Ghost in the Ranks John J. Whelan, 2016-04-25 Operational Stress Injuries and Post Traumatic Stress Disorder PTSD are among the possible consequences facing members of the Canadian military Unlike the potential physical consequences of dangerous deployments psychological injuries are not always apparent Military members are taught a mental skillset to help them manage their internal emotional worlds allowing them to do extraordinary things Unfortunately while ingrained military training prepares our men and women for action as capable soldiers this same training may also require them to trade aspects of their humanness sowing the seeds for lingering mental distress As a result those most affected are left in a limbo disconnected from their military roles and yet unable to relate to their former civilian lives They

become ghosts of their former selves haunting the ranks until more often than not they find themselves on the outside looking in with unacknowledged scars anger and regret We ask a great deal of our men and women in uniform if a shift in culture can help members of our military with mental distress we owe it to them to make that shift possible www.whelanpsych.com *The Challenges of Corporate Entrepreneurship in the Disruptive Age* Donald F. About Schools Aimee Howley, Craig Howley, 2012-11-12 As its title implies this book has a deceptively simple mission to prepare would be school leaders to draw upon a variety of theoretical perspectives when thinking about schools and schooling It shows how theories can function as cognitive tools to be mastered carefully stored in one's intellectual toolbox and used to interpret and resolve real world problems Beneath this goal lies the belief that the most effective leaders are those who are able to construct their own well grounded interpretations of events and their own responses to those events Key features of this exciting new text include the following Focus on Alternative Theories The functionalist theoretical views that have dominated administrator preparation programs for the last half century are reviewed early in the book and are shown to be inadequate to the task of understanding and coping with the complex realities of modern day schooling The remainder of the book presents alternative views of schooling that taken together can be thought of as a theoretical repertoire from which to construct interpretations and solutions to everyday real world problems Focus on Diversity Diversity is examined from a variety of viewpoints Chapter 6 looks at the cultural bases of leadership Chapter 7 at comparative and international contexts and Chapter 8 at gender and sexual orientation Illustrative Cases Each chapter contains a case with an embedded dilemma similar to those that real world administrators confront While illustrating the particular theoretical view presented in the chapter these cases are sufficiently complex that they lend themselves to interpretation by any of the other theories considered in the book This book is appropriate for graduate level courses with titles such as Organizational Theory Theory of School Leadership or Introduction to Educational Administration It might also be used as one of several texts in advanced courses on leadership theory *Prefiguring Peace* Michelle I.
