TRIGGER WARNING

IS THE FEAR
OF BEING
OFFENSIVE
KILLING FREE
SPEECH?

'This is an important book, and couldn't be more timely. It's strong-minded, unafraid, determined to knock down all the various specious arguments against free speech, unapologetic about insisting on the value of free expression, and terrifically well argued. In these weak-minded times it's good to have so uncompromising a defence'

Trigger Warning Is The Fear Of Being Offensive Killing Free Speech:

Trigger Warning: Is the Fear of Being Offensive Killing Free Speech? Mick Hume, 2016-05-19 Concise and Abridged Edition In this blistering polemic veteran journalist Mick Hume presents an uncompromising defence of freedom of expression which he argues is threatened in the West not by jackbooted censorship but by a creeping culture of conformism and You Can't Say That

Microaggressions, Safe Spaces, and Trigger Warnings Gary Wiener, 2017-12-15 Despite the name trigger warnings have nothing to do with gun control and safe spaces don't necessarily mean state of the art panic rooms Instead these terms and the phrase microaggressions relate to preserving and protecting one's emotional safety In this volume readers will learn about the increased demand for sensitivity in social settings in literature and media and on the Internet They will also encounter the opposing view that we as a society are becoming too fragile and don't need figurative bulletproof vests for every occasion

Theoterrorism v. Freedom of Speech Paul Cliteur, 2025-10-01 The Rushdie Affair the Danish Cartoon Affair the assault on Charlie Hebdo and the earlier Carrell Affair are examples of religious fanatics extreme reactions to religious satire and criticism Perpetrators of these actions consider themselves as true believers This book aims to understand their motives by means of the concept of theoterrorism terrorism grounded in religious zealotry

Against Free Speech Anthony Leaker, 2020-07-22 This book explores the renewed and vociferous defence of free speech witnessed in relation to a number of high profile events including the Charlie Hebdo massacre the Brexit and Trump campaigns and recent campus politics Anthony Leaker argues that the defence of free speech has played a pivotal role in a resurgent right wing nationalism that it is the rallying point for a wider set of reactionary political demands a form of aggrieved liberalism at best and patriarchal white supremacy at worst aided by a complicit liberal centre By focusing on these events and situating them within the wider geopolitical context of a post democratic post truth world of austerity ongoing conflict in the Middle East Pasokification and rising fascism Leaker critiques the role that the defence of free speech has played in legitimising the scapegoating of oppressed minorities while deflecting attention from the egregious operations of power that have led to ever greater inequality injustice and capitalist destruction This powerful book shows that free speech is in fact a myth an ideological tool employed by those in power to sustain existing power relations

No Free Speech for Fascists David Renton, 2021-06-24 No Free Speech for Fascists explores the choice of anti fascist protesters to demand that the opportunities for fascists to speak in public places are rescinded as a question of history law and politics It explains how the demand to no platform fascists emerged in 1970s Britain as a limited exception to a left wing tradition of support for free speech The book shows how no platform was intended to be applied narrowly only to a right wing politics that threatened everyone else It contrasts the rival idea of opposition to hate speech that also emerged at the same time and is now embodied in European and British anti discrimination laws Both no platform and hate speech reject the American First Amendment tradition of free speech but the ways in which they reject it are different Behind no platform is not merely a limited range of

political targets but a much greater scepticism about the role of the state The book argues for an idea of no platform which takes on the electronic channels on which so much speech now takes place It shows where a fascist element can be recognised within the much wider category of far right speech This book will be of interest to activists and to those studying and researching political history law free speech the far right and anti fascism It sets out a philosophy of anti fascism for a social media age Trigger Warnings Emily J.
