The Sun And The Moon Lords Of Conquest:

The Burden of the Ancients Allen J. Christenson, 2016-10-11 In Maya theology everything from humans and crops to gods and the world itself passes through endless cycles of birth maturation dissolution death and rebirth Traditional Maya believe that human beings perpetuate this cycle through ritual offerings and ceremonies that have the power to rebirth the world at critical points during the calendar year The most elaborate ceremonies take place during Semana Santa Holy Week the days preceding Easter on the Christian calendar during which traditionalist Maya replicate many of the most important world renewing rituals that their ancient ancestors practiced at the end of the calendar year in anticipation of the New Year's rites Marshaling a wealth of evidence from Pre Columbian texts early colonial Spanish writings and decades of fieldwork with present day Maya *The Burden of the Ancients* presents a masterfully detailed account of world renewing ceremonies that spans the Pre Columbian era through the crisis of the Conquest period and the subsequent colonial occupation all the way to the present Allen J Christenson focuses on Santiago Atitlán a Tzutujil Maya community in highland Guatemala and offers the first systematic analysis of how the Maya preserved important elements of their ancient world renewal ceremonies by adopting similar elements of Roman Catholic observances and infusing them with traditional Maya meanings His extensive description of Holy Week in Santiago Atitlán demonstrates that the community's contemporary ritual practices and mythic stories bear a remarkable resemblance to similar cultural entities from its Pre Columbian past

Kolata, 1993-12-08 The Tiwanaku The city of Tiwanaku lies ruined in the rugged Andean steppe of Bolivia twelve thousand feet above sea level the highest urban settlement of the ancient world Its wide streets open towards ramparts of glaciated mountain peaks and the intense blue waters of Lake Titicaca Gigantic stone sculptures and shattered architectural blocks suggest profound antiquity and the passage of great events now lost and unremembered Here two and a half thousand years ago a distinct society emerged which over the course of thirteen centuries developed one of the greatest civilizations and the first empire of the ancient Americas This book the first published history of the Tiwanakan peoples from their origins to their present survival is a feat of scholarly and archaeological detection undertaken and led by the author Alan Kolata draws together the evidence of historical documents from the time of the Iberian conquest accounts and legends of the contemporary inhabitants and the results of extensive excavations in order to provide a narrative covering three thousand years In doing so he addresses and explains features of Tiwanakan culture that have long puzzled scholars the origins of their uniquely massive architecture the nature of their sophisticated hydraulically engineered agriculture their obsession with decapitation and the display of severed heads and not least the reasons for their mysterious and sudden decline at the end of the tenth century The book is illustrated throughout with photographs maps and drawings and is fully referenced and indexed Although written to appeal to the nonspecialist and assuming no prior knowledge of the subject this is a book of scholarly import and likely to become the standard work for many years
