The Tasteful Interlude American Interiors Through:

The Tasteful Interlude William Seale, 1981 The historian's dilemma is illustrated in these photographs of interiors. As complete room settings, most of them are quite foreign to us; we identify only with their parts: a familiar type of chair or table or vase. Household things are common fragments of history; their individual meanings and purposes are redefined rapidly and their contexts are subject to alteration. Some objects survive many years because they are adaptable. Others grown obsolete and are discarded. The thousands of household things that appear in these pictures are seen as they were in actual daily use in the past. It is probable that the rooms did not remain as we see them for very long; for small revisions take place endlessly in any house. Were it not for the cameras of some six dozen photographers, these few scenes would have passed away quietly.

The tasteful interlude ; American interiors through the camera's eye, 1860-1917, 1981 Houses and Homes Barbara Howe, 1997 This volume in the Nearby History series helps the reader document the history of a home. The reader will learn to examine written records, oral testimonies, visual sources, and the house's surroundings. The author covers American housing patterns, the individual characteristics of houses in different regions, construction techniques, and materials, household technology, and family life styles. Houses and Homes is Volume 2 in The Nearby History Series. **Selling Culture** Richard Malin Ohmann, 1996 Surveys the new practices of advertising, mass distribution of goods, and the birth of the inexpensive mass audience magazine at the end of the 19th century and their role in the creation of the American professional managerial class. Focuses on magazine publishing careers of key personalities in the publishing world and the role of fiction in the magazines. For students and general readers. Annotation copyright by Book News Inc. Portland, OR. , *Technology as Freedom* Ronald C. Tobey, 2023-11-15 Before 1930 the domestic market for electrical appliances was segmented, but New Deal policies and programs created a true mass market, reshaping the electrical and housing markets and guiding them toward mandated social goals. The New Deal identified electrical refrigeration as a key technology to reform domestic labor, raise family health, and build family assets. New Deal incentives led to nearly fifty percent of Title I National Housing Act loans being used to buy electric refrigerators in the 1930s. New Deal policies ultimately created the mass commodity culture of home-owning families that typified the conservative 1950s. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1996. Consumers' Imperium Kristin L. Hoganson, 2010-03-15 Histories of the Gilded Age and Progressive Era tend to characterize the United States as an expansionist nation bent on Americanizing the world without being transformed itself. In *Consumers' Imperium*, Kristin Hoganson reveals the other half of the story, demonstrating that the years between the Civil War and World War I were marked by heightened consumption of imports and strenuous efforts to appear cosmopolitan. Hoganson finds evidence of

international connections in quintessentially domestic places American households She shows that well to do white women in this era expressed intense interest in other cultures through imported household objects fashion cooking entertaining armchair travel clubs and the immigrant gifts movement From curtains to clothing from around the world parties to arts and crafts of the homelands exhibits Hoganson presents a new perspective on the United States in the world by shifting attention from exports to imports from production to consumption and from men to women She makes it clear that globalization did not just happen beyond America's shores as a result of American military might and industrial power but that it happened at home thanks to imports immigrants geographical knowledge and consumer preferences Here is an international history that begins at home

The Family in America Joseph M. Hawes, Elizabeth F. Shores, 2002-05-22 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers Family in America offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change

From Catharine Beecher to Martha Stewart Sarah A. Leavitt, 2003-04-03 Today's domestic advice writers women such as Martha Stewart Cheryl Mendelson and B Smith are part of a long tradition notes Sarah Leavitt Their success rests on a legacy of literature that has focused on the home as an expression of ideals Here Leavitt crafts a fascinating genealogy of domestic advice based on her readings of hundreds of manuals spanning 150 years of history Over the years domestic advisors have educated women about everything from modernism and morality to sanitation and design Their writings helped create the idealized vision of home held by so many Americans Leavitt says Investigating cultural themes in domestic advice written since the mid nineteenth century she demonstrates that these works which found meaning in kitchen counters parlor rugs and bric a brac have held the interest of readers despite vast changes in women's roles and opportunities Domestic advice manuals have always been the stuff of fantasy argues Leavitt demonstrating cultural ideals rather than cultural realities But these rich sources reveal how women understood the connection between their homes and the larger world At its most fundamental level the true domestic fantasy was that women held the power to reform their society through first reforming their homes

Perspectives on Methodology in Consumer Research David Brinberg, Richard J. Lutz, 2012-12-06 Methodological advances in consumer behavior are increasing rapidly We can characterize these advances by work in two logically separate but functionally related areas a the philosophical underpinnings of our methods and b the analytic strategies for examining the phenomena of interest in the field An important

aspect in communicating these advances is the demonstration of their use on focal problems in consumer behavior Current research strategies and analytic techniques in the field of consumer research reflect the dominant logical empiricist epistemology The development of new epistemologies e g scientific relativism hypothetical realism however is likely to modify the dominant logical empiricist approach and is also likely to influence the analytic strategies used to conduct research For instance with the increased awareness of scientific relativism and hypothetical realism greater emphasis is anticipated for idiographic rather than nomothetic designs for observational rather than experimental designs for process rather than static analyses and for more sophisticated techniques for summarizing findings across studies The major theme underlying this volume is that conceptual analytic and substantive diversity are essential for consumer behavior research to advance Collectively the chapters we present in this volume are a diverse set of perspectives for the study of consumer behavior This volume is organized into three parts 1 philosophical orientations toward consumer behavior research 2 analytic strategies for consumer behavior research and 3 applications of these orientations and strategies to current research areas

Home on the Rails Amy G. Richter, 2006-03-13 Recognizing the railroad's importance as both symbol and experience in Victorian America Amy G Richter follows women travelers onto trains and considers the consequences of their presence there For a time Richter argues nineteenth century Americans imagined the public realm as a chaotic and dangerous place full of potential where various groups came together collided and influenced one another for better or worse The example of the American railroad reveals how by the beginning of the twentieth century this image was replaced by one of a domesticated public realm a public space in which both women and men increasingly strove to make themselves at home Through efforts that ranged from the homey touches of railroad car decor to advertising images celebrating female travelers and legal cases sanctioning gender segregated spaces travelers and railroad companies transformed the railroad from a place of risk and almost unlimited social mixing into one in which white men and women alleviated the stress of unpleasant social contact Making themselves at home aboard the trains white men and women domesticated the railroad for themselves and paved the way for a racially segregated and class stratified public space that freed women from the home yet still preserved the railroad as a masculine domain
