leadership has been and will set a new standard for where the future leader must go *Good Shepherds Smell like Sheep* Wade Runge, 2020-09-01 Today's leaders are facing unprecedented challenges that are causing them to quit, burnout, compromise and even commit suicide. This current generation of leaders are functioning in an increasingly complex and rapidly evolving environment. Dr. Wade Runge understands the unique stress leaders are experiencing in a culture that is calling for leaders to perform at their best at every moment. Leaders are expected to be available and accessible at any given moment. But the real question is who is helping them navigate the choppy waters they are experiencing? His experience and acumen concerning leadership has been refined out of the need to be able to adapt to adverse conditions. We are living in uncertain times that call for leaders to rise in the midst of chaos. Dr. Runge's background from combat in the military to planting churches and helping pastors in crisis has prepared him for this time. This transformational book on leadership was written as a manual to help leaders be better prepared for the challenges of the times. The five principles take the reader on a journey from the battlefield to the landscape of ministry challenges to better understand why a good shepherd must smell like sheep. In order for any organization to thrive in uncertain times, it will require sheep and shepherds working together to win. This book is for the person who is serious about growing, leading and winning in these uncertain times. *Good Shepherds Smell like Sheep* is a compelling guide for the challenges of today while empowering leadership to win any battle they may be facing tomorrow.

Anthropological Practice Judith Okely, 2013-05-09 Anthropologists are increasingly pressurised to formulate field methods for teaching. Unlike many hypothesis-driven ethnographic texts, this book is designed with the specific needs of the anthropology student and field researcher in mind, with particular emphasis on the core anthropological method: long-term participant observation. *Anthropological Practice* explores fieldwork experiences unique to anthropology and provides the context by which to explain and develop practice-based and open-ended methodology. It draws on dialogues with over twenty established and younger anthropologists whose fieldwork spans the late 1960s to the present day, taking place in locations as diverse as Europe, India, Malaysia, Indonesia, Africa, Iran, Afghanistan, North and South America. Revealing first-hand and hitherto unrecorded aspects of fieldwork, *Anthropological Practice* provides critical, systematic ways to enhance anthropological and alternative knowledge. It is an essential text for anthropology students and researchers and for all disciplines concerned with ethnography.
