The Sword In The Sun Dialogue With An Angel:

The Sword in the Sun Anthony Duncan, Professor of Physics Anthony Duncan, 1997 This is the record of a remarkable conversation between an angel and a rather surprised Christian priest It is notable for its intelligent treatment of little understood esoteric subjects and its insight into the evolution of consciousness and the relationship between human consciousness and Divine Being The seven chapters cover subjects ranging from the rhythms and patterns of nature to channeling reincarnation and the relation of the Qabalah to the chakras

Horses and the Mystical Path Adele Von Rust McCormick, Thomas McCormick, 2010-09-24 On a trip to Scotland the psychotherapist family team of Adele Deborah and Thomas McCormick pioneers in the psychotherapeutic use of horses discovered that early Celtic mysticism held important insights into an equestrian partnered spirituality The McCormicks show how to integrate this spirituality with psychology forming a new powerful form of healing Horses and the Mystical Path recounts their memorable journey and the lessons they learned from their amazing equine guides

Experience of the Inner Worlds Gareth Knight, 2010 Originally published in 1975 Experience of the Inner Worlds is a classic magical textbook of the Western Mystery Tradition Covering a wide range of topics within a Christian oriented Qabalistic framework Gareth Knight explains the difference between magic and mysticism natural and revealed religion monism and theism He also covers the practicalities examining methods of inner plane communication contact with the Masters the consciousness approach of Carl Jung the vision of Dante and the archetypal power of the Hebrew alphabet all within the context of the Qabalistic Tree of Life The book also contains powerful visualisation exercises and examples of communication with angelic and elemental contacts While this book can be used as a course of self instruction it is also an important modern reference book of magical theory and practice and has been used for decades by students of Western Qabalah and magic

I Called It Magic Gareth Knight, 2011 The long awaited magical autobiography of Gareth Knight covers a long career in pursuit of the Mysteries from the adventures of New Dimensions magazine to the calling of King Arthur from the rituals of Sherwood Forest to the Somme from the wrath of fellow ritual magicians to the shining allure of Faery

From Gabriel to Lucifer Valery Rees, 2012-12-04 For sceptics angels may be no more than metaphors poetic devices to convey at least for those with a religious sensibility an active divine interest in creation But for others angels are absolutely real creatures manifestations of cosmic power with the capacity either to enlighten or annihilate those whose awestruck paths they cross Valery Rees offers the first comprehensive history of these beautiful enigmatic and sometimes dangerous beings whose existence and actions have been charted across the eons of time and civilization Whether exploring the fevered visions of Ezekiel and biblical cherubim Persian genii Arab djinn Islamic archangels the austere and haunting icons of Andrei Rublev or Wim Wenders Wings of Desire and the more benign idea of the watchful guardian angel the author shows that the ubiquity of these celestial messengers reveals something profound if not about God or the devil then about ourselves our perennial preoccupation with the transcendent
