Ivanhoe Walter Scott, 2024-01-18 Walter Scott's *Ivanhoe* published in 1819 is a pioneering historical novel set in 12th century England during the tumultuous reign of King Richard the Lionheart. Renowned for its vivid portrayal of the era's chivalry and conflict, the narrative unfolds the adventures of the Saxon knight Wilfred of Ivanhoe as he navigates the intricacies of feudal loyalty, cultural rivalry, and romance amidst the backdrop of Norman-Saxon tensions. Scott employs a rich archaic prose style that immerses readers in the period while employing romanticized characters such as the noble Rebecca and the villainous Prince John to explore themes of identity, honor, and social justice within a richly textured historical context.

Walter Scott 1771-1832 a Scottish writer and historian is hailed as the father of the historical novel. His own life experiences growing up during the aftermath of the Jacobite uprisings and his deep engagement with Scottish folklore profoundly influenced his narrative style and themes. Scott's extensive knowledge of history and literature allows him to craft compelling tales that resonate with contemporary social issues while simultaneously paying homage to the past, making *Ivanhoe* a testament to his literary prowess. With its captivating blend of adventure, romance, and historical authenticity, *Ivanhoe* is a must-read for anyone intrigued by the intersection of history and fiction. This seminal work not only lays the groundwork for the historical romance genre but also invites readers to reflect on enduring social themes that remain relevant today. Dive into Scott's intricate world where honor and valor reign supreme and experience the rich legacy of one of literature's giants.

A Soldier's Chronicle of the Hundred Years War Anne Curry, Rémy Ambühl, 2022 A remarkable and very important unpublished chronicle written by two soldiers covering in detail the English campaigns in France from 1415 to 1429. It lists many individuals who served in the war and was written specifically for Sir John Fastolf, the English commander. This previously unpublished chronicle from the mid-fifteenth century covers the English wars in France from 1415 to 1429. It is highly unusual in that it was written by two soldiers, Peter Basset and Christopher Hanson. William Worcester, secretary to the English commander Sir John Fastolf, also had a hand in it, and it was specifically written for Sir John. The content is unusual as it includes many lists of individuals serving in the war and records their presence at battles, naming more than 700 in all. Over half these individuals are French or Scottish, so it would seem that the authors had a particularly detailed knowledge of French military participation. The narrative is important for the English campaigns in Maine in the 1420s in which Fastolf was heavily involved and which otherwise receive little attention in chronicles written on either side of the Channel. The progress of the war is well mapped with around 230 place names mentioned. The chronicle was extensively used in the sixteenth century by several heralds and by Edward Hall. As a result, it had an influence on Shakespeare. The death of the earl of Salisbury at Orleans in *Henry VI Part I* follows the chronicle closely. *The Mirror for Magistrates* Salisbury

narrative is also derived from the chronicle Another point of interest is that the chronicle is by a scribe who can be identified and proves to be the only known fifteenth century account of the war written in England in French which adds an important linguistic dimension to its study
