Zwischen Metaphysik Metaphysikkritik Heidegger Schelling:

Zwischen Metaphysik und Metaphysikkritik Konstanze Sommer, 2015-11-17 Ausgangspunkt des Bandes ist die Frage, worum das spätere Denken Heideggers das Denken nach Sein und Zeit wesentlich kreist. Die Autorin verfolgt dabei das Ziel, Heideggers auf den ersten Blick kryptische Texte in einen Kontext rational nachvollziehbarer Argumente zu versetzen und sie auf diese Weise zugleich aber auch auf konkrete Art und Weise kritisierbar zu machen. Der Zugang zu Heidegger erfolgt dabei über Schellings Freiheitsschrift über Heideggers Auseinandersetzung mit diesem Text und über die Präsenz bestimmter Figuren aus Schellings Philosophie in Heideggers späterem Denken. Der grundlegende Bezug zwischen Schellings Freiheitsschrift und Heideggers Denkweg kann mittlerweile als unbestritten gelten. In weiterer Perspektive aber gelangt die Untersuchung vermittelt über die Freiheitsschrift und deren historisch-theoretischen Hintergrund zu einem Zusammenhang mit zwei Denkern, deren Namen in der Auseinandersetzung mit Heidegger keine oder so gut wie keine Rolle spielen: nämlich Spinoza und Jacobi. So wird deutlich, dass Schelling sich in der Freiheitsschrift explizit auf Jacobi und Spinoza bezieht, mit denen er sich zeit seines Lebens kritisch gleichzeitig aber auch in der Weise positiver Aneignung auseinandergesetzt hat. Heidegger wiederum macht den wesentlichen Bezug seines Denkens zu Schellings Freiheitsschrift bereits zum Ausgangspunkt seiner frühen Vorlesung von 1936. Beim Vergleich der Vernunft bzw. metaphysikkritischen Strukturen bei Heidegger und Jacobi schließlich wird deutlich, dass eine direkte Auseinandersetzung Heideggers mit Jacobi trotz der fehlenden expliziten Verweise durchaus als wahrscheinlich gelten kann.

Heidegger on Death and Being Johannes Achill Niederhauser, 2020-11-21 The book is the first detailed and full exegesis of the role of death in Heidegger's philosophy and provides a decisive answer to the question of being. It is well known that Heidegger asked the question of being. It is equally commonplace to assume that Heidegger failed to provide a proper answer to the question. In this provocative new study, Niederhauser argues that Heidegger gives a distinct response to the question of being and that the phenomenon of death is key to finding and understanding it. The book offers challenging interpretations of crucial moments of Heidegger's philosophy, such as aletheia, the history of being, time, technology, the fourfold, mortality, the meaning of existence, the event, and language. Niederhauser makes the case that any reading of Heidegger that ignores death cannot fully understand those concepts. The book argues that death is central to Heidegger's thinking path from the early 1920s until his late post-war philosophy. The book thus attempts to show that there is a unity of the early and late Heidegger, often ignored by other commentators. Niederhauser argues that death is the fulcrum of Heidegger's ontology and the turning point of the history of being. Death resurfaces at the most crucial moments of the thinking path from beginning to end. The book is of interest to those invested in current debates on the ethics of dying and the transhumanist project of digital human immortality. The text also shows that for Heidegger, philosophy means first and foremost to learn how to die. This volume speaks to continental and analytical philosophers and students alike, as it draws on a number of diverse Heidegger interpretations and appreciates

The Philosophy of Friedrich Heinrich Jacobi Birgit

Sandkaulen, 2023-03-23 The contemporaries of Friedrich Heinrich Jacobi 1743 1819 openly acknowledged his towering importance Both Fichte and Hegel praised him in the same breath with Kant as having launched the philosophical revolution they sought to complete Yet for more than a century misrepresentations of Jacobi's thought have stood in the way of a proper appreciation of his insights In her study of this long neglected German philosopher internationally renowned Jacobi expert Birgit Sandkaulen interprets his philosophical writings in their intellectual context Originally published in German and translated into English for the first time this is a major contribution to reading the life work and legacy of Jacobi The biographical chapter on Jacobi's life as a public intellectual was written specifically for this English edition Offering new perspectives on Fichte Schelling and Hegel Sandkaulen focuses on Jacobi's specific conception of practical realism This conception the source of Jacobi's famous defense of faith and human freedom matches his critique of the German Idealists the post Kantian systems of German Idealism were bound to fail Sandkaulen shows us that long before 20th century philosophers took up this line of thought indeed at the very origin of the epoch making developments of classical German philosophy Jacobi articulated a practical ethical personal realism that is as philosophically appealing and relevant today as it was in its time

