Trade in Classical Antiquity Neville Morley, 2007 *Trade and Famine in Classical Antiquity* C. R. Whittaker, 2020-08-30

Trade in antiquity its scale status pattern and context is the subject of lively debate among historians But no analysis has made a special investigation of trade in essential food stuffs Famine and food crisis are also neglected subjects This collection of essays is structured around the two focal points of trade and famine A theme of the volume is that a combination of natural and artificial shortages made inevitable the bulk movement of staples between regions in all periods of antiquity Novel contributions are offered in addition in relation to the cost of shipping the extent of long distance trade in wine the relative demand for wheat and barley the incidence and gravity of food crises the efficiency of famine relief measures and the part played by food shortages in the collapse of the late Roman frontier system *Trade in Classical Antiquity* Neville Morley, 2007-04-19 Historians have long argued about the place of trade in classical antiquity was it the life blood of a complex Mediterranean wide economic system or a thin veneer on the surface of an underdeveloped agrarian society Trade underpinned the growth of Athenian and Roman power helping to supply armies and cities It furnished the goods that ancient elites needed to maintain their dominance and yet those same elites generally regarded trade and traders as a threat to social order Trade like the patterns of consumption that determined its development was implicated in wider debates about politics morality and the state of society just as the expansion of trade in the modern world is presented both as the answer to global poverty and as an instrument of exploitation and cultural imperialism This 2007 book explores the nature and importance of ancient trade considering its ecological and cultural significance as well as its economic aspects **Trade, Money and Markets: Their Function in Athens of Classical Antiquity** Harry W. Pearson, 1949 **Antiquity and Modernity** Neville Morley, 2008-11-17 Antiquity and Modernity The nature faults and future of modern civilization and how these connect to the past are tackled in this broad reaching volume Modernity is typically represented as a complete economic political cultural and psychological break from earlier time periods and non western cultures but the ideas and culture of classicism have clearly influenced key modern theorists This book explores the relationship between antiquity and modernity examining a broad range of thought in the process It considers the views of German philosophers British political economists and French social theorists from the end of the nineteenth to the beginning of the twentieth century including such totemic figures as Adam Smith Marx Mill Nietzsche Weber and Freud The first part considers the development of ideas about the difference between ancient and modern whether conceptualized in economic political cultural social or psychological terms and it explores the way that modernity comes to be defined by this difference The second part explores the uses of the past and of narratives of historical development in the modern era both in the foundation myths of modernity and in the critiques offered by those who sought to promote alternative forms of society **Trade, Transport and Society in the Ancient World (Routledge Revivals)** Onno Van Nijf, Fik Meijer, 2014-10-14 This book first published in 1992

presents an introduction to the nature of trade and transport in antiquity through a selection of translated literary papyrological epigraphical and legal sources These texts illustrate a range of aspects of ancient trade and transport from the role of the authorities to the status of traders to the capacity and speed of ancient ships It is clear that the actual means of transportation were crucial the book illustrates the limitations of ancient transport technology and the consequences for the development of commerce It focuses first on different aspects of transport over land and then on transport by river and concludes with a discussion of several aspects of ancient seafaring This book is ideal for students of ancient history

Trade, Commerce, and the State in the Roman World Andrew Wilson, Alan K. Bowman, 2018 In this volume papers by leading Roman historians and archaeologists discuss trade within the Roman Empire and beyond its frontiers between c 100 BC and AD 350 focusing especially on the role of the Roman state in shaping the institutional framework for trade As part of a novel interdisciplinary approach to the subject the chapters address its myriad facets on the basis of broadly different sources of evidence historical papyrological and archaeological demonstrating how collaborations with the elite holders of wealth within the empire fundamentally changed its political character in the longer term

The Evolution of Technical Analysis Andrew W. Lo, Jasmina Hasanhodzic, 2011-02-23 A comprehensive history of the evolution of technical analysis from ancient times to the Internet age Whether driven by mass psychology fear or greed of investors the forces of supply and demand or a combination technical analysis has flourished for thousands of years on the outskirts of the financial establishment In *The Evolution of Technical Analysis Financial Prediction from Babylonian Tablets to Bloomberg Terminals* MIT's Andrew W Lo details how the charting of past stock prices for the purpose of identifying trends patterns strength and cycles within market data has allowed traders to make informed investment decisions based in logic rather than on luck The book Reveals the origins of technical analysis Compares and contrasts the Eastern practices of China and Japan to Western methods Details the contributions of pioneers such as Charles Dow Munehisa Homma Humphrey B Neill and William D Gann *The Evolution of Technical Analysis* explores the fascinating history of technical analysis tracing where technical analysts failed how they succeeded and what it all means for today's traders and investors

