*The Politics of Speech in Later Twentieth-Century Poetry* William Fogarty, 2022-07-30 The Politics of Speech in Later Twentieth Century Poetry Local Tongues in Heaney Brooks Harrison and Clifton argues that local speech became a central facet of English language poetry in the second half of the twentieth century It is based on a key observation about four major poets from both sides of the Atlantic Seamus Heaney Gwendolyn Brooks Tony Harrison and Lucille Clifton all respond to societal crises by arranging reproducing and reconceiving their particular versions of local speech in poetic form The book s overarching claim is that local tongues in poetry have the capacity to bridge aesthetic and sociopolitical realms because nonstandard local speech declares its distinction from the status quo and binds people who have been subordinated by hierarchical social conditions while harnessing those versions of speech into poetic structures can actively counter the very hierarchies that would degrade those languages The diverse local tongues of these four poets marshaled into the forms of poetry situate them at once in literary tradition in local contexts and in prevailing social constructs

**South Side Impresarios** Samantha Ege, 2024-11-12 Between the world wars Chicago Race women nurtured a local yet widely resonant Black classical music community entwined with Black civic life Samantha Ege tells the stories of the Black women whose

acumen and energy transformed Chicago's South Side into a wellspring of music making Ege focuses on composers like Florence Price Nora Holt and Margaret Bonds not as anomalies but as artists within an expansive cultural flowering Overcoming racism and sexism Black women practitioners instilled others with the skill and passion to make classical music while Race women like Maude Roberts George Estella Bonds Neota McCurdy Dyett and Beulah Mitchell Hill built and fostered institutions central to the community Ege takes readers inside the backgrounds social lives and female led networks of the participants while shining a light on the scene's audiences supporters and training grounds What emerges is a history of Black women and classical music in Chicago and the still vital influence of the world they created A riveting counter to a history of silence South Side Impresarios gives voice to an overlooked facet of the Black Chicago Renaissance **Game**

**Misconduct** Evan F. Moore, Jashvina Shah, Renee Hess, 2021-10-12 A bracing call to arms for hockey fans players and coaches everywhere Those who have been lured by the the sound of skate blades slicing into fresh ice by the incomparable speed split second decisions and everything or nothing attitude of the game know that hockey can seem like its own world It is all consuming and exhilarating boasting its own language and complex morality code Yet in another light that tight community can turn insular the values of teamwork and humility can manifest as collective silence in the face of abuse and discrimination issues which have been brought to the forefront of the sport as many share their stories for the first time In Game Misconduct reporters Evan Moore and Jashvina Shah reveal hockey's toxic undercurrent which has permeated the sport throughout the junior college and professional levels They address the topic with a level of passion that comes from being rabid hockey fans themselves and from experiencing its exclusivity first hand With a sensitive yet incisive approach this necessary book lays bare the issues of racism homophobia xenophobia bullying sexism and violence on and off the ice Readers will learn about notable players and activists fighting for transformation as well as those beyond the spotlight who are nonetheless deeply affected by hockey's culture of inaction Both a reckoning and a roadmap Game Misconduct is an essential read for modern hockey fans showing the truth of the sport's past and present while offering the tools to fight for a better future **Hip-Hop Civics** Jabari M. **Subsistence Agriculture in the US** Ashley Colby, 2020-09-24 Focusing on ethnography and interviews with subsistence food producers this book explores the resilience innovation and creativity taking place in subsistence agriculture in America To date researchers interested in alternative food networks have often overlooked the somewhat hidden unorganized population of household food producers Subsistence Agriculture in the US fills this gap in the existing literature by examining the lived experiences of people taking part in subsistence food production Over the course of the book Colby draws on accounts from a broad and diverse network of people who are hunting fishing gardening keeping livestock and gathering and looks in depth at the way in which these practical actions have transformed their relationship to labor and land She also explores the broader implications of this pro environmental activity for social change and sustainable

