seems optimistic it is and it's also demanding The Karmapa calls on us to open our mind and heart to the innumerable connections we share with others in our families communities social systems and on our planet Thanks to the depth of his spiritual training and the breadth of his curiosity about the world and his love for it he presents a relevant framework for understanding what it means to be human now and why it's imperative that we concern ourselves with the well being of all others He points to a world we can create through our own effort using a resource we already have in abundance the basic nobility of our human heart
