Primer on Large-Scale Assessments of Educational Achievement Marguerite Clarke, Diego

Luna-Bazaldua, 2021-06-09 To improve their education systems countries around the world have increasingly initiated national large-scale assessment programs or participated in international or regional large scale assessment studies for the first time Well constructed large scale assessments can provide credible information on student achievement levels which in turn can promote better resource allocation to schools stronger education service delivery and improved learning outcomes The World Bank developed this Primer on Large Scale Assessments of Educational Achievement as a first-stop resource for those wanting to understand how to design administer analyze and use the results from these assessments of student achievement The book addresses frequently asked questions from people working on large scale assessment projects and those interested in making informed decisions about them Each chapter introduces a stage in the assessment process and offers advice guidelines and country examples This book also reports on emerging trends in large scale assessment and provides updated information on regional and international large scale assessment programs DIRK HASTEDT Executive Director of the International Association for the Evaluation of Educational Achievement IEA A special feature of the publication is that it not only gives an overview of technical specifications but also includes examples from around the world on how countries are conducting large scale assessments what they found and how the results were used With this perspective the Primer on Large Scale Assessments of Educational Achievement is an excellent and easy to read publication to get a comprehensive overview of large scale assessments and how and why they are conducted SILVIA MONTOYA Director of UNESCO Institute for Statistics UNESCO UIS If you are responsible for learning assessment in a country and are searching for a comprehensive yet readable guide on large scale assessment this is your book Extremely well structured and written this primer is easy to follow and makes points clearly and concisely It is an excellent resource that explores the steps for a good large scale assessment with examples from all international large scale assessment programs ANDREAS SCHLEICHER Director for the Directorate of Education and Skills and Special Advisor on Education Policy to the Organization for Economic Cooperation and Development s OECD Secretary General Many countries have joined international educational assessments to benchmark quality equity and efficiency in their education systems But what does it take to design and implement those efforts well and to draw value from this to help students learn better teachers teach better and schools to work more effectively This Primer on Large Scale Assessments of Educational Achievement helps policy makers and their technical teams to find answers to these questions ANDREI VOLKOV Director of the Institute for Public Strategy Moscow School of Management SKOLKOVO In 2008 when the Russia Education Aid for Development READ Program was launched we determined its main goal as the improvement of the quality of basic education Today the READ Program keeps setting trends as the largest Russian initiative promoting educational assessment Approaches developed

within the READ Program from building institutional and expert capacity to influencing educational reforms have proven their efficacy in many countries The Primer on Large Scale Assessments of Educational Achievement brings together in a practical format the best experience and case studies in conducting assessments under the READ Program An especially important feature of the book is an integrated capacity building component which makes it a practical tutorial ready for use in different cultural contexts Through this book we hope that our collective experience gathered during READ will be widely shared bringing us closer to ach

The NAEP ... Technical Report ,1992 The Testing Gap Jaekyung Lee,2007-05-01

The objective of this book is to advance our understanding of the design implementation and evaluation of test driven external accountability policies for improving both academic excellence and equity This book provides new insights into debates about the efficacy of highstakes testing through critical synthesis of previous studies and through systematic analysis of the achievement gap trends over the past 15 years The core findings have implications for contemporary national and state policy efforts as mandated by NCLB to close the achievement gap The book alerts readers to scientific institutional and technical threats to the current test driven school accountability system and possible consequences if we fail to counteract those threats and continue the current policy course with underfunded mandates and an over reliance on testing and sanctions

Value Added Models in Education Robert W. Lissitz,2005 *Resources in Education* ,1998 **What's Public About Charter Schools?** Gary Miron,Christopher Nelson,2002-03-19

What s Public About Charter Schools by Gary Miron and Christopher Nelson deserves to be cited repeatedly as the debate about charter schools continues The researchers careful and balanced analysis of the situation in Michigan has much to say about the charter school movement across the country and leads to important cautions about whether and how the movement should proceed These recommendations provide concrete and practical solutions for improving charter schools by addressing some of the shortcoming that the authors have uncovered Education Review October 2002

What s Public About Charter Schools provides valuable insights for charter school operators and advocates school administrators community members politicians and policy makers looking for data upon which to base decision making Miron and Nelson have lived school reform evaluation for years and their experience shows in this thoughtful and useful book

Kyle L Peck Charter School Founder and Professor of Education Pennsylvania State University This is the most comprehensive book that I have seen on charter schools Both the descriptive data and the analysis are an important contribution

Henry M Levin Director National Center for the Study of Privatization in Education Teachers College Columbia University Miron and Nelson make a significant contribution to the debate about school restructuring reforms provide a strikingly balanced look at the charter school movement in action Their conclusions and recommendations offer important lessons to school reformers researchers and policymakers both in the United States and internationally

Priscilla Wohlstetter Director Center on Educational Governance Rossier School of Education University of Southern California This book covers essential material and will be of interest for classes on education policy and

educational administration and will command an audience among school reformers and policy analysts William L Boyd Distinguished Professor of Education Pennsylvania State University University Park PA How much do we really know about the quality of education in charter schools Here are the documented answers to the questions we all have about student achievement choice innovation and accountability How do students in charter schools perform compared to students in public non charter schools Have charter schools succeeded as laboratories of educational innovation How do the costs of charter schools compare with non charter schools What types of professional development enhancements and teaching environments do charter schools provide for their teachers What effect has privatization had on charter school students and operations Esteemed charter school researchers Gary Miron and Christopher Nelson have carefully examined a wealth of evidence about charter schools and boiled down the results in this insightful accessible work Policymakers researchers school administrators parents and others interested in school reform will find valuable information about school choice privatization and new forms of holding schools accountable vital data on evaluating this new private public hybrid and its success at serving the core purpose of public education **Five Case Studies for Youth-at-risk Project** ,1988

Mathematics Achievement and Self-esteem at Secondary Schools in Zaire Robert S. Prouty,1987 Statistics of Land-grant Colleges and Universities United States. Office of Education,1934 **Using the Results of a National Assessment of Educational Achievement** Thomas Kellaghan,Vincent Greaney,Scott Murray,2009 What are students learning Throughout the world governments striving to improve educational quality are turning to national assessments to provide this much needed information in key curriculum areas The capacity for carrying out national assessments has grown remarkably in recent years but it has not been matched by widespread use of their findings This book seeks to maximize an appreciation for the value of such data and to assist countries in exploiting the knowledge that national assessments yield Using the Results of a National Assessment of Educational Achievement identifies the main factors affecting the use of national assessment findings These include the political context in which an assessment is carried out the nature of the assessment census based or sample based the assignment of accountability for the results and the quality of assessment instruments The book describes the type of information that the main report of a national assessment should contain as well as other means of communicating findings to technical and nontechnical audiences It outlines general considerations in translating national assessment results into policy and action and examines specific procedures for using the data in policy making educational management teaching and promoting public awareness The topics addressed in this volume should be of interest to policy makers educators researchers and development practitioners
