and reception of cinema as a modern art form shifting the focus from the production of films to the experience of the audience when viewing them By focusing on the audience instead of the films this study is able to articulate the ways that cinema as a modern activity was incorporated into everyday life and discuss what it meant to be modern in early to midcentury Latin America GME Publications and Marketing Robert H Pritchett III, 2016-01-15 A report of all publications relating to GME activities through 2013
