Sociology of Religion Susanne C. Monahan, William Andrew Mirola, Michael O. Emerson, 2001. This collection of articles explores the relationship between the structure and culture of religion and various aspects of social life in the United States. Based on both classic and contemporary research in the sociology of religion, it highlights a variety of research methods and theoretical approaches in exploring the ways in which religious values, beliefs, and practices shape the world outside of church, synagogue, or mosque walls while simultaneously being shaped by the non-religious forces operating in that world. Many readings are drawn from popular sources, e.g., newspapers and magazines, and although many of the readings are about religion in the Christian tradition, there are also readings about religion outside the American context, e.g., Poland, England, El Salvador, Nicaragua, and beyond the Christian tradition, e.g., Judaism, alternative religions, Hindu traditions. Classic Sociological Definitions Of Religion, Belief And Ritual, Religious Experience, Race, Ethnicity And Religion, Gender And Religion, Social Class And Religion, Sexual Identity And Religion, The Secularization Debate, Religious Organizations, Institutions And Authority, Alternative Religions, Media And Religion, Politics And Religion, Science And Religion, Social Movements And Religion. For anyone interested in the sociology of religion or religious perspectives on social issues.

The Sociology of Religion Roberto Cipriani. In adopting an international perspective that goes beyond the conventional framework of western theology, this volume bridges the divide between European and North American scholars through its careful retrieval of their common theoretical and research interests.
