Turner, 2023-05-08 Sociology has developed theories of social change in the fields of evolution conflict and modernization viewing modern society as essentially unstable and conflict driven However it has not seriously studied catastrophe A Theory of Catastrophe develops a sociology of catastrophes comparing natural social and political causes and consequences and the social theories that might offer explanations A catastrophe is a general and systematic breakdown of social and political institutions resulting among other things in what we could call a catastrophe consciousness The Greek catastrophe formed the conclusion to a dramatic sequence of strophes The catastrophe was the final act of a drama namely its denouement Catastrophic denouements are without hope genocides military occupations plagues famines and earthquakes A Theory of Catastrophe analyzes Pompeii the Black Death colonial genocide in North America WWI and the Spanish Flu and Nazi Germany and finally this century terrorism new wars climate change and pandemics As a study of sociological theory Bryan Turner discusses Spengler's Decline of the West Marxism as a theory of catastrophic capitalism messianic movements Weber on modernity and risk society He concludes by comparing optimism and pessimism and the idea of inter generational justice
