The Suma oriental of Tome Pires, books 1-5 Tomé Pires,1990 *Sweet Treats around the World* Timothy G. Roufs,Kathleen Smyth Roufs,2014-07-29 From apple pie to baklava cannoli to gulab jamun sweet treats have universal appeal in countries around the world This encyclopedia provides a comprehensive look at global dessert culture Few things represent a culture as well as food Because sweets are universal foods they are the perfect basis for a comparative study of the intersection of history geography social class religion politics and other key aspects of life With that in mind this encyclopedia surveys nearly 100 countries examining their characteristic sweet treats from an anthropological perspective It offers historical context on what sweets are popular where and why and emphasizes the cross cultural insights those sweets present The reference opens with an overview of general trends in desserts and sweet treats Entries organized by country and region describe cultural attributes of local desserts how and when sweets are enjoyed and any ingredients that are iconic Several popular desserts are discussed within each entry including information on their history their importance and regional cultural variations on preparation An appendix of recipes provides instructions on how to make many of the dishes whether for school projects or general entertaining □□□□□□□□□□ Patrick Beillevaire,2000 [The Oxford Handbook of Borderlands of the Iberian World](#) Danna A. Levin Rojo,Cynthia Radding,2019-11-06 This Handbook integrates innovative interdisciplinary approaches to the production of Iberian imperial borderlands in the Americas from southwestern U S to Patagonia and their connections to trade and migratory circuits extending to Asia and Africa In this volume borderlands comprise political boundaries spaces of ethnic and cultural exchange and ecological transitions **Portuguese and Luso-Asian Legacies in Southeast Asia, 1511-2011, vol. 1** Laura Jarnagin,2003-08-01 In 1511 a Portuguese expedition under the command of Afonso de Albuquerque arrived on the shores of Malacca taking control of the prosperous Malayan port city after a swift military campaign Portugal a peripheral but then technologically advanced country in southwestern Europe since the latter fifteenth century had been in the process of establishing solid outposts all along Asia s litoral in order to participate in the most active and profitable maritime trading routes of the day As it turned out the Portuguese presence and influence in the Malayan Peninsula and elsewhere in continental and insular Asia expanded far beyond the sphere of commerce and extended over time well into the twenty first century Five hundred years later a conference held in Singapore brought together a large group of scholars from widely different national academic and disciplinary contexts to analyse and discuss the intricate consequences of Portuguese interactions in Asia over the longue duree The result of these discussions is a stimulating set of case studies that as a rule combine original archival and or field research with innovative historiographical perspectives Luso Asian communities real and imagined and Luso Asian heritage material and symbolic are studied with depth and insight The range of thematic chronological and geographic areas covered in these proceeding is truly remarkable showing not only the extraordinary relevance of revisiting Luso Asian interactions in the longer term but also the surprising dynamism within an

area of studies which seemed on the verge of exhaustion After all archives from all over the world from Rio de Janeiro to London from Lisbon to Rome and from Goa to Macao might still hold some secrets on the subject of Luso Asian relations when duly explored by resourceful scholars Rui M Loureiro Centro de Historia de Alem Mar Lisbon

Poison Damsels N.M. Penzer,2016-05-06 First published in 2004 These four classic masterpieces in esoteric research by the noted orientalist M Penzer explore customs and traditions from other cultures and periods of history which for all their apparent strangeness mask fundamental subjects of continuing interest The first concerns the motif of the poison damsel the beauty who dealt death in many forms to her admirers which originated in India was prevalent in medieval Europe and persists today in the belief of the femme fatale The volume includes a study in the ancient Tale of the Two Thieves an essay on sacred prostitution in India the ancient East and West Africa and an exhaustive treatment of the custom of chewing the betel or areca nut which is widespread in the far East from India through Indonesia to New Guinea A natural stimulant and narcotic whose effects are similar to that of tobacco betel is of growing interest to the medical world and has as the author shows here a rich legacy of customs and belief

The Pan American Book Shelf,1946 *From the Indian Ocean to the Mediterranean* Sebouh David Aslanian,2011 Drawing on a rich trove of documents including correspondence not seen for 300 years this study explores the emergence and growth of a remarkable global trade network operated by Armenian silk merchants from a small outpost in the Persian Empire Based in New Julfa Isfahan in what is now Iran these merchants operated a network of commercial settlements that stretched from London and Amsterdam to Manila and Acapulco The New Julfan Armenians were the only Eurasian community that was able to operate simultaneously and successfully in all the major empires of the early modern world both land based Asian empires and the emerging sea borne empires astonishingly without the benefits of an imperial network and state that accompanied and facilitated European mercantile expansion during the same period This book brings to light for the first time the trans imperial cosmopolitan world of the New Julfans Among other topics it explores the effects of long distance trade on the organization of community life the ethos of trust and cooperation that existed among merchants and the importance of information networks and communication in the operation of early modern mercantile communities