futures With a combination of rigorous academic investigation and engagement with pressing social issues this book will be of great interest to scholars of sustainable consumption environmental sociology and social movements Hybrid Mobilities Nadine Cattán, Laurent Faret, 2021-07-30 Diverse factors like globalization geopolitical tensions and the transformation of lifestyles are strengthening the role of mobility as a structuring dimension of contemporary societies Social science research has taken note of these changes but few studies cross the different forms of mobility ranging from commuting to tourists and backpackers and on to seasonal workers or international migrants The diversity of mobility situations studied in this book highlights the contribution of the reality of mobility in the daily construction of urban regional and global spaces as well as in the redefinition of socio spatial concepts By using an interdisciplinary relational approach the book revisits certain concepts such as exclusion heritage or distance in order to understand spatialities beyond the oppositions of fixity mobility private public or here elsewhere The book sheds light on the capacities for resistance of mobile persons in Singapore Dakar Bangkok Amman Paris New York or Mexico by studying the power relationships that are established in situations of mobility By deciphering the values that characterize regimes of mobility the contributors stress the normative injunctions of public policies and social practices The originality of the work lies in capturing the deployment of alternative spatialities and underlining how they are reshaped between sedentary and mobility regimes It highlights the importance of fully associating mobility with its characteristics of ephemerality and fluidity in our theorizations and understandings of spatialities By taking a post structuralist posture the book makes it possible to establish a logic of and to design a between of things and to reverse ontology This allows the temporary and the connected to be rehabilitated beyond distance in our practical knowledge of spatialities and territorialities As such the volume will be of interest to scholars of geography sociology anthropology and urban studies with interests in mobility migration and relational thought Coming Home Wendy Kline, 2019 Coming Home tells the story of how a significant number of parents in postwar America opted out of the standardized medicated hospital birth and recast home birth as a legitimate and desirable choice **Justice Batted Last** Don Zminda, 2025-03-11 On May 1 1951 Orestes Minnie Mi oso took the field for the Chicago White Sox and broke the color line for Chicago major league baseball Ernie Banks integrated the Chicago Cubs two years later The future Hall of Famers began their Chicago baseball careers against the backdrop of a 1951 race riot in suburban Cicero where a white mob abetted by local police attacked a building that had rented to Black tenants Don Zminda's account looks at these interconnected events alongside the little known chronicle of Chicago's slow track to integrating major league baseball By the early 1950s the Cubs and White Sox organizations had become rich in Black and Afro Latino stars and talented prospects Unlike Mi oso and Banks however most of these minor leaguers never advanced to the majors or if they did it was for little more than a cup of coffee Zminda also profiles these players from Charles Pope the Cubs first Black signee to larger than life fireballer Blood Burns Essential and dramatic Justice Batted Last uses the lives and careers of two Chicago legends to tell a story of integration on and off the

Sternberg, 2023-02-03 This book examines the dynamics of neoliberal urban governance through a comparative analysis of Buenos Aires and Chicago with a special focus on gentrification processes in both cities from 2011 to 2021 This work argues that neoliberal principles rationales and institutions along with the elaborate rhetoric that has contributed to their success are forever present in the US and Latin American region particularly in global cities like Buenos Aires and Chicago The year of 2011 marks the almost simultaneous election of new executive authorities in each city and finalizes in 2021 a sufficient time span to observe key patterns narratives and developments of each neoliberal urban governance First this book chronicles the evolving urban neoliberal policies implemented since 2011 in both cities with special attention to the systematic reduction of affordable housing and privatization of public land that have paved the way for gentrification to advance at a fast pace Second it also exposes readers to the prominent rhetoric crafted by local boards developers architects and real estate agents in both cities Third this study chronicles how these contemporary neoliberal urban governances currently operate a critical aspect that remains vastly unexplored Lastly until now these governances have been scantily explored from a comparative perspective in Latin American and North American urban settings and so this book offers a rich new approach
