The South China Sea Arbitration Alfredo C. Robles, 2019-01-01 The South China Sea Arbitration which marks the first time that the Philippines and China have been parties to a compulsory dispute settlement procedure is a landmark legal case The Tribunal tackled head on critical issues in the interpretation and application of the UN Convention on the Law of the Sea that other international courts have failed to address particularly the compatibility of historic rights with the Convention the

identification of maritime features as permanently submerged or above water at high tide and the distinction between features that are fully entitled to maritime zones and those that are not In addition the Tribunal also had to decide on issues as diverse as near collisions at sea illegal fishing of giant clams and sea turtles and the destruction of fragile coral reefs resulting from island building The Tribunals task was rendered arduous by Chinas refusal to appear before it In these circumstances understanding the Tribunals decisions is a challenging undertaking Chinas public relations campaign targeting the proceedings raised issues that the layperson could readily grasp notably African states support for its non appearance the integrity of the judges and the validity of arbitral awards Understanding the Awards and Debating with China aims to facilitate understanding of the South China Sea Arbitration by presenting detailed summaries of the two Arbitral Awards The author rebuts the questionable claims raised by Chinas public relations campaign and highlights Chinas covert actions during the proceedings

The Defaulting State and the South China Sea Arbitration Alfredo C. Robles Jr.,2023-05-27 This book focuses on the legal and procedural problems caused by China s default in the South China Sea Arbitration Many of these problems arose because in several respects China departed from the conduct of other defaulting States in cases before the International Court of Justice The book argues that the Tribunal confronted with the difficulties of maintaining the balance between two parties in a situation of default drew on the full range of its powers to ensure that neither China nor the Philippines would suffer from China s default Further the book describes the shortcomings of the submissions of putative amicus curiae It refutes China s questioning of the independence and impartiality of the experts and of the judges In so doing it explains the expert opinions and the Tribunal s assessments of the latter in the areas of satellite imagery coral reef ecology and navigational safety while rebutting the half truths and counter truths disseminated by Chinese scholars about the proceedings The book compares China s threats to the independence of the Tribunal to its behavior towards Chinese judges It places China s accusations of bias against the Tribunal in the context of China s domestic situation and concludes that the Tribunal acting independently and impartially was able to perform the judicial function despite China s default
