Too Much To Ask Black Women In The Era Of Integration:

Black Women in the Ivory Tower, 1850-1954 Stephanie Y. Evans, 2016-12-01 Evans chronicles the stories of African American women who struggled for and won access to formal education beginning in 1850 when Lucy Stanton a student at Oberlin College earned the first college diploma conferred on an African American woman In the century between the Civil War and the civil rights movement a critical increase in black women s educational attainment mirrored unprecedented national growth in American education Evans reveals how black women demanded space as students and asserted their voices as educators despite such barriers as violence discrimination and oppressive campus policies contributing in significant ways to higher education in the United States She argues that their experiences ideas and practices can inspire contemporary educators to create an intellectual democracy in which all people have a voice Among those Evans profiles are Anna Julia Cooper who was born enslaved yet ultimately earned a doctoral degree from the Sorbonne and Mary McLeod Bethune founder of Bethune Cookman College Exposing the hypocrisy in American assertions of democracy and discrediting European notions of intellectual superiority Cooper argued that all human beings had a right to grow Bethune believed that education is the right of all citizens in a democracy Both women s philosophies raised questions of how human and civil rights are intertwined with educational access scholarly research pedagogy and community service This first complete educational and intellectual history of black women carefully traces quantitative research explores black women s collegiate memories and identifies significant geographic patterns in America s institutional development Evans reveals historic perspectives patterns and philosophies in academia that will be an important reference for scholars of gender race and education

Emerging Intersections Bonnie Thornton

Dill, Ruth Enid Zambrana, 2009-01-01 The United States is known as a melting pot yet this mix tends to be volatile and contributes to a long history of oppression racism and bigotry Emerging Intersections an anthology of ten previously unpublished essays looks at the problems of inequality and oppression from new angles and promotes intersectionality as an interpretive tool that can be utilized to better understand the ways in which race class gender ethnicity and other dimensions of difference shape our lives today The book showcases innovative contributions that expand our understanding of how inequality affects people of color demonstrates the ways public policies reinforce existing systems of inequality and shows how research and teaching using an intersectional perspective compels scholars to become agents of change within institutions By offering practical applications for using intersectional knowledge Emerging Intersections will help bring us one step closer to achieving positive institutional change and social justice Closer to Freedom Stephanie M. H. Camp, 2005-10-12 Recent scholarship on slavery has explored the lives of enslaved people beyond the watchful eye of their masters Building on this work and the study of space social relations gender and power in the Old South Stephanie Camp examines the everyday containment and movement of enslaved men and especially enslaved women In her investigation of the movement of bodies objects and information Camp extends our recognition of slave resistance into new arenas and reveals an important and hidden culture of opposition Camp discusses the multiple dimensions to acts of resistance that might otherwise appear to be little more than fits of temper She brings new depth to our understanding of the lives of enslaved women whose bodies and homes were inevitably political arenas Through Camp's insight truancy becomes an act of pursuing personal privacy Illegal parties frolics become an expression of bodily freedom And bondwomen who acquired printed abolitionist materials and posted them on the walls of their slave cabins even if they could not read them become the subtle agitators who inspire more overt acts The culture of opposition created by enslaved women's acts of everyday resistance helped foment and sustain the more visible resistance of men in their individual acts of running away and in the collective action of slave revolts Ultimately Camp argues the Civil War years saw revolutionary change that had been in the making for decades The White Racial Frame Joe R. Feagin, 2013-08-21 In this book Joe Feagin extends the systemic racism framework in previous Routledge books by developing an innovative concept the white racial frame Now four centuries old this white racial frame encompasses not only the stereotyping bigotry and racist ideology emphasized in other theories of race but also the visual images array of emotions sounds of accented language interlinking interpretations and narratives and inclinations to discriminate that are still central to the frame's everyday operations Deeply imbedded in American minds and institutions this white racial frame has for centuries functioned as a broad worldview one essential to the routine legitimation scripting and maintenance of systemic racism in the United States Here Feagin examines how and why this white racial frame emerged in North America how and why it has evolved socially over time which racial groups are framed within it how it has operated in the past and in the present for both white Americans and Americans of color and how

the latter have long responded with strategies of resistance that include enduring counter frames In this new edition Feagin has included much new interview material and other data from recent research studies on framing issues related to white black Latino and Asian Americans and on society generally The book also includes a new discussion of the impact of the white frame on popular culture including on movies video games and television programs as well as a discussion of the white racial frame s significant impacts on public policymaking immigration the environment health care and crime and imprisonment issues

