A New Way of Seeing Michael Sarnowski, 2025-06-04 A New Way of Seeing considers the poetry of five writers Louis Simpson Keith Douglas Richard Hugo Howard Nemerov and Randall Jarrell whose work draws on their activities as soldiers in World War II Basing his examination on extensive primary source research Michael Sarnowski identifies distance both literal and figurative and traumatic memory as two interconnected elements of how these poets internalized the war and made sense of the events they witnessed The book is structured on a gradient related to each poet s proximity to combat as the chapters in turn focus on an infantryman Simpson a tank commander Douglas a bombardier Hugo a pilot Nemerov and a stateside flight instructor Jarrell Sarnowski relies on a wealth of archival material overlooked by previous scholarship including poem drafts correspondence flight logs and personal belongings The conclusion revisits notions of legacy and representation by assessing factors that contributed to the early labeling of World War II soldiers as a Silent Generation in contrast to the outpouring of poetry published during and following the First World War By exploring how poets processed their wartime experiences A New Way of Seeing offers a stark reminder of why it remains vital to recognize the physical mental and psychological consequences endured by veterans

The Hell of War Comes Home Owen W. Gilman Jr., 2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II s literature and film Like few other books Gilman s volume studies these new texts among them Kevin Powers s debut novel The Yellow Birds and Phil Klay s short stories Redeployment along with the films The Hurt Locker American Sniper and Billy Lynn s Long Halftime Walk For perspective Gilman also looks at some touchstones from the Vietnam War

Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding

Capturing the Beat

Moment Erik Mortenson, 2010-11-02 CHOICE Outstanding Academic Title Examining the moment as one of the primary motifs of Beat writing Erik Mortenson offers the first book to investigate immediacy and its presence and importance in Beat writing *Capturing the Beat Moment Cultural Politics and the Poetics of Presence* places an expanded canon of Beat writers in an early postmodern context that highlights their importance in American poetics and provides an account of Beat practices that reveal how gender and race affect Beat politics of the moment Mortenson argues that Beat writers focused on action desire and spontaneity to establish an authentic connection to the world around them and believed that living in the moment was the only way in which they might establish the kind of life that led to good writing With this in mind he explores the possibility that far from being the antithesis of their times the Beats actually were a product of them Mortenson outlines the effects of gender and race on Beat writing in the postwar years as well as the Beats attempts to break free of the constrictive notions of time and space prevalent during the 1950s Mortenson discusses such topics as the importance of personal visionary experiences the embodiment of sexuality and the moment of ecstasy in Beat writing how the Beats used photographs to evoke the past and the ways that Beat culture was designed to offer alternatives to existing political and social structures Throughout the volume Mortenson moves beyond the Kerouac Ginsberg Burroughs triumvirate commonly associated with Beat literature discussing women such as Diane di Prima Janine Pommy Vega and Joyce Johnson and African American writers including Bob Kaufman and Amiri Baraka With the inclusion of these authors comes a richer understanding of the Beat writers value and influence in American literary history
