Muscles in the Movies John D. Fair,David L. Chapman,2020-11-16 John Fair and David Chapman tell the story of how filmmakers use and manipulate the appearance and performances of muscular men and women to enhance the appeal of their productions The authors show how this practice deeply rooted in western epistemological traditions evolved from the art of photography through magic lantern and stage shows into the motion picture industry arguing that the sight of muscles in action induced a higher degree of viewer entertainment From Eugen Sandow to Dwayne The Rock Johnson muscular actors appear capable of performing the miraculous and with the aid of stuntmen and filming contrivances they do By such means muscles are used to perfect the art of illusion inherent in movie making from its earliest days
