Custodians of the Earth? Alaine Low, Soraya Tremayne, 2001-12-01 Literature on women development and environment is abundant The relationship between women and ecology has been analyzed by various disciplines by specialists from the North as well as the South This book offers a new perspective specifically to challenge the assumption that women have a special affinity with the Earth and therefore a historic mission for the care of the environment The book explores spiritual religious and philosophical beliefs concerning women and ecology and whether women are truly sacred custodians of the Earth This concept has evolved from ideas developed by eco feminists Whether and how different belief systems can be put to use to create an awareness to protect preserve and improve ecological conditions is discussed The collection of papers demonstrates the complexity of the issues and the variations and vulnerability of the assumed relationship between women and the environment in different cultural and political contexts The book challenges policy solutions which are devised to be on a global scale and to create unrealistic global aspirations and the value of targeting women in a particular attempt to achieve environmentally sustainable development **Women's Poetry of Late Imperial China** Xiaorong Li, 2013-05-03

This study of poetry by women in late imperial China examines the metamorphosis of the trope of the inner chambers *gui* to which women were confined in traditional Chinese households and which in literature were both a real and an imaginary place Originally popularized in sixth century palace style poetry the inner chambers were used by male writers as a setting in which to celebrate female beauty to lament the loneliness of abandoned women and by extension to serve as a political allegory for the exile of loyal and upright male ministers spurned by the imperial court Female writers of lyric poetry *ci* soon adopted the theme beginning its transition from male fantasy to multidimensional representation of women and their place in society and eventually its manifestation in other poetic genres as well Emerging from the role of sexual objects within poetry late imperial women were agents of literary change in their expansion and complication of the boudoir theme While some take ownership and de eroticizing its imagery for their own purposes adding voices of children and older women and filling the inner chambers with purposeful activity such as conversation teaching religious ritual music sewing childcare and chess playing some simply want to escape from their confinement and protest gender restrictions imposed on women *Women's Poetry of Late Imperial China* traces this evolution across centuries providing and analyzing examples of poetic themes motifs and imagery associated with the inner chambers and demonstrating the complication and nuancing of the *gui* theme by increasingly aware and sophisticated women writers *Research Anthology on Advancements in Women's Health and Reproductive Rights* Management Association, Information Resources, 2022-05-06 Reproductive health and rights are critical topics in today's society as laws and policies are continuously debated and adjusted across the world There are many

different outlooks on these issues and different countries have widely varying laws in place at present In order to better understand where the world currently is regarding these pressing discussions further study is needed on the status of women s reproductive rights The Research Anthology on Advancements in Women s Health and Reproductive Rights provides a thorough review of the current research available regarding reproductive health The book discusses how various countries and regions are handling reproductive rights as well as current issues women face within their reproductive health journeys Covering topics such as sexual health gender and pregnancy this major reference work is ideal for nurses government officials policymakers healthcare professionals researchers scholars academicians practitioners instructors and students

Gendered Bodies Shuqin Cui,2015-10-31 Gendered Bodies introduces readers to women s visual art in contemporary China by examining how the visual process of gendering reshapes understandings of historiography sexuality pain and space When artists take the body as the subject of female experience and the medium of aesthetic experiment they reveal a wealth of noncanonical approaches to art The insertion of women s narratives into Chinese art history rewrites a historiography that has denied legitimacy to the woman artist The gendering of sexuality reveals that the female body incites pleasure in women themselves reversing the dynamic from woman as desired object to woman as desiring subject The gendering of pain demonstrates that for those haunted by the sociopolitical past the body can articulate traumatic memories and psychological torment The gendering of space transforms the female body into an emblem of landscape devastation remaps ruin aesthetics and extends the politics of gender identity into cyberspace and virtual reality The work presents a critical review of women s art in contemporary China in relation to art traditions classical and contemporary Inscribing the female body into art generates not only visual experimentation but also interaction between local art cultural production and global perception While artists may seek inspiration and exhibition space abroad they often reject the Western label feminist artist An extensive analysis of artworks and artists both well and little known provides readers with discursively persuasive and visually provocative evidence Gendered Bodies follows an interdisciplinary approach that general readers as well as scholars will find inspired and inspiring