On the Divine Things and Their Revelation Friedrich Heinrich Jacobi, 2024-11-12 Friedrich Heinrich Jacobi 1743 1829 both introduced and epitomized the great philosophical controversies of his age His influential text *Von den göttlichen Dingen und Ihrer Offenbarung* aroused the final debate about the intrinsic nihilism of modern philosophy which he postulated ran the risk of becoming a serious threat to human life and intellect In the first English translation of this text *On the Divine Things and Their Revelation* Paolo Livieri provides readers with a historical investigation of the debates that preceded and followed Jacobi's book as well as a philosophical review of its main topics and arguments Jacobi's concluding analysis against systematic philosophy given at the closing of the era of German idealism offers an overview of the possibility of connecting the human and the divine according to the metaphysical approach that he develops into theism This philosophical testament revives the divisive ideas of his first publications and provides new insights into his critique of Baruch Spinoza's philosophy yielding a final evaluation of Immanuel Kant's transcendental method Bringing together Jacobi's most famous themes from faith to revelation and nihilism to immediate knowledge *On the Divine Things and Their Revelation* expresses his tireless commitment to situating the human being at the centre of reality

Die Zeit des Willens und das Ende der Metaphysik Jan Kerkmann, 2020-06-08 Trotz zahlreicher Publikationen die der Konstellation Heidegger und Nietzsche gewidmet sind bildet eine entwicklungsgeschichtliche Studie die den gesamten Textkorpus des nahezu zwei Jahrzehnte berspannenden intensiven Zwiegesprächs von 1936 1953 unvoreingenommen beleuchtet nach wie vor ein Desiderat der Forschung Die vorliegende Arbeit verfolgt das Hauptziel das Verhältnis zwischen Friedrich Nietzsche und Martin Heidegger in entwicklungsgeschichtlicher Perspektive zu erschließen und es in systematischer Hinsicht als

spannungsreichen Austragungsort einer philosophischen Selbstbesinnung auf den Nexus von Metaphysik Geschichtlichkeit und Lebenswelt zu konturieren Als leitendes Ordnungsprinzip fungiert die These dass Heidegger seine modernediagnostische Konzeption des Willens zum Willens nicht nur als letzte Stufe der Entfaltung des Seins des Seienden als Wille etabliert sondern diesen Entwurf selbst durch die Synthese der Willensbegriffe Schellings Schopenhauers und Nietzsches gewinnt Insgesamt sollen die zahlreichen Relationsverschiebungen und veränderten Durchblicksbahnen in Heideggers Nietzsche Vorlesungen nachvollzogen werden

The Palgrave Handbook of German Idealism and Existentialism Jon Stewart,2020-08-25 This Handbook explores the complex relations between two great schools of continental philosophy German idealism and existentialism While the existentialists are commonly thought to have rejected idealism as overly abstract and neglectful of the concrete experience of the individual the chapters in this collection reveal that the German idealists in fact anticipated many key existentialist ideas A radically new vision of the history of continental philosophy is thereby established one that understands existentialism as a continuous development from German idealism Key Features Operates at both the macro level and micro level treating both the two schools of thought and the individual thinkers associated with them Explores the relations from shifting perspectives by examining how the German idealists anticipated existentialist themes and how the existentialists concretely drew on the work of the idealists Meticulously uncovers and documents many little known points of contact between the German idealists and the existentialists Includes often neglected figures such as Jacobi and Trendelenburg This Handbook is an essential resource for researchers and advanced students interested in thinking critically about the broad development of continental philosophy Moreover the individual chapters on specific philosophers contain a wealth of information that will compel experts in the field to reconsider their views on these figures

The New Shudder Christian Kämpf,2024-09-16 It is a new shudder but not an old fear Jean Paul s sentence contains an aesthetic of the fantastic in nuce It is based not least on the philosophy of Friedrich Heinrich Jacobi and aims at the essence of Romanticism In addition to works by Mozart Beethoven Schumann and Wagner the Romantic magic opera by Spohr Weber and Marschner are placed in the centre of interest against this background as well as the music aesthetic discourse accompanying them which was led by Tieck Hoffmann and Horn A B Marx Brendel and Pohl are analysed Contrary to the tradition of musicological research which if not taboo at least trivialised the fantastic K mpf arrives at a new understanding of musical Romanticism according to which it does not lose its affiliation with modernity and its impact on the present because of the fantastic but only gains it
