Ichimoku Kinko Hyo: Trading Strategy Marco Costanza, 2021-03-07 I am Marco Costanza a young trader new entrepreneur and employee The time I can devote to trading is not a lot but that's not why I gave it up Indeed in these years of direct experience I have learned that the real advantage of this profession is its ability to be shaped and adapted to our life Initially I believed that to achieve great performance and positive results it was necessary to devote all day to working on the charts to discover later that often less time is spent checking the market trend and the more we are able to deal with it in a lucid manner I was fascinated by the Ichimoku indicator since its first use thanks to its nature of equilibrium of the graph at a glance I discovered that analyzing

the graphs was child's play because all essential information was provided to me instantly I thus optimized its reading delving into the real reasons that made up this indicator and I arrived at the construction of a strategy that integrates Ichimoku and Price Action This strategy has the enormous advantage of requiring very little time for analysis and almost nothing for operation I analyze the charts exclusively on the weekend and take a quick 5 minute evening look to keep tabs on my positions Operating exclusively with pending orders I do not need to check the charts during the day In this book you will find my entire strategy explained in detail which combines healthy and precise risk control with excellent performance dictated by the positions that enter the main trends In addition to my strategy you will also find an in depth study the most complete that you can find on the market at the moment on this indicator In case you want to apply Ichimoku to your personal strategy you will be able to do it without problems If you are looking for an effective and efficient method to operate in a short time this is certainly valid and functional Suitable for those who are already experts but with all the necessary explanations for those approaching for the first time
