Traditions & Encounters Jerry H. Bentley, Herbert F. Ziegler, 2006 On the basis of a superficial inspection Traditions Encounters might look similar to several other textbooks that survey the world s past Like other books for example Traditions Encounters examines the historical development of societies in Asia Europe Africa the Americas and Oceania Yet Traditions Encounters differs from other works in two particularly important ways First it relies on a pair of prominent themes to bring a global perspective to the study of world history it traces the historical development of individual societies in all world regions and it also focuses attention systematically on interactions between peoples of different societies Second it organizes the human past into seven eras that represent distinct and coherent periods of global historical development Preface Page xvi

Traditions & Encounters Jerry H. Bentley, Herbert F. Ziegler, Heather Streets-Salter, 2020 This is History Book It explored the grand scheme of world history as a product of real life human beings pursuing their individual and collective interests It also offered a global perspective on the past by focusing on both the distinctive characteristics of individual societies and the connections that have linked the fortunes of different societies It has combined a clear chronological framework with the twin themes of traditions and encounters which help to make the unwieldy story of world history both more manageable and more engaging From the beginning Traditions Encounters offered an inclusive vision of the global past one that is meaningful and appropriate for the interdependent world of contemporary times