Our Minds on Freedom Shannon Frystak,2009-12-01 Literature on the civil rights movement has long highlighted the leadership of ministerial men and young black revolutionaries such as Reverend Martin Luther King Jr Stokely Carmichael and Malcolm X Recent studies have begun to explore female participation in the struggle for racial justice but women continue to be relegated to the margins of civil rights history In *Our Minds on Freedom* Shannon Frystak explores the organizational and leadership roles female civil rights activists in Louisiana played from the 1920s to the 1960s She highlights a diverse group of courageous women who fought alongside their brothers and fathers uncles and cousins to achieve a more racially just Louisiana From the Depression through World War II and the postwar years Frystak shows black women in Louisiana joined and led local unions and civil rights organizations agitating for voting rights and equal treatment in the public arena in employment and in admission to the state s institutions of higher learning At the same time black and white women began to find common ground in organizations such as the YWCA the NAACP and the National Urban League Frystak explores how women of both races worked together to organize the 1953 Baton Rouge bus boycott which served as inspiration for the more famous Montgomery bus boycott two years later to alter the system of unequal education throughout the state and to integrate New Orleans schools after the 1954 Brown decision In the early 1960s a new generation of female activists joined their older counterparts to work with the NAACP the Congress of Racial Equality and a number of local grassroots civil rights organizations Frystak vividly describes the very real dangers they faced canvassing for voter registration in Louisiana s rural areas teaching in Freedom Schools and hosting out of town

civil rights workers in their homes As Frystak shows the civil rights movement allowed women to step out of their prescribed roles as wives mothers and daughters and become significant actors indeed leaders in a social change structure largely dominated by men Our Minds on Freedom is a welcome addition to the literature of the civil rights movement and will intrigue those interested in African American history women s history Louisiana or the U S South

One Nation Divisible

Michael B. Katz, Mark J. Stern, 2006-03-16 American society today is hardly recognizable from what it was a century ago Integrated schools an information economy and independently successful women are just a few of the remarkable changes that have occurred over just a few generations Still the country today is influenced by many of the same factors that revolutionized life in the late nineteenth century immigration globalization technology and shifting social norms and is plagued by many of the same problems economic social and racial inequality One Nation Divisible a sweeping history of twentieth century American life by Michael B Katz and Mark J Stern weaves together information from the latest census with a century s worth of data to show how trends in American life have changed while inequality and diversity have endured One Nation Divisible examines all aspects of work family and social life to paint a broad picture of the American experience over the long arc of the twentieth century Katz and Stern track the transformations of the U S workforce from the farm to the factory to the office tower Technological advances at the beginning and end of the twentieth century altered the demand for work causing large population movements between regions These labor market shifts fed both the explosive growth of cities at the dawn of the industrial age and the sprawling suburbanization of today One Nation Divisible also discusses how the norms of growing up and growing old have shifted Whereas the typical life course once involved early marriage and living with large extended families Americans today commonly take years before marrying or settling on a career path and often live in non traditional households Katz and Stern examine the growing influence of government on trends in American life showing how new laws have contributed to more diverse neighborhoods and schools and increased opportunities for minorities women and the elderly One Nation Divisible also explores the abiding economic paradox in American life while many individuals are able to climb the financial ladder inequality of income and wealth remains pervasive throughout society The last hundred years have been marked by incredible transformations in American society Great advances in civil rights have been tempered significantly by rising economic inequality One Nation Divisible provides a compelling new analysis of the issues that continue to divide this country and the powerful role of government in both mitigating and exacerbating them A Volume in the Russell Sage Foundation Census Series
