The Subject Of Liberation Zizek Politics Psychoanalysis:

The Subject of Liberation Charles Wells, 2016-01-28 The book shares i ek s central problem of how to revitalize the radical political left through theory It initially follows the argument developed in *The Ticklish Subject* that contemporary leftist thought is divided by antagonism between a Marxist revolutionary politics founded on Enlightenment philosophy and a politics of identity founded on post modern post structuralism How i ek used Lacan s theory of character structures is examined here to describe this theoretical deadlock and explain how the dominant contemporary ideologies of liberal tolerant multiculturalism and reactionary pseudo fundamentalism compete to mobilize the individual subject s unconscious drive to enjoyment The book thus emphasizes the moments in which i ek hints that Lacanian theory may describe a practice that facilitates the resolution of antagonisms that placate radical leftist politics It challenges prevalent interpretations of Lacanian ends of analysis to ultimately connect the psychoanalytic cure to the leftist project of social and political liberation The Subject of Liberation argues that if Lacan is to be useful to leftist politics then the left has to develop its own definitions of the post analytic subject and proposes one such definition developed out of Lacanian and i ekian theory Consciousness and the Neoliberal Subject Jon Bailes, 2020-04-08 Consciousness and the Neoliberal Subject outlines a theory of ideological function and a range of ideological positions according to which individuals rationalise and accept socio economic conditions in advanced consumer capitalist societies Through a critical examination of the social and psychoanalytic theories of Herbert Marcuse Fredric Jameson and Slavoj i ek the author extends the understanding of ideology to consider not only the unconscious attachment to social relations but also the importance of conscious rationalisation in sustaining ideologies In this way the book defines different ideologies today in terms of the manner in which they conditionally internalise a dominant neoliberal rationality and considers the possibility that entrenched social norms may be challenged directly through conscious engagement It will appeal to scholars of social and political theory with interests in ideology neoliberalism psychoanalytic thought and critical theory *Psychoanalysis and the GLObal* Ilan Kapoor, 2018-09-01 Psychoanalysis and the GLObal is about the hole at the heart of the gLObal meaning the instability and indecipherability that lies at the hub of globalization The contributors use psychoanalysis to expose the unconscious desires excesses and antagonisms that accompany the world of economic flows cultural circulation and sociopolitical change Unlike the mainstream discourse of globalization which most often assumes unencumbered movement across borders these contributors uncover what Lacan calls the Real of the gLObal its rifts gaps exceptions and contradictions Psychoanalysis and the GLObal adopts a psychoanalytic lens to highlight the unconscious circuits of enjoyment racism and anxiety that trouble if not undermine globalization s economic cultural and environmental goals or gains The contributors interrogate how unconscious desires and drives are externalized in our increasingly globalizing world the ways in which traumas and emotional conflicts are integral to the disjunctures homogeneities and contingencies of global interactions how social passions are manifested and

materialized in political economy as much as in climate change urban architecture refugee and gender politics or the growth of neo populism and how the unconscious serves as a basis for the rise and breakdown of popular movements against authoritarianism and neoliberal globalization Psychoanalysis and the Global represents a major step forward in understanding globalization and also in extending the range and power of psychoanalytic critiques in and of geography

Confronting Desire Ilan Kapoor, 2020-09-15 By applying psychoanalytic perspectives to key themes concepts and practices underlying the development enterprise *Confronting Desire* offers a new way of analyzing the problems challenges and potentialities of international development Ilan Kapoor makes a compelling case for examining development s unconscious desires and in the process inaugurates a new field of study psychoanalytic development studies Drawing from the work of Jacques Lacan and Slavoj Žižek as well as from psychoanalytic postcolonial and feminist scholarship Kapoor analyzes how development s unconscious desires speak out most often in excessive and unpredictable ways that contradict the outwardly rational declarations of its practitioners He investigates development s many irrationalities from obsessions about growth and poverty to the perverse seductions of racism and over consumption By deploying key psychoanalytic concepts enjoyment fantasy antagonism fetishism envy drive perversion and hysteria *Confronting Desire* critically analyzes important issues in development growth poverty inequality participation consumption corruption gender race LGBTQ politics universality and revolution *Confronting Desire* offers prescriptions for applying psychoanalysis to development theory and practice and demonstrates how psychoanalysis can provide fertile ground for radical politics and the transformation of international development