Trade, Transport and Society in the Ancient World (Routledge Revivals) Onno Van Nijf, Fik Meijer, 2014-10-14 This book first published in 1992 presents an introduction to the nature of trade and transport in antiquity through a selection of translated literary papyrological epigraphical and legal sources These texts illustrate a range of aspects of ancient trade and transport from the role of the authorities to the status of traders to the capacity and speed of ancient ships It is clear that the actual means of transportation were crucial the book illustrates the limitations of ancient transport technology and the consequences for the development of commerce It focuses first on different aspects of transport over land and then on transport by river and concludes with a discussion of several aspects of ancient seafaring This book is ideal for students of ancient history

Trade in the Ancient Sahara and Beyond D. J. Mattingly, 2017-11-30 Demonstrates that the pre Islamic Sahara was a

more connected region than previously thought with trade an essential linking element Saharan Frontiers James McDougall, Judith Scheele, 2021-12-22 Makes a compelling case for the importance of Saharan history both in its own right and in its articulations with the histories of other regions American Ethnologist The Sahara has long been portrayed as a barrier that divides the Mediterranean world from Africa proper and isolates the countries of the Maghrib from their southern and eastern neighbors Rather than viewing the desert as an isolating barrier this volume takes up historian Fernand Braudel s description of the Sahara as the second face of the Mediterranean The essays recast the history of the region with the Sahara at its center uncovering a story of densely interdependent networks that span the desert s vast expanse They explore the relationship between the desert s islands and shores and the connections and commonalities that unite the region Contributors draw on extensive ethnographic and historical research to address topics such as trade and migration local notions of place territoriality and movement Saharan cities and the links among ecological regional and world historical approaches to understanding the Sahara Contributions by Dida Badi Julien Brachet Armelle Chopin Charles Gr mont Peregrine Horden Olivier Leservoisier Laurence Marfaing E Ann McDougall Abderrahmane Moussaoui Mohamed Oudada Fatma Oussedik and Katia Sch rle A compilation of coherent well structured case studies addressing highly significant issues for the contemporary Sahara a groundbreaking study Social Anthropology Altogether this book is highly recommendable Its key contribution is in teaching us to conceive of the Sahara not as a region clearly defined by natural features but as a space that exists extends and expands according to its vibrant human interconnectedness Journal of the Royal Anthropological Institute **Trade in the Ancient Economy** Peter Garnsey, Keith Hopkins, C. R.

Whittaker, 1983-01-01 **The Cambridge Ancient History** Alan K. Bowman, Peter Garnsey, Dominic Rathbone, 1982

The Roman Empire and the Silk Routes Raoul McLaughlin, 2016-11-11 A fascinating history of the intricate web of trade routes connecting ancient Rome to Eastern civilizations including its powerful rival the Han Empire The Roman Empire and the Silk Routes investigates the trade routes between Rome and the powerful empires of inner Asia including the Parthian Empire of ancient Persia and the Kushan Empire which seized power in Bactria Afghanistan laying claim to the Indus Kingdoms Further chapters examine the development of Palmyra as a leading caravan city on the edge of Roman Syria Raoul McLaughlin also delves deeply into Rome s trade ventures through the Tarim territories which led its merchants to the Han Empire of ancient China Having established a system of Central Asian trade routes known as the Silk Road the Han carried eastern products as far as Persia and the frontiers of the Roman Empire Though they were matched in scale the Han surpassed its European rival in military technology The first book to address these subjects in a single comprehensive study The Roman Empire and the Silk Routes explores Rome s impact on the ancient world economy and reveals what the Chinese and Romans knew about their rival Empires *Land and Trade in Early Islam* Hugh Kennedy, Fanny Bessard, 2025-01-20 Land and Trade in Early Islam discusses the latest developments in the field of early Islamic economic and social history and

explores the notion of polycentrism and the dialectic between global and local between 700 and 1050 CE The volume explores the political mechanisms and the role of Islamic states in regulating and developing demand in the economy The chapters question the binary of core periphery and demonstrate how the growing scholarship on the liminal regions of the Caliphate has transformed our understanding of the early Islamic world by offering a more nuanced picture of its regional urban and socio economic dynamics Changes in the peripheries of the early medieval Caliphate have traditionally been conceived as resulting from initiatives by the core An increased focus on the comparatively under explored regions in central Asia north Africa south east Asia and the Caucasus has thrown this into question Land and Trade in Early Islam draws on this growing body of scholarship to question the notion of peripherality explore lines of economic influence and interdependence and to better understand the regional economic social and political dynamics of this period

