Purkitt, Stephen F. Burgess, 2005-05-11 South Africa's Weapons of Mass Destruction offers an in depth view of the secret development and voluntary disarmament of South Africa's nuclear biological and chemical weapons program Project Coast Helen E Purkitt and Stephen F Burgess explore how systems used for nuclear biological and chemical weapons in South Africa were acquired and established beyond the gaze of international and domestic political actors On the basis of archival evidence from Project Coast and their own extensive interviews with military and political officials Purkitt and Burgess consider what motivates countries to acquire and build such powerful weaponry and examine when and how decisions are made to dismantle a military arsenal voluntarily Questions

such as how to destroy weapons safely and keep them from reappearing on international markets are considered along with comparative strategies for successful disarmament in other nation states Democratic South Africa's Foreign Policy

Suzanne Graham,2016-10-06 This book provides readers with the first comprehensive study of South Africa s foreign policy conducted in a multilateral setting by placing on record over 1000 of South Africa s votes at the United Nations over a 20 year period The study investigates consistency in terms of South Africa s declared foreign policy and its actual voting practices at the United Nations Democratic South Africa s Foreign Policy Voting Behaviour in the United Nations offers a compendium of South Africa s United Nations behaviour during a poignant transitional period in the country s recent history In setting out a framework for analysing the conduct of other countries voting behaviour in parallel with this study it can be used to advance the field as a useful comparative tool This book presents the material needed for International Relations scholars and practitioners in the field to make a reasoned and reflective assessment of this dimension of South Africa s foreign policy The Evolving Structure of South Africa's Economy Seeraj Mohamed,Amuzweni Ngoma,2024-01-23 South

Africa still faces low economic growth and high unemployment coupled with the persistent challenges of poverty and inequality These exert pressure on South Africa to foster structural transformation that will facilitate a more inclusive and resilient economy Authors apply multiple theoretical and empirical perspectives to take stock of the historical and contemporary structure of the South African economy its evolving nature and possible future pathways The explore how South Africa s structural transformation agenda is affected by the global context and discuss debates on the extreme social impacts of globalised and financialised economic structures Contributors offer technical and analytical discussions of the overlapping structural faultlines that produce uneven economic performance They explain the changes and continuities of South Africa s economic structure bound by an analytical thread that centres power relations and political settlements Varied chapters explain how poor governance and corruption have slowed down structural reform This has been further exacerbated by the inconsistent availability of energy and the deterioration of logistics The book details the structural reforms and policy regimes necessary for increasing productive capacity in South Africa s agriculture manufacturing agro processing retail and services energy and mining industries It also reflects on the role that micro and informal enterprises can play if afforded the necessary support The technical details and analyses in the book highlight the need for a radical review of macroeconomic policy to reduce the country s chronic vulnerability to poverty and inequality We Visit South Africa Tammy Gagne,2012-09-30 South Africa s beautiful landscapes and exotic wildlife make the area seem like one of the most peaceful places on earth Nevertheless South Africa has known more than its share of conflicts over the last few centuries The country is home to several different cultures including those of its native tribes its various European settlers and mixes of their customs and languages Living together hasn t always been peaceful Most notably apartheid kept blacks and whites separated for many years Today apartheid only exists in the history books of South Africa Instead of dividing its

people the nation is growing together as it moves toward a bright future *Migrant Labour in South Africa's Mining Economy* Alan H. Jeeves, 1985-06-01 In tracing the development of the recruiting system Alan Jeeves shows how a large proportion of the labour supply came to be controlled by private labour companies and recruiting agents who aimed both to exploit the workers and to extract heavy fees from the employing companies The gold industry struggled for years against the internal divisions which created the competition for labour until at last the Chamber of Mines with the support of the state succeeded in driving out the private recruiters and centralizing the system under its control This study of the interests involved in the struggle for control of the black labour supply reveals much about the forces which created and now entrench racial domination in South Africa's industrial economy