The Psychosis of Race Jack Black, 2023-12-01 *The Psychosis of Race* offers a unique and detailed account of the psychoanalytic significance of race and the ongoing impact of racism in contemporary society Moving beyond the well trodden assertion that race is a social construction and working against demands that simply call for more representational equality *The Psychosis of Race* explores how the delusions anxieties and paranoia that frame our race relations can afford new insights into how we see think and understand race s pervasive appeal With examples drawn from politics and popular culture such as *Candyman* *Get Out* and the music of Kendrick Lamar critical attention is given to introducing as well as explicating on several key concepts from Lacanian psychoanalysis and the study of psychosis including foreclosure the phallus Name of the Father *sinthome* and the objet petit a By elaborating a cultural mode to psychosis and its understanding an original and critical exposition of the effects of racialization as well as our ability to discern the very limits of our capacity to think through or even beyond the idea of race is provided *The Psychosis of Race* speaks to an emerging area in the study of psychoanalysis and race and will appeal to scholars and academics across the fields of psychology sociology cultural studies media studies and the arts and humanities

Jazz and Christian Freedom Bradley K. Broadhead, 2018-12-21 Contemporary Western society has a strange relationship with freedom Unbridled subjective liberty and narrow fundamentalism pull away from each other in mutual loathing while sociological forces seek to manipulate both

sides The church needs to recover and reconstruct a theology of freedom to navigate between the perils of both extremes and to avoid being manipulated by these forces Just as biblical figures are taught through parables and metaphors this book uses jazz improvisation as an analogy for Christian freedom Just as jazz improvisation relies on successfully navigating constraints such as the history and traditions of jazz jazz theory and musical instruments so Christian freedom also relies on constraints such as the biblical canon church history theology and the church itself Through understanding the freedom jazz musicians enjoy in making music together we can better understand how Christian freedom might be enacted in daily life If Western churches discover and enact Christian freedom in a meaningful way the songs that they improvise will be as siren calls to people in chains

Decolonization and Psychoanalysis Ahmad Fuad Rahmat, 2025-04-17 Decolonization and Psychoanalysis challenges conventional psychoanalytic assumptions by revisiting Lacan's conceptualization of the materiality of speech through a decolonial lens Ahmad Fuad Rahmat explores how Lacan's ideas about the symbolic order and its historical development are intertwined with decolonial assumptions and proposes that critically considering these assumptions can pave the way for a decolonial psychoanalysis The book begins with how Lacan uses Freud's Jewishness as a marginalized perspective that reveals the excluded dimensions of signification within the symbolic order and examines James Joyce's anti colonial politics and its significance for Lacan's conception of the *sinthome* The book includes a critique of Slavoj Žižek's Eurocentric reading of Malcolm X as a foil with which colonized speech could be conceived as symbolic dispossession Finally it reframes the notion of the gap by understanding global capitalism as a mode of exchange to advocate for a decolonial psychoanalysis that focuses on the non spaces of transmission as opposed to a like for like export of the clinic from the center to the periphery Decolonization and Psychoanalysis will be of great interest to psychoanalysts and to scholars of psychoanalytic studies critical theory and cultural studies

Radical Psychoanalysis Barnaby B. Barratt, 2016-05-20 2020 American Board Academy of Psychoanalysis ABAPsa book award winner Only by the method of free association could Sigmund Freud have demonstrated how human consciousness is formed by the repression of thoughts and feelings that we consider dangerous Yet today most therapists ignore this truth about our psychic life This book offers a critique of the many brands of contemporary psychoanalysis and psychotherapy that have forgotten Freud's revolutionary discovery Barnaby B Barratt offers a fresh and compelling vision of the structure and function of the human psyche building on the pioneering work of theorists such as André Green and Jean Laplanche as well as contemporary deconstruction feminism and liberation philosophy He explores how drive or desire operates dynamically between our biological body and our mental representations of ourselves of others and of the world we inhabit This dynamic vision not only demonstrates how the only authentic freedom from our internal imprisonments comes through free associative praxis it also shows the extent to which other models of psychoanalysis such as ego psychology object relations self psychology and interpersonal relations tend to stray disastrously from Freud's original and revolutionary insights This is a vision that understands the central issues that

imprison our psychic lives the way in which the reflections of consciousness are based on the repression of our innermost desires the way in which our erotic vitality is so often repudiated and the way in which our socialization oppressively stifles our human spirit Radical Psychoanalysis restores to the discipline of psychoanalysis the revolutionary impetus that has so often been lost It will be essential reading for psychoanalysts psychoanalytic psychotherapists mental health practitioners and students and academics with an interest in the history of psychoanalysis *Donald Winnicott and the Politics of Care*

