E. B. Du Bois, 2012-06 The Souls of Black Folks as other reviewers have pointed out is a masterpiece of African American thought But it is even more than that when we consider the context and time in which the book was written Most of what Du Bois discusses is still relevant today and this is a tribute to the man not only as a scholar but as someone who was continually adapting his views in the best image and interests of black people Some reviewers refer to Du Bois as the Black Emerson and as a university instructor I heard similar references made the Black Dewey or the Black Park referring to the Chicago School scholars Du Bois was brilliant indeed these white men should be being called the white Du Bois Du Bois literally created the scientific method of observation and qualitative research With the junk being put out today in the name of dissertations simply re read Du Bois work on the Suppression of the African Slave Trade and his work on the Philadelphia Negro and it is clear that he needs not be compared to any white man of his time or any other he was a renaissance man who cared about his people and unlike too many of the scholars of day he didn't just talk the talk or write the trite he walked the walk and organized the unorganizable White racism suffered because Du Bois raised the consciousness of the black masses But he did more than that by renouncing his American citizenship and moving to Ghana he proved that Pan Africanism is not just something to preach or write about ala Molefi Asante Tony Martin Jeffries and other Africanists it is a way of life both a means and an end Du Bois organized the first ever Pan African Congress and in doing so set the stage for Afrocentricity Black Studies and the Bandung Conference which would be held in 1954 in Bandung Indonesia Du Bois not only affected people in this country he was a true internationalist Souls of Black Folk is an important narrative that predates critical race theory It is an important reading which predates formal Black Studies The book calls for elevation of black people by empowering black communities today's leadership is so starved for acceptance that I believe that Karenga was correct when he says that these kind of people often doubt their own humanity The book should be read by all **The Souls of Black**

E. B. Du Bois,2018-05-02 The Souls of Black Folk is a classic work of American literature by W E B Du Bois It is a seminal work in the history of sociology and a cornerstone of African American literary history To develop this groundbreaking work Du Bois drew from his own experiences as an African American in the American society Outside of its notable relevance in African American history The Souls of Black Folk also holds an important place in social science as one of the early works in the field of sociology We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience **Pedagogy of a Beloved Commons** Sharon Egretta Sutton,2023-06-06 A rare and powerful illustration of what it takes to become a sustainable community embedded organization that continually grows the next generation of compassionate leaders This essential timely book meets us at our current moment of crisis to offer hope that American democracy s stalled trajectory toward its founding creed to embrace all and not just some can indeed be re invigorated Pedagogy of a Beloved Commons is about low income youth of color working within justice oriented community based organizations to improve the social and spatial conditions in their surroundings It draws from hundreds of pages of data some collected over a decade ago by graduate research assistants at three universities and some collected recently by a graduate research assistant at a fourth university to present verbatim quotes from interviews with constituents of three youth serving organizations The book posits that the disinvested neighborhoods where youth experience abandonment and marginality in fact can serve as a call to action given appropriate organizational support Pedagogy of a Beloved Commons envisions a place based critical pedagogy that can provide young people with the practical skills and deep values to engage with today s economic racial and ecological crises It offers a welcome antidote to a neoliberal education system that has not only veered away from its public mandate to advance democratic citizenship but that has also reinforced today s insidious economic inequality rendering illusive the idea that rich and poor can work together toward a common good Between these pages resonates a passionate call for an approach to cultivating citizens who have the critical skills to challenge injustice the courage to hold the rich and powerful accountable

and the empathy to advance not just their own self interest but also the health and well being of their communities and the planet The author proposes that such citizens develop by exercising collective agency in the commons a political and psychic space whose values are mapped out in physical space Through the expert use of an architect s lens this groundbreaking book argues that the three dimensional concreteness of the nation s disinvested neighborhoods provides a virtual stage where disenfranchised youth can experiment with collective life become more discerning about the forces that have shaped their communities and practice working toward just and inclusive futures Merging Paulo Freire s seminal theory of critical pedagogy with Grace Lee Boggs s belief that hands on community building can disrupt the ever more destructive forces of neoliberal capitalism Pedagogy of a Beloved Commons refines an aspirational framework for a pathway forward through a careful analysis of three exemplar organizations It offers rich unique portraits of young people transforming their communities in southwest Detroit Wai anae and Harlem respectively illustrating place based activism through theater organic farming and critical inquiry Here activism is framed as the hands on engagement of youth in addressing inequities in the commons of their neighborhoods through small but persistent interventions that also help them learn the language of solidarity and collectivity that a sustainable democracy needs Pedagogy of a Beloved Commons is a must read for our times and for our future

Political Theology on Edge Clayton Crockett, Catherine Keller, 2021-12-07

In *Political Theology on Edge*, the discourse of political theology is seen as situated on an edge that is on the edge of a world that is grappling with global warming, a brutal form of neoliberal capitalism, protests against racism and police brutality, and the COVID-19 pandemic. This edge is also a form of eschatology that forces us to imagine new ways of being religious and political in our cohabitation of a fragile and shared planet. Each of the essays in this volume attends to how climate change and our ecological crises intersect and interact with more traditional themes of political theology. While the tradition of political theology is often associated with philosophical responses to the work of Carl Schmitt and the critical attempts to disengage religion from his rightwing politics, the contributors to this volume are informed by Schmitt but not limited to his perspectives. They engage and transform political theology from the standpoint of climate change, the politics of race, and non-Christian political theologies including Islam and Sikhism. Important themes include the Anthropocene, ecology, capitalism, sovereignty, Black Lives Matter, affect theory, continental philosophy, destruction, and suicide. This book features world renowned scholars and emerging voices that together open up the tradition of political theology to new ideas and new ways of thinking.
