G Douglas Barrett,2023-01-13 An engaging argument about what experimental music can tell us about being human In Experimenting the Human G Douglas Barrett argues that experimental music speaks to the contemporary posthuman a condition in which science and technology decenter human agency amid the uneven temporality of postwar global capitalism Time moves forward for some during this period while it seems to stand still or even move backward for others Some say we re already posthuman while others endure the extended consequences of never having been considered fully human in the first place Experimental music reflects on this state Barrett contends through its interdisciplinary involvements in postwar science technology and art movements Rather than pursuing the human s beyond experimental music addresses the social and technological conditions that support such a pursuit Barrett locates this tendency of experimentalism throughout its historical entanglements with cybernetics and in his intimate analysis of Alvin Lucier s neurofeedback music Pamela Z s BodySynth performances Nam June Paik s musical robotics Pauline Oliveros s experiments with radio astronomy and work by Laetitia Sonami Yasunao Tone and Jerry Hunt Through a unique meeting of music studies media theory and art history Experimenting the Human provides fresh insights into what it means to be human **Background Noise, Second Edition**

Brandon LaBelle,2015-01-29 Follows the development of sound as an artistic medium and illustrates how sound is put to use within modes of composition installation and performance Faces of Tradition in Chinese Performing Arts Levi S.

Gibbs,2020-02-11 Faces of Tradition in Chinese Performing Arts examines the key role of the individual in the development of traditional Chinese performing arts such as music and dance These artists and their artistic works the faces of tradition come to represent and reconfigure broader fields of cultural production in China today The contributors to this volume explore the ways in which performances and recordings including singing competitions textual anthologies ethnographic videos and CD albums serve as discursive spaces where individuals engage with and redefine larger traditions and themselves By focusing on the performance scholarship collection and teaching of instrumental music folksong and classical dance from a variety of disciplines these case studies highlight the importance of the individual in determining how traditions have been and are represented maintained and cultivated **Sound Changes** Daniel Fischlin,Eric Porter,2021-05-17 Sound Changes responds

to a need in improvisation studies for more work that addresses the diversity of global improvisatory practices and argues

that by beginning to understand the particular material experiences of sonic realities that are different from our own we can address the host of other factors that are imparted or sublimated in performance These factors range from the intimate affect associated with a particular performer's capacity to generate a distinctive voicing or the addition of an unexpected sonic intervention only possible with one particular configuration of players in a specific space and time Through a series of case studies drawn from Africa Asia the Americas and Oceania Sound Changes offers readers an introduction to a range of musical expressions across the globe in which improvisation plays a key role and the book demonstrates that improvisation is a vital site for the production of emergent social relationships and meanings As it does this work Sound Changes situates the increasingly transcultural dimensions of improvised music in relation to emergent networks and technologies changing patterns of migration and immigration shifts in the political economy of music and other social cultural and economic factors Improvisation studies is a recently developed but growing interdisciplinary field of study The discipline which has only truly come into focus in the early part of the twenty first century has been building a lexicon of key terms and developing assumptions about core practices Yet the full breadth of improvisatory practices has remained a vexed if not impossibly ambitious subject of study This volume offers a step forward in the movement away from critical tendencies that tend to homogenize and reduce practices and vocabularies in the name of the familiar

The Instrumental Music of Wutaishan's Buddhist Monasteries Beth Szczepanski, 2016-03-03 Beth Szczepanski examines how traditional and modern elements interact in the current practice reception and functions of wind music or shengguan at monasteries in Wutaishan one of China's four holy mountains of Buddhism The book provides an invaluable insight into the political and economic history of Wutaishan and its music as well as the instrumentation notation repertoires transmission and ritual function of monastic music at Wutaishan and how that music has adapted to China's current economic political and religious climate The book is based on extensive field research at Wutaishan from 2005 to 2007 including interviews with monks nuns pilgrims and tourists The author learned to play the sheng mouth organ and guanzi double reed pipe and recorded dozens of performances of monastic and lay music The first extensive examination of Wutaishan's music by a Western scholar the book brings a new perspective to a topic long favored by Chinese musicologists At the same time the book provides the non musical scholar with an engaging exploration of the historical political economic and cultural forces that shape musical and religious practices in China