Marx and Freud in Latin America Bruno Bosteels,2012-08-21 This book assesses the untimely relevance of Marx and Freud for Latin America thinkers alien to the region who became an inspiration to its beleaguered activists intellectuals writers and artists during times of political and cultural oppression Bruno Bosteels presents ten case studies arguing that art and literature the novel poetry theatre film more than any militant tract or theoretical essay can give us a glimpse into Marxism and psychoanalysis not so much as sciences of history or of the unconscious respectively but rather as two intricately related modes of understanding the formation of subjectivity **On Žižek's Dialectics** Fabio Vighi,2010-06-15

On i ek s Dialectics explores the theoretical and practical potential of the psychoanalytic method deployed by Slavoj i ek by investigating its epistemological implications within our contemporary capitalist universe The book begins by evaluating Žižek s account of the capitalist ideology of enjoyment through the analysis of Lacan s critique of Marx s surplus value If the originality of i ek s wager lies in the claim that enjoyment secretly sustains our ideological space can we think of surplus jouissance in a way that not only unmasks the ruse of capitalism but also adumbrates the construction of an alternative social space The answer to this question is developed in the second part of the book Arguing that the transformative potential of Žižek s epistemology needs to be fully unravelled if it is to avoid the risk of congealing into mere academic exercise Fabio Vighi attempts to politicise i ek s groundbreaking critical method by calling upon the necessity to translate its emphasis on the indigestible surplus of knowledge into the drive to think the new Under the current conditions this creative moment can no longer be delayed *The Palgrave Handbook of Global Political Psychology* H. Dekker,2016-04-30 This collection

recalibrates the study of political psychology through detailed and much needed analysis of the discipline s most important and hotly contested issues It advances our understanding of the psychological mechanisms that drive political phenomena while showcasing a range of approaches in the study of these phenomena *Žižek* F. Vighi,H. Feldner,2007-11-06 This book brings together two of the most influential thinkers in critical theory By unmasking reality as contingent symbolic fiction the authors argue Foucauldian criticism has only deconstructed the world in different ways the point however is to recognize the Real in what appears to be mere symbolic fiction i ek and to change it *Badiou and the Political Condition* Marios

Constantinou,2014-02-12 The essays in this volume including a new piece by Badiou himself reflect the formative traditions that shape the background of his political thought They intervene critically and evaluate the present state of Badiou s work while also breaking new gro *Theology after Lacan* Clayton Crockett,Creston Davis,Marcus Pound,2015-02-26 This

groundbreaking volume highlights the continuing relevance of Jacques Lacan 1901 1981 a French psychiatrist and psychoanalyst whose linguistic reworking of Freudian analysis radicalised both psychoanalysis and its approach to theology

Demythologizing Revelation Chester O'Gorman, 2019-05-24 What is revelation Is it still relevant in the twenty first century In the twentieth century radical theologian Rudolf Bultmann sought an answer by demythologizing scripture and Christian tradition Most philosophers and theologians agree that he failed adequately to demythologize revelation through his notion the kerygma In Demythologizing Revelation A Critical Continuation of Rudolf Bultmann's Project Chester O Gorman corrects this shortcoming to continue Bultmann's project demythologizing Jesus Christ as revelation through the philosophy of Slavoj Žižek Drawing support from other notable thinkers including Judith Butler Thomas Altizer Albert Camus Rene Girard and Martin Luther O Gorman proffers a non supernatural account and theory of revelation This theory enables both Christians and atheists to identify sites of revelation today so that all might better understand and participate in its ongoing liberation of humanity from sin and oppression for the sake of all creation
