Marshall And Dwight D. Eisenhower** Major James R. Hill, 2014-08-15 In a constantly changing world threatened by ever increasing terrorist acts American interests both at home and abroad require protection provided by great military leaders In order to produce military leaders who can successfully meet the future challenges America faces it is important to develop and refine them early and help them understand how to create and refine

a successful leadership style The process of developing leadership styles however is not easy and it requires a prodigious amount of determination time planning training mentoring and refinement One way to help develop leaders is to show them examples of previously successful leaders leaders such as George C Marshall and Dwight D Ike Eisenhower Marshall and Eisenhower were two talented and exceptional leaders and are great examples of American military leadership Their leadership styles were indispensable during World War II and it is important for leaders today to examine why their leadership styles were so successful

Austrian Historical Memory and National Identity Gunter Bischof, 2017-11-30

When the Hapsburg monarchy disintegrated after World War I Austria was not considered to be a viable entity In a vacuum of national identity the hapless country drifted toward a larger Germany After World War II Austrian elites constructed a new identity based on being a victim of Nazi Germany Cold war Austria however envisioned herself as a neutral island of the blessed between and separate from both superpower blocs Now with her membership in the European Union secured Austria is reconstructing her painful historical memory and national identity In 1996 she celebrates her 1000 year anniversary In this volume of Contemporary Austrian Studies Franz Mathis and Brigitte Mazohl Wallnig argue that regional identities in Austria have deeper historical roots than the many artificial and ineffective attempts to construct a national identity Heidemarie Uhl Anton Pelinka and Brigitte Bailer discuss the post World War II construction of the victim mythology Robert Herzstein analyses the crucial impact of the 1986 Waldheim election imploding Austria's comforting historical memory as a nation of victims Wolfram Kaiser shows Austria's difficult adjustments to the European Union and the larger challenges of constructing a new European identity Chad Berry's analysis of American World War II memory establishes a useful counterpoint to construction of historical memory in a different national context A special forum on Austrian intelligence studies presents a fascinating reconstruction by Timothy Naftali of the investigation by Anglo American counterintelligence into the retreat of Hitler's troops into the Alps during World War II Rudiger Overmans research note presents statistics on lower death rates of Austrian soldiers in the German army Review essays by Gunther Kronenbitter and Gunter Bischof book reviews and a 1995 survey of Austrian politics round out the volume Austrian Historical Memory and National Identity will be of intense interest to foreign policy analysts historians and scholars concerned with the unique elements of identity and nationality in Central European politics

Military Review ,1996 Military Intelligence ,1991 Quarterly Review of Military Literature ,1971

Tedder Vincent Orange,2004-07-31 Arthur Tedder became one of the most eminent figures of the Second World War first as head of Anglo American air forces in the Middle East the Mediterranean and North Africa then as Deputy Supreme Commander to General Eisenhower for the Allied campaign that began in Normandy and ended in Berlin During those anxious exhilarating years he was as The Times of London wrote the most unstuffy of great commanders who could be found sitting cross legged jacketless pipe smoldering answering questions on a desert airstrip After the war promoted to five star rank and elevated to the peerage as Lord Tedder he was made Chief of the Air Staff holding this appointment for longer than anyone since his time four critical years from 1946 to 1949 that saw the tragic start of the Cold War and the inspiring achievement of the Berlin Airlift In 1950 he became Britain s NATO representative in Washington a year that saw the start of a hot war in Korea that threatened to spread around the globe This book provides the first comprehensive account of a great commander s public career and uses hundreds of family letters to portray a private life both joyful and tragic

American Political Leaders Steven O'Brien,1991-10 This book includes biographical facts as well as political contributions

The British Way in Warfare: Power and the International System, 1856-1956 Keith Neilson,2016-03-16 In his groundbreaking book The British Way in Warfare Routledge 1990 David French outlined the skillful combination of maritime economic and diplomatic power employed by Britain to achieve its international goals Almost two decades later this collection offers a reassessment of French s thesis using it as a lens through which to explore Britain s relationship with various kinds of power military and civil and how this was employed across the globe In particular each essay addresses the ways in which the use of power manifested itself in the maintenance of Britain s place within the international system between 1856 and 1956 Adopting twin methodologies the collection firstly addresses the broad question of Britain s relationship with other Great Powers and how these influenced the strategies used before then testing these with specific case studies By taking this approach it is possible to discern which policies were successful and which failed and whether these remained constant across time and space Measuring Britain s strategy against her commercial imperial and military competitors including France the USA Italy Germany and Russia allows intriguing conclusions to be drawn about just how an essentially maritime power could compete with much larger and potentially more powerful continental rivals With

contributions from an outstanding selection of military scholars this collection addresses fundamental questions about the intersection of military economic and diplomatic history that are as relevant today as they were during the height of Britain's imperial power. It will prove essential reading not only for those with an interest in British military history but for anyone wishing to understand how power in all its multifaceted guises can be employed for national advantage on the international stage.

Blind Spot Tim Naftali, 2009-04-24 In this revelatory new account national security historian Timothy Naftali relates the full back story of America's attempts to fight terrorism. On September 11, 2001, a long history of failures, missteps, and blind spots in our intelligence services came to a head with tragic results. At the end of World War II, the OSS's X-2 department had established a seamless system for countering the threats of die-hard Nazi terrorists. But those capabilities were soon forgotten, and it wasn't until 1968 when Palestinian groups began a series of highly publicized airplane hijackings that the U.S. began to take counterterrorism seriously. Naftali narrates the game of catch-up that various administrations and the CIA played with varying degrees of success from the Munich Games hostage taking to the raft of terrorist incidents in the mid-1980s through the first bombing of the World Trade Center in 1993 and up to 9/11. In riveting detail, Naftali shows why holes in U.S. homeland security discovered by Vice President George H.W. Bush in 1986 were still a problem when his son became President and why George W. Bush did little to fix them until it was too late. Naftali concludes that open liberal democracies like the U.S. are incapable of effectively stopping terrorism. For anyone concerned about the future of America's security, this masterful history will be necessary and eye-opening reading.