The Politics of Jewish Commerce Jonathan Karp, 2008-07-21 This study demonstrates the centrality of economic rationales to debates on Jews status in Italy Britain France and Germany during the course of two centuries It delineates the common themes that informed these debates the ideal republic and the ancient constitution the conflict between virtue and commerce and the notion of useful and productive labor It thus provides an overview of the political economic dimensions of Jewish emancipation literature of this period This overview is viewed against the backdrop of broader controversies within European society over the effects of commerce on inherited political values and institutions By focusing on economic attitudes toward Jews the book also illuminates European intellectual approaches toward economic modernity By elucidating these general debates it renders more contemporary Jewish economic self conceptions and the enormous impetus that Jewish reformist movements placed on the Jews economic and occupational transformation fully explicable

Viking-Age Trade Jacek Gruszczyński, Marek Jankowiak, Jonathan Shepard, 2020-10-06 That there was an influx of silver dirhams from the Muslim world into eastern and northern Europe in the ninth and tenth centuries is well known as is the fact that the largest concentration of hoards is on the Baltic island of Gotland Recent discoveries have shown that dirhams were reaching the British Isles too What brought the dirhams to northern Europe in such large numbers The fur trade has been proposed as one driver for transactions but the slave trade offers another complementary explanation This volume does not offer a comprehensive delineation of the hoard finds or a full answer to the question of what brought the silver north But it highlights the trade in slaves as driving exchanges on a trans continental scale By their very nature the nexuses were complex mutable and unclear even to contemporaries and they have eluded modern scholarship Contributions to this volume

shed light on processes and key places the mints of Central Asia the chronology of the inflows of dirhams to Rus and northern Europe the reasons why silver was deposited in the ground and why so much ended up on Gotland the functioning of networks perhaps comparable to the twenty first century drug trade slave trading in the British Isles and the stimulus and additional networks that the Vikings brought into play This combination of general surveys presentations of fresh evidence and regional case studies sets Gotland and the early medieval slave trade in a firmer framework than has been available before

The Romans and Trade André Tchernia, 2016-11-10 Andr Tchernia is one of the leading experts on amphorae as a source of economic history a pioneer of maritime archaeology and author of a wealth of articles on Roman trade notably the wine trade This book brings together the author s previously published essays updated and revised with recent notes and prefaced with an entirely new synthesis of his views on Roman commerce with a particular emphasis on the people involved in it The book is divided into two main parts The first is a general study of the structure of Roman trade Landowners and traders traders fortunes the matter of the market the role of the state and dispatching what is required It tackles the recent debates on Roman trade and Roman economy providing original and convincing answers The second part of the book is a selection of 14 of the author s published papers They range from discussions of general topics such as the ideas of crisis and competition the provisioning of Ancient Rome trade with the East to more specialized studies such as the interpretation of the 33 AD crisis Overall the book contains a wealth of insights into the workings of ancient trade and expertly combines discussion of the material evidence especially of amphorae and wrecks with the prosopographical approach derived from epigraphic papyrological and historical data

Trade in the Ancient Mediterranean Taco Terpstra, 2019-04-09 How ancient Mediterranean trade thrived through state institutions From around 700 BCE until the first centuries CE the Mediterranean enjoyed steady economic growth through trade reaching a level not to be regained until the early modern era This process of growth coincided with a process of state formation culminating in the largest state the ancient Mediterranean would ever know the Roman Empire Subsequent economic decline coincided with state disintegration How are the two processes related In Trade in the Ancient Mediterranean Taco Terpstra investigates how the organizational structure of trade benefited from state institutions Although enforcement typically depended on private actors traders could utilize a public infrastructure which included not only courts and legal frameworks but also socially cohesive ideologies Terpstra details how business practices emerged that were based on private order yet took advantage of public institutions Focusing on the activity of both private and public economic actors from Greek city councilors and Ptolemaic officials to long distance traders and Roman magistrates and financiers Terpstra illuminates the complex relationship between economic development and state structures in the ancient Mediterranean
