as a key component of what the author calls Said's interventionist brand of scholarship The final chapter outlines how Said's oeuvre can be situated in a genealogy of a radical phenomenology of racism that emerged from the colonies *The Fictions of Language and the Languages of Fiction* Monika Fludernik, 2003-12-16

Monika Fludernik presents a detailed analysis of free indirect discourse as it relates to narrative theory and the crucial problematic of how speech and thought are represented in fiction Building on the insights of Ann Banfield's *Unspeakable Sentences* Fludernik radically extends Banfield's model to accommodate evidence from conversational narrative non-fictional prose and literary works from Chaucer to the present Fludernik's model subsumes earlier insights into the forms and functions of quotation and aligns them with discourse strategies observable in the oral language Drawing on a vast range of literature she provides an invaluable resource for researchers in the field and introduces English readers to extensive work on the subject in German as well as comparing the free indirect discourse features of German French and English This study effectively repositions the whole area between literature and linguistics opening up a new set of questions in narrative theory
