The Temporality of Taste in Eighteenth-Century British Writing James Noggle,2012-02-09 Is taste a quick momentary experience in the individual mind Or something durable shaped by slow historical processes affecting groups of people at different times and places British writers in the eighteenth century believed that it was both and the tension between these temporal poles shaped the meaning of taste in the period and set a course for aesthetics in following centuries Focusing on works in many genres Alexander Pope s poems David Hume s historiography essays by Hannah More and Anna Barbauld and novels by Frances Burney and William Beckford this book sees the divided temporality of taste as an unpredictable force in British writing The eighteenth century was the age of taste Writers considered its intense effects on individual minds as especially characteristic of the collective present of British modernity whilst they also recognized the disturbing tendency of taste s immediacy and its historical roles to interrupt and foreclose on each other While noting how

taste s two temporal flavours may be made to agree in order to consolidate various national social and gendered identities this book also demonstrates that taste s dual temporality makes it more disruptive than scholars usually think As such taste models a kind of critical practice that this book itself endeavours to inherit the insistent testing of the moment of discernment and on going patterns of thinking and feeling against each other Culinary Taste Donald Sloan, Prue Leith, 2012-05-04

Ronan Hervouet, 2021-03-03 Belarus has emerged from communism in a unique manner as an authoritarian regime The author who has lived in Belarus for several years highlights several mechanisms of tyranny beyond the regime's ability to control and repress which should not be underestimated The book immerses the reader in the depths of the Belarusian countryside among the kolkhozes and rural communities at the heart of this authoritarian regime under Alexander Lukashenko and offers vivid descriptions of the everyday life of Belarusians It sheds light on the reasons why part of the population supports Lukashenko and takes a fresh look at the functioning of what has been called the last dictatorship in Europe **Clement of Alexandria and the Judgement of Taste** J. M. F. Heath, 2024-04-22

Clement of Alexandria and the Judgement of Taste Pedagogical Rhetoric and Christian Formation provides a new account of Clement of Alexandria's *Paedagogus* as a programme in the formation of the judgement of taste situating it in critical dialogue with modern approaches to the judgement of taste and aesthetics The book's key questions are framed in light of Pierre Bourdieu's *Distinction* 1979 a landmark in twentieth century scholarship on the theory of taste J M F Heath studies Clement's rhetoric and theology in the context of the Christian Second Sophistic when Christians were experimenting with new ways of inhabiting the rhetorical and philosophical culture of the Greco Roman world The *Paedagogus* shows Clement's pedagogical method and rhetorical strategy at the early stages of Christian formation when his audience are not yet ready for abstract philosophical argument This was a time for forming people's habits of judgement and preferences of taste so as to ground their daily lives in deeper desires and aversions that are structured through a relationship with God This was an immensely important stage of Christian formation many people never got beyond this to any sort of philosophical curriculum and yet through engaging the tastes of a wide audience Christian leaders sought to spread the gospel and succeeded in doing so Even for the intellectual elites personal formation through preferences of taste was part of how they embodied their desire for God and the way they inhabited it through the sacramental and ascetic life of the church Bourdieu's sociological and anthropological approach proves fruitful for understanding aspects of Clement's rhetorical method and purpose but the study of Clement's theological rhetoric in its cultural context also in turn points the way to a theological response to Bourdieu's theory of taste **The Oxford Handbook of Consumption** Frederick F. Wherry, Ian Woodward (Sociologist), 2019 The Oxford

Handbook of Consumption examines the most pressing questions addressed by consumption studies scholars today The volume counteracts the tendency towards disciplinary myopia as it engages scholars from around the world drawing on sociology anthropology psychology history and consumption studies The volume s thirty one chapters are organized around six themes facilitating cross disciplinary exploration TASTE: Why You Like What You Like Arthur Asa Berger,2023-03-07 Taste is an enigmatic topic We recognize that taste plays an important role in our life in that everything we buy and many things we do are governed by our sense of taste But what exactly is taste How do we get our sense of taste and how does it affect our everyday lives Does it evolve as we grow older or is it a constant in our lives Is it affected by all the influencers to whom we are exposed as we watch TikTok and commercials or do influencers merely spark some kind of inner sense of taste that was with us all the time Is our taste based on our social and economic status or something else What role do income and cost have in determining what we choose to buy What role do the qualities of what we buy and the choices we make shape our decisions Is taste based on logical thinking about things we wish to do or buy upon emotions we have generated by things like identification status or cultural imperatives Taste always involves some element of choice because if there is no choice taste is irrelevant or moot But what are the determinants when we compare things to buy or get or do when we have choices to make This book takes its point of departure from the work of the French sociologist Pierre Bourdieu whose book *Distinction* is considered a classic work of sociological analysis The topics dealt with are shown in the table of contents below The book is distinctive in that it offers discussions of four methodologies theories used in discussing taste semiotics psychoanalytic theory sociological theory and Marxist theory and then applies these theories in the second part of the book to a variety of topics involving taste such as yogurt dogs the singer Celine Dion ocean cruises brands smartphones men s facial hair and so on Readers of the book will learn four methodologies they can use in analyzing taste and see how these methodologies were applied *Lifestyle revolution* Ben Highmore,2023-02-21 In postwar Britain journalists and politicians predicted that the class system would not survive a consumer culture where everyone had TVs and washing machines and where more and more people owned their own homes They were to be proved hopelessly wrong *Lifestyle revolution* charts how class culture rather than being destroyed by mass consumption was remade from flat pack furniture Mediterranean cuisine and lifestyle magazines Novelists cartoonists and playwrights satirised the tastes of the emerging middle classes while sociologists claimed that an entire population was suffering from status anxiety but underneath it all a new order was being constructed out of duvets quiches and mayonnaise easy chairs from Habitat white emulsion paint and ubiquitous pine kitchen tables More than just a world of symbolic goods this was an intimate environment alive with new feelings and attitudes *Consumption, Food and Taste* Alan Warde,1997-02-17 Exploring the expression of taste through the processes of consumption this book provides an incisive and accessible evaluation of the current theories of consumption and trends in the representation and purchase of food Alan Warde outlines various theories of change in the twentieth century and

considers the parallels between their diagnoses of consumer behaviour and actual trends in food practices He argues that dilemmas of modern practical life and certain imperatives of the culture of consumption make sense of food selection He suggests that contemporary consumption is best viewed as a process of continual selection among an unprecedented range of generally accessible items which are made available both commercially and informally *A Matter of Taste* Stanley Lieberson, 2000-01-01 What accounts for our tastes Why and how do they change over time Stanley Lieberson analyzes children's first names to develop an original theory of fashion He disputes the commonly held notion that tastes in names and other fashions simply reflect societal shifts
