Tribes Land And The Environment Law Property And Society

Ana Spalding, Daniel Suman

Tribes Land And The Environment Law Property And Society:

Tribes, Land, and the Environment Sarah Krakoff, 2016-02-17 Legal and environmental concerns related to Indian law and tribal lands remain an understudied branch of both indigenous law and environmental law Native American tribes have a far more complex relationship with the environment than is captured by the stereotype of Indians as environmental stewards Meaningful tribal sovereignty requires that non Indians recognize the right of Indians to determine their own relationship to the land and the environment But tribes do not exist in a vacuum in fact they are deeply affected by off reservation activities and similarly tribal choices often have effects on nearby communities This book brings together diverse essays by leading Indian law scholars across the disciplines of indigenous and environmental law The chapters reveal the difficulties encountered by Native American tribes in attempts to establish their own environmental standards within federal Indian law and environmental law structures Gleaning new insights from a focus on tribal land and property law the collection studies the practice of tribal sovereignty as experienced by Indians and non Indians with an emphasis on the development and regulatory challenges these tribes face in the wake of climate change This volume will advance the reader s knowledge and understanding of these challenging issues

The Oxford Handbook of Environmental and Natural Resources Law in India Philippe Cullet, Lovleen Bhullar, Sujith Koonan, 2024-07-12

Environmental law is a broad discipline covering issues such as nature conservation the prevention or abatement of pollution and waste management It also encompasses concerns related to natural resources such as forests minerals and fisheries and the balance between their use and conservation India has been at the forefront of jurisprudential developments among countries with similar environmental geographical socio economic and cultural conditions Concurrently the country has been receptive to ideas and principles arising from other parts of the world or from international law The growth of environmental

and natural resources law in India has been sustained in equal measure by growing environmental awareness and the increasingly dire nature of the problems associated with the environment and natural resources ranging from local issues to the global climate crisis At the same time the continuous push for development has not abated leading to recurrent pressure to weaken existing standards for environmental protection and the management and use of natural resources The Oxford Handbook of Environmental and Natural Resources Law in India offers the most comprehensive coverage of the diverse and complex discipline of environmental and natural resources law in India over the past fifty years With forty two contributions from law and non law scholars the Handbook presents diverse perspectives on several areas including biodiversity climate change water forests agriculture health resource extraction and industrial development By departing from the existing approach that examines natural resources law and environmental law separately The Oxford Handbook of Environmental and Natural Resources Law in India offers a much needed integrated analysis of the development of domestic jurisprudence vis vis the environment and natural resources

The Routledge Handbook of Property, Law and Society Nicole Graham, Margaret Davies, Lee Godden, 2022-11-14 This handbook brings together diverse perspectives major topics and multiple approaches to one of the biggest legal institutions in society property Property touches on many fundamental human questions It involves decisions about power economy morality work and ecology It also involves ideas about where humans fit in the world and how humans relate to more than human life This book will ask in myriad ways such questions as what property means what kinds of property there are what is and should be the relationship between owned and owner and what is the impact of different forms of property on life in this world Drawing on a range of socio legal and empirical methodologies renowned scholars and rising stars in property from around the world present current issues and map future directions in research Coming from the place of law but reaching out through cognate disciplines this handbook provides a comprehensive and accessible survey of current research at the interface of property society and the environment This handbook will appeal to students and researchers across a range of disciplines including law sociology geography history and economics

Oceans and Society Ana Spalding, Daniel Suman, 2023-02-28 This unique textbook presents an introduction to the interdisciplinary field of marine studies exploring the dynamic relationship between people and the marine environment Emphasizing the human dimension of coastal and ocean issues the book provides an innovative examination of the complex marine human environment dynamics by drawing on social science and humanities approaches Applying these interdisciplinary approaches the textbook addresses key challenges facing the marine environment including changing climate fisheries aquaculture marine pollution energy production and management of areas beyond national jurisdiction While leading with a human dimension approach to these challenges the chapters are all firmly grounded in foundational knowledge about coastal and ocean environments and processes The textbook also includes examples of professional or academic areas of specialization within marine studies such as social and environmental justice governance global

perspectives traditional ecological knowledge and management entrepreneurship community development conservation and the blue economy Ultimately the book provides the first cohesive resource on marine studies to educate students train interdisciplinary marine leaders inspire new knowledge about people and the sea generate innovative solutions for sustainable oceans and build capacity for a new generation of marine focused professionals Oceans and Society is essential reading for students on marine studies courses as well as those studying marine governance policy conservation and law more broadly It will also be of great interest to students researchers and professionals interested in applying interdisciplinary approaches to environmental challenges Tribal Economy, Culture and Society in India Nilakantha Panigrahi,2019-01-01 This book is a felicitation volume contains 24 chapters arranged under three different theme representing different parts of India The first theme Development plans execution and ramification covers twelve research papers representing five States The second theme Bio social dimensions of tribal development carries six research papers representing five States while the third theme Resources Management and Socio cultural Changes covers six research papers representing four States of India The book reflects the ground realities of different regions and communities of India will be a knowledge source for the policy makers people s representatives researchers and academicians for the use to formulate solutions to human problems more pragmatically **Regional Environmental Law** Werner Scholtz,Jonathan Verschuuren,2015-04-30 The core focus of this timely volume is to ascertain how regional environmental law may contribute to the pursuit of global sustainable development Leading scholars critically analyze the ways in which states may pool sovereignty to find solutions to **Training Manual on International Environmental Law** ,2006 It is widely recognized that most environmental problems challenges and solutions are transboundary regional or global in scope The environment is an area where states and stakeholders are cooperating extensively and progressively This manual seeks to provide a comprehensive overview of the current body of environmental law Publisher s description *Rethinking Economic Development in Northeast India* Deepak K. Mishra,Vandana Upadhyay,2017-02-03 Economic development of frontier and remote regions has long been a central theme of development studies This book examines the development experience in the northeastern region in India in relation to the processes of globalisation and liberalisation of the economy Bringing together researchers and scholars from both within and outside the region the volume offers a comprehensive and updated analysis of governance and development issues in relation to the northeastern economy With its multidisciplinary approaches the chapters cover a variety of sectors and concerns such as land agriculture industry infrastructure finance human development human security trade and policy This book will be useful to scholars and researchers of economics public policy governance and development geopolitics geography development studies politics and sociology of development and area studies as well as observers and policymakers interested in the Northeast *Energy Abstracts for Policy Analysis* ,1981
