

Task Centred Approaches

- Task Centred work is systematic and rooted in 'Behavioural Psychology'.
- (Contrast Person Centred approaches)
- The task centred process is rooted in an presupposition of 'cause and effect'.

The Task Centred The Task Centred

David Thomas, Honor Woods

The Task Centred The Task Centred :

The Task-centred Book Peter Marsh, Mark Doel, 2005 Peter Marsh and Mark Doel's new book is a radical departure from traditional literature on social work methods. The main reference point is the voice of practitioners, service users and carers as researched and developed by the authors over twenty years. Task-Centred Social Work Mark Doel, Peter Marsh, 2017-03-02 Task-centred practice is a forward-thinking, goal-orientated approach to social work. It is a practice-based approach built on research which reflects the new mood being developed in the social work field and it has now been successfully used in a wide variety of settings and circumstances. The theme of Task-Centred Social Work is partnership; exploring the principles on which task-centred practice is based while offering clear and practical guidance for work with people who seek help with social problems or with those who are involuntary clients. The book describes in detail the sequence of work to help clients move from present problems to future goals. This is illustrated by a case study which runs through the chapters and uses an imaginative recording style. Checklists and bibliographies are also used to aid understanding. The authors respond to the model's critics and explore both the scope and the limitations of the task-centred practice. Social professionals, whether working in practice or in training settings, will find this book an invaluable aid to the development of successful social practice work. Handbook for Practice Learning in Social Work and Social Care Joyce Lishman, 2007-05-15 This substantially revised, expanded and updated edition of the popular Handbook of Theory for Practice Teachers is a comprehensive summary of the theory, knowledge, research and evidence relating to practice learning in social care, focussing on knowledge-based practice with a focus on improving outcomes. **Working with People with Learning Disabilities** David Thomas, Honor Woods, 2003 The authors bring together the relevant theory for social workers, nurses, teachers and others working with people with learning disabilities. Using jargon-free explanations and case examples, they present the information needed to inform good practice. Essential Theory for Social Work Practice Chris Beckett, 2006-04-06 I can say without equivocation this text is without doubt the best book about social work I have read. Chris Beckett explores the purpose, values, activities and theories of social work in an ever-changing social context that is clearly identified and examined. Stephanie Petrie, University of Liverpool. Every day social workers face decisions that will significantly impact others' lives and it is essential that these practical assessments are supported by a sound understanding of social work theory. In this innovative and highly accessible textbook, Chris Beckett explains how an understanding of these theoretical issues can improve the knowledge and skills base of professional practice. Essential Theory for Social Work Practice is an engaging and readable text with a distinctively realistic and honest approach to the realities of everyday practice. Framed in a comprehensive and logical structure, Part 1 establishes what social workers do and the tools they need. Part 2 considers how to assess, handle and support change in others. Part 3 explores the wide range of roles that social workers must fulfil. Part 4 strengthens these links between theory and practice. Exercises, case examples, chapter summaries

and practice notes are used to great effect in each chapter enabling students to apply theory to practice as they progress through the book The book is an invaluable core text for all undergraduate social work students and offers excellent support for practitioners in their every day practice *Task-centered Practice* William James Reid,Laura Epstein,1977 Based on the papers of the Conference on applications of task centered treatment held at the University of Chicago 1975 *Critical Practice in Social Work* Robert Adams,Lena Dominelli,Malcolm Payne,2009-04-16 What do social workers need to know in order to practise skilfully and effectively Edited by three Social Work s leading scholars the second edition of this highly respected textbook helps bridge the gap between social work theory and the challenges of day to day practice Versatile and thoughtful the book s simultaneous accessibility and depth make it essential reading suited for both social work students at undergraduate and post qualifying level Practitioners too will learn and benefit from the insights collected together in this valuable addition to their bookshelf **Social Workers' Desk Reference** Albert R. Roberts,2009 This is a new edition of the wildly successful everyday reference for social workers Like the first edition it has been crafted with the help of an extensive needs assessment survey of educators and front line practitioners ensuring that it speaks directly to the daily realities of the profession It features 40% new material and a more explicit focus on evidence based practice *Practising Social Work* Christopher Hanvey,Terry Philpot,2002-08-26 Practicing Social Workprovides a systematic exploratiuon of ar ange of social work approaches Each chapter focuses on a single theme and explains the practice implications of a particular method **Generalist Practice** Eleanor Reardon Tolson,William James Reid,Charles D. Garvin,2003 This basic textbook seeks to establish a task centered methodology a structured short term problem solving approach applicable across systems at five levels of practice the individual the family the group organizations and communities The second edition offers more information on systems theories and includes case studies with each chapter Checklists are provided for each level of practice along with questions for consideration and practice exercises to help students monitor their understanding and skill development **The Task-Centred Book** Peter Marsh,Mark Doel,2005-05-01 Task centred social work is one of the best known and most strongly supported approaches to social work practice This text is a radical departure from traditional literature on social work methods The main reference point is the voice of practitioners service users and carers as researched and developed by the authors over twenty years Case studies are used throughout the book to build on the experiences of practitioners and the people with whom they have worked demonstrating practical skills for study and analysis teaching and learning practicing task centred social work review and continuing development The Task Centred Book is a core text for both undergraduate social work courses and continuing professional development training as well as being a practical book for the active professional which will support the development and implementation of task centred practice **Problems, Tasks and Outcomes** E. Matilda Goldberg,Jane Gibbons,Ian Sinclair,2021-11-07 In the 1980s although most social workers organised their time and described their work in terms of cases research studies had cast

serious doubts on the efficacy of working in this way As a result there had been growing anxiety about what social workers do what they ought to do and the training they needed Task centred casework was an approach to social work which proposed a solution to some aspects of this dilemma Growing out of the surprising results of an American research study it broke free from the traditional psycho analytic approach to casework It aimed at clarity of purpose a concentration on the clients perceptions of the problems openness about clients and helpers intentions and agreement about what is to be done and achieved within a specified time Originally published in 1985 this book brings together three British studies that accompanied and in some respects pioneered the introduction of task centred casework into the United Kingdom The studies describe and evaluate task centred casework with social services department clients with young people on probation and with men and women referred to hospital after poisoning themselves The research suggests what task centred casework can and cannot achieve describes how clients experience it and seeks to define the skills it requires The studies also provide some reasons why many previous studies of social work have failed to find evidence for social work effectiveness The book uses much case material to illustrate methods of task centred casework and its outcomes as seen by clients social workers and an independent outsider It should still be of interest to social workers teachers of social work and social work students More generally it will be welcomed by all those who are interested in building social work on a surer basis than anecdote and fashion

Brief Treatment and a New Look at the Task-centred Approach Laura Epstein,1992 The Task Planner William J. Reid,2000-07-12 A comprehensive A to Z set of task planners for more than one hundred psychosocial problems from alcoholism and anxiety to domestic violence and sexual abuse Each entry includes a menu of actions the client can undertake to affect resolution a guide to the practitioner s role in facilitating these actions and a reference list An accompanying disk allows social workers to update the task planners they are working with and enables keyword searches for specific topics Discussions that Work Penny Ur,1981-01-30 Fifty practical activities to produce a genuine and
