*Tropic of Chaos* Christian Parenti, 2011-06-28 An investigative journalist visits the economically and politically battered post colonial nations around the earth s mid latitudes and reveals how extreme weather in the era of climate change is breeding banditry humanitarian crises and state failure      **Climate Crisis and the Kleptocene** Wendy Lynne

Lee, 2024-12-15 In *Climate Crisis and the Kleptocene* On The Commodification of Sentience the author argues that capitalism is not merely a system of economic exchange but an ideology of value that in virtue of the existential demand for permanent growth must reduce other forms of value moral civic and aesthetic to exchange value The ontology of capital accumulation can neither afford nor accede to any exemption to its fundamentally kleptocratic logic of commodification Thus among its most significant originary acts is to nullify the value of sentience as an obstacle to commodification A number of well known environmental writers including David Wallace Wells Michael Mann Gary Francione and Jason Moore however miss this critical element of the ontology of capital and thereby end up either defending reformist incarnations of capital conquest or as Andreas Malm puts it offering hybridist and ultimately self defeating accounts of the history of capitalism Malm s own realist account however does not go quite far enough to see beyond human chauvinism down to the roots of the logic of commodification namely that nothing sentient or non sentient living or nonliving organic or inorganic is irreducible to the exchange value of an ideology whose essence is grow or die      Sustainability Frontiers David Selby, Fumiyo

Kagawa, 2014-12-15 Education for sustainable development the educational offshoot of the concept of sustainable development has rapidly become the predominant educational response to the global environmental crisis The authors apply a critical lens to the field and find it wanting in many regards Sustainability Frontiers is an international academic non governmental organization based in Canada and the United Kingdom It engages in research and innovation in the broad fields of sustainability and global education challenging dominant assumptions and current orthodoxies as it seeks to foster learner empowerment and action It places particular emphasis on climate change disaster risk reduction and peacebuilding and their implications for the nature and directions of sustainability education      *The Emerald Handbook of Crime, Justice and Sustainable Development* Jarrett Blaustein, Kate Fitz-Gibbon, Nathan W. Pino, Rob White, 2020-11-18 This volume brings

together a diverse collection of essays that critically examine issues relating to crime and justice in the United Nations 2030 Agenda for Sustainable Development Chapters examine the issues that practitioners face in working to advance this agenda and the possibilities that exist to advance sustainable development outcomes      *President Rodrigo Duterte and the War on Drugs* William N. Holden, 2021-10-01 Since his election in 2016 Philippine president Rodrigo Duterte has directed a brutal anti drug campaign rife with extrajudicial killings Interpreting the war on drugs through the conceptual frameworks of penal populism noble cause corruption revanchism and state terrorism William N Holden argues the war on drugs has failed to achieve its purpose follows trends of authoritarian populism and overlooks a more pressing social issue the vulnerability of