Tanegashima - The Arrival of Europe in Japan Olof G. Lidin,2003-12-16 The year 1543 marked the beginning of a new global consciousness in Japan with the arrival of shipwrecked Portuguese merchants on Tanegashima Island in southern Japan Other Portuguese soon followed and Japan became aware of a world beyond India After the merchants came the first missionary Francis Xavier in 1549 beginning the Christian century in Japan This is not a new story but it is the first time that Japanese Portuguese and other European accounts have been brought together and presented in English Their arrival was recorded by the Japanese in Tanegashima kazu the Teppoki and the Kunitomo teppoki here translated and presented together with European reports Includes maps and Portuguese and Japanese illustrations

Shipwrecks and the Maritime History of Singapore Kwa Chong Guan,2023-09-18 On 16 June 2021 the National

Heritage Board announced the successful conclusion of the archaeological excavation of two shipwrecks at the eastern approach to Singapore. This maritime archaeology excavation, the largest in Singapore's waters, was conducted by the Archaeology Unit of the ISEAS Yusof Ishak Institute over a six-year period. This book documents these two shipwrecks, complemented by essays on Singapore's maritime history from Temasek in the fourteenth century through the emergence of country trade in the late eighteenth century. These two shipwrecks challenge us to rethink Singapore's history as globally connected, determined by what was happening on the seas in and around the island.

European Commercial Expansion in Early Modern Asia Om Prakash, 2020-04-28 Regular commercial contacts between Europe and Asia date back to at least the early years of the Christian era, but the pattern of trade underwent a structural modification following the Portuguese discovery of a route to the East Indies via the Cape of Good Hope. This volume illustrates the consequences of the arrival of large numbers of Europeans in the East. Europeans both participated in modified and exploited existing trade relationships in the Indian Ocean and the Pacific. The studies reprinted here show how some environments, such as Japan, were hostile, whilst most states welcomed the European commercial contact. The necessity for Europeans to pay for Asian goods using precious metals is emphasised by the inclusion of articles on monetary transfers in Asian trade, a phenomenon which provides a link between economic developments in the Americas and those in Asia from the 16th century onwards.

Framing the World Margaret Small, 2020 A timely examination of the ways in which sixteenth-century understandings of the world were framed by classical theory.

Indo-Islamic society André Wink, 1990 This third volume of André Wink's acclaimed and pioneering *Al-Hind: The Making of the Indo-Islamic World* takes the reader from the late Mongol invasions to the end of the medieval period and the beginnings of early modern times in the late fifteenth and early sixteenth century. It breaks new ground by focusing attention on the role of geography and more specifically on the interplay of nomadic, settled, and maritime societies. In doing so, it presents a picture of the world of India and the Indian Ocean on the eve of the Portuguese discovery of the searoute, a world without stable parameters, of pervasive geophysical change, inchoate and instable urbanism, highly volatile and itinerant elites of nomadic origin, far-flung merchant diasporas, and a famine- and disease-prone peasantry whose life was a gamble on the monsoon.

From Mountain Fastness to Coastal Kingdoms John Deyell, Rila Mukherjee, 2019-08-09 Money is central to the functioning of economies, yet for the pre-modern period, our knowledge of monetary systems is still evolving. Until recently, historians of the medieval world have conflated the use of coins with a high degree of monetization. States without coinage were considered under-monetized. It is becoming more evident, however, that some medieval states used money in complex ways without using coinage. Money's of account supplanted coins wholly or in part. But there is an imbalance of evidence: coins survive physically, while intangible forms of money leave little trace. This has skewed our understanding. Since coin usage has been well studied in the past, these essays flesh out our consideration of societies that used money but struck no coins. Absence or shortage of coining metals was not the causative factor; some of these societies

