Three Centuries Of Conflict In East Timor Genocide Political Violence Human Rights:

Three Centuries of Conflict in East Timor Douglas Kammen, 2015-08-20 Introduction situating recurrent mass violence Contested origins Maubara and the Dutch East India Company Vassalage and violence 1861 1887 The uprising and devastation of 1893 High colonialism and new forms of oppression 1894 1974 The end of empire and the Indonesian occupation 1974 1998 Serious crimes and the politics of the past 1999 2012 **Gender Violence in Peace and War**

Victoria Sanford, Katerina Stefatos, Cecilia M. Salvi, 2016-09-16 Reports from war zones often note the obscene victimization of women who are frequently raped tortured beaten and pressed into sexual servitude Yet this reign of terror against women not only occurs during exceptional moments of social collapse but during peacetime too As this powerful book argues violence against women should be understood as a systemic problem one for which the state must be held accountable The twelve essays in Gender Violence in Peace and War present a continuum of cases where the state enables violence against women from state sponsored torture to lax prosecution of sexual assault Some contributors uncover buried histories of state violence against women throughout the twentieth century in locations as diverse as Ireland Indonesia and Guatemala Others spotlight ongoing struggles to define the state's role in preventing gendered violence from domestic abuse policies in the Russian Federation to anti trafficking laws in the United States Bringing together cutting edge research from political science history gender studies anthropology and legal studies this collection offers a comparative analysis of how the state facilitates legitimates and perpetuates gender violence worldwide The contributors also offer vital insights into how states might adequately protect women's rights in peacetime as well as how to intervene when a state declares war on its female citizens The Politics of Genocide Jeffrey S. Bachman, 2022-09-16 Beginning with the negotiations that concluded with the

unanimous adoption of the United Nations Convention on the Prevention and Punishment of the Crime of Genocide on December 9 1948 and extending to the present day the United States Soviet Union Russia China United Kingdom and France have put forth great effort to ensure that they will not be implicated in the crime of genocide If this were to fail they have also ensured that holding any of them accountable for genocide will be practically impossible By situating genocide prevention in a system of territorial jurisdiction by excluding protection for political groups and acts constituting cultural genocide from the Genocide Convention by controlling when genocide is meaningfully named at the Security Council and by pointing the responsibility to protect in directions away from any of the P 5 they have achieved what can only be described as practical impunity for genocide The Politics of Genocide is the first book to explicitly demonstrate how the permanent member nations have exploited the Genocide Convention to isolate themselves from the reach of the law marking them as outlaw states **Resonant Violence** Kerry Whigham, 2022-02-11 From the Holocaust in Europe to the military dictatorships of Latin America to the enduring violence of settler colonialism around the world genocide has been a defining experience of far too many societies In many cases the damaging legacies of genocide lead to continued violence and social divisions for

decades In others however creative responses to this identity based violence emerge from the grassroots contributing to widespread social and political transformation Resonant Violence explores both the enduring impacts of genocidal violence and the varied ways in which states and grassroots collectives respond to and transform this violence through memory practices and grassroots activism By calling upon lessons from Germany Poland Argentina and the Indigenous United States Resonant Violence demonstrates how ordinary individuals come together to engage with a violent past to pave the way for a less violent future

A Rhetorical Crime Anton Weiss-Wendt, 2018-05-10 The Genocide Convention was drafted by the United Nations in the late 1940s as a response to the horrors of the Second World War But was the Genocide Convention truly effective at achieving its humanitarian aims or did it merely exacerbate the divisive rhetoric of Cold War geopolitics A Rhetorical Crime shows how genocide morphed from a legal concept into a political discourse used in propaganda battles between the United States and the Soviet Union Over the course of the Cold War era nearly eighty countries were accused of genocide and yet there were few real time interventions to stop the atrocities committed by genocidal regimes like the Cambodian Khmer Rouge Renowned genocide scholar Anton Weiss Wendt employs a unique comparative approach analyzing the statements of Soviet and American politicians historians and legal scholars in order to deduce why their moral posturing far exceeded their humanitarian action

Reluctant Interveners Eyal Mayroz, 2020 Why do we allow our governments to get away with bystanding to genocide Focusing on the relationships between citizens political elites and U S institutions in the most powerful nation in the world Reluctant Interveners offers a sobering account of the interplays between values and interests words and deeds which transformed the pledge of never again to a recurring reality of ever again

Genocide Studies Jeffrey S. Bachman, 2024-10-11 In recent years the world has been shaken by numerous events that have caused and continue to cause massive human suffering from the COVID 19 pandemic to intrastate and interstate armed conflicts Moreover climate change continues to plow ahead contributing to growing tensions population movements and resource scarcity Meanwhile the methods by which groups and group life are threatened and the means by which violence is incited and perpetrated continue to evolve Such divergent crises even when they overlap or intersect confound definition and label This book seeks not to answer the question What is genocide but rather What is genocide studies When Raphael Lemkin coined the term genocide in 1944 he could not have foreseen what the world would look like today Now is the time to think about current manifestations of genocide and those likely to emerge in the future

Memories before the State Joseph P. Feldman, 2021-08-13 Honorable Mention for Best Book Award from the Historia Reciente y Memoria Section of the Latin American Studies Association LASA Memories before the State examines the discussions and debates surrounding the creation of the Place of Memory Tolerance and Social Inclusion LUM a national museum in Peru that memorializes the country's internal armed conflict of the 1980s and 1990s Emerging from a German donation that the Peruvian government initially rejected the Lima based museum project experienced delays leadership changes and limited institutional support as

planners and staff devised strategies that aligned the LUM with a new class of globalized memorial museums and responded to political realities of the country's postwar landscape. The book analyzes forms of authority that emerge as an official institution seeks to incorporate and manage diverse perspectives on recent violence. *Understanding the Age of Transitional Justice* Nanci Adler, 2018-06-22. Since the 1980s an array of legal and non legal practices labeled Transitional Justice has been developed to support post repressive post authoritarian and post conflict societies in dealing with their traumatic past. In *Understanding the Age of Transitional Justice* the contributors analyze the processes products and efficacy of a number of transitional justice mechanisms and look at how genocide mass political violence and historical injustices are being institutionally addressed. They invite readers to speculate on what else the transcripts produced by these institutions tell us about the past and the present calling attention to the influence of implicit history conveyed in the narratives that have gained an audience through international criminal tribunals trials and truth commissions. Nanci Adler has gathered leading specialists to scrutinize the responses to and effects of violent pasts that provide new perspectives for understanding and applying transitional justice mechanisms in an effort to stop the recycling of old repressions into new ones. **The United States and the Armenian Genocide** Julien Zarifian, 2024. This is the first book to examine how and why the United States refused to officially acknowledge the 1915-17 Armenian Genocide until the early 2020s. Drawing from congressional records rare newspapers and interviews with lobbyists and decision makers historian Julien Zarifian reveals how genocide recognition became such a complex politically sensitive issue.