had access to metal supplies but still remained coinless Was this a strategic choice Does it reflect the unique system of governance that developed in each kingdom It is surely time to unravel this puzzle This book examines money use in the Bay of Bengal world using the case of medieval Bengal as a fulcrum Situated between mountains and the sea this region had simultaneous access to both overland and maritime trade routes How did such cashless economies function internally within their regions and in the broader Indian Ocean context This volume brings together the thoughts of a range of upcoming scholars and a sprinkling of their elders on these and related issues Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka *Geographical Knowledge and Imperial Culture in the Early Modern Ottoman Empire* Asst Prof Pinar Emiralioğlu, 2014-03-28 Exploring the reasons for a flurry of geographical works in the Ottoman Empire in the sixteenth century this study analyzes how cartographers travellers astrologers historians and naval captains promoted their vision of the world and the centrality of the Ottoman Empire in it It proposes a new case study for the interconnections among empires in the period demonstrating how the Ottoman Empire shared political cultural economic and even religious conceptual frameworks with contemporary and previous world empires **The Ryukyu Kingdom** Mamoru Akamine, 2016-12-31 This English translation of a key work by one of Okinawa's most respected historians Mamoru Akamine provides a compelling new picture of the role played by the Ryukyu Kingdom in the history of East Asia Okinawa Island from which the present day Japanese prefecture derives its name is the largest of the Ryukyu Islands an archipelago that stretches between Japan and Taiwan In the present volume Akamine chronicles the rise of the Ryukyu Kingdom in the fourteenth and fifteenth centuries when it played a major part in East Asian trade and diplomacy Then Ryukyu was indeed the cornerstone in a vibrant East Asian trade sphere centered on Ming China linking what we now call Japan Korea and China to Southeast Asia With historical and cultural connections to both Japan and China Ryukyu also mediated diplomatically between the two nations whose leaders more often than not refused to deal with each other directly But eventually the kingdom became a victim of its own success Political developments in China and Japan starting in the sixteenth century brought great changes to the region and in 1609 Ryukyu was invaded by Satsuma Japan's southernmost domain The China Japan geopolitical rivalry would in time be acted out within Ryukyu itself as one faction strove to maintain ties with China while another supported union with rapidly modernizing Japan Throughout the work Akamine's approach to Ryukyu history is distinguished by his expert use of Chinese and Korean sources which allows him to examine events from several different angles This contributes to a broad sweeping narrative revealing an East Asia made up of many shifting and interrelated parts not just nation states pursuing their own interests Akamine's facility with Chinese texts in particular uncovers telling details that add considerably to the historical record His meticulous account of one of Ryukyu's tribute missions to China for example or the role of feng shui in the design of Shuri Castle the royal and administrative center of the kingdom is detailed without being pedantic As a result readers will come away with a broader more informed understanding

of Ryukyu's significance in the region and the complexity of its relations with its neighbors

The Cambridge History of Global Migrations: Volume 1, Migrations, 1400-1800 Cátia Antunes, Eric Tagliacozzo, 2023-06-01 Volume I documents the lives and experiences of everyday people through the lens of human movement and mobility from 1400-1800. Focusing on the most important typologies of pre-industrial global migrations, this volume reveals how these movements transformed global paths of mobility, the impacts of which we still see in societies today. Case studies include those that arose from the demand for free, forced, and unfree labour; long and short distance trade; rural-urban displacement; religious mobility; and the rise of the number of refugees worldwide. With thirty chapters from leading experts in the field, this authoritative volume is an essential and detailed study of how migration shaped the nature of global human interactions before the age of modern globalization.

Interwoven Globe Amy Elizabeth Bogansky, 2013 Published in conjunction with an exhibition held at The Metropolitan Museum of Art, New York, Sept. 16, 2013-Jan. 5, 2014

Coastal Histories Yogesh Sharma, 2010 The subject of maritime and oceanic history comprises a large corpus and includes related thematic engagements such as the history of overseas exploration and expansion; naval-military history; shipping; port cities; the role of migrations and cross-cultural processes. This extensive field of enquiry also focuses upon the study of littoral societies or the coastal regions in understanding the influence of the ocean upon these lands. The interface between the land and the sea, with its several ecological and topographical variations, has played an important role in determining human activity, the settlement patterns, and material culture in the coastal regions, which taken together constitute huge masses of territories in all continents. The general pattern of existence and the rhythm of life in all these dissociated regions, however, had considerable commonality due to the overwhelming impact of the two dominant elements, water and land, in shaping the destinies of its inhabitants. Coastal societies have their own particular notion of identity and ambience, which differentiates them from the extensive continental zones. It is in this context that coastal territories and their histories constitute an interesting theme of enquiry. The present volume examines a number of themes pertaining to different coastal regions of India: coastal ecology; commercial crops; transmission of diseases; fortifications; port hierarchy; new port towns; vessels and boats; fishing communities; social life of women, etc. It should be of interest to students and scholars of maritime history of India.

Asia in the Making of Europe, Volume I Donald F. Lach, 2008-07-15 Praised for its scope and depth, *Asia in the Making of Europe* is the first comprehensive study of Asian influences on Western culture. For volumes I and II, the author has sifted through virtually every European reference to Asia published in the sixteenth century; he surveys a vast array of writings describing Asian life and society; the images of Asia that emerge from those writings; and in turn, the reflections of those images in European literature and art. This monumental achievement reveals profound and pervasive influences of Asian societies on developing Western culture. In doing so, it provides a perspective necessary for a balanced view of world history. Volume I: The Century of Discovery brings together everything that a European could know of India, Southeast Asia, China, and Japan from printed

books missionary reports traders accounts and maps The New York Review of Books Volume II A Century of Wonder examines the influence of that vast new body of information about Asia on the arts institutions literatures and ideas of sixteenth century Europe
