D. Gil

Tragic Instance The Sequence Of Shakespeares Tragedies:

Tragic Instance Ralph Berry,1999 Tragic Instance follows Shakespeare s progress through his tragedies The book accepts Kenneth Muir s prescription There is no such thing as Shakespearian Tragedy there are only Shakespearian tragedies Accordingly each of the tragedies from Titus Andronicus to Coriolanus is studied in order of composition Richard III and Richard II are included because each is described as tragedy on the title page No larger unity is seen The play is everything that is the case BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Shakespeare's Tragic Sequence Kenneth Muir,2013-10-11 First published in 1972 The emphasis of this book is that each of Shakespeare s tragedies demanded its own individual form and that although certain themes run through most of the tragedies nearly all critics refrain from the attempt to apply external rules to them The plays are almost always concerned with one person they end with the death of the hero the suffering and calamity that befall him are exceptional and the tragedies include the medieval idea of the reversal of fortune

The Artistic Links Between William Shakespeare and Sir Thomas More C. Hallett,2011-06-20 The Halletts investigation differs from anything that has been written about the relationship between Thomas More and William Shakespeare in that it approaches the subject from a dramaturgical point of view This book defines in specific terms what Shakespeare learned from his study of More s History and how he learned it

Shakespeare's Tragic Art Rhodri Lewis,2024-10-08 In this book Rhodri Lewis argues that Shakespeare s tragedies are a series of experiments that attempt to tell the truth about the world as Shakespeare sees it and to discover how far he can stretch tragic affirmation to accommodate the darker aspects of this vision Lewis argues that Shakespeare worked hard to develop an understanding of what tragedy might be good for that this understanding emerged from his engagement with the traditions of tragic writing and theorizing that had gone before him that he used this understanding to shape his tragic plays as carefully patterned aesthetic wholes and that Shakespeare s understanding of the tragic has as little to do with Hegel as it does with the unities of tragic time place and action that many of Shakespeare s peers and successors busied themselves abstracting from Aristotle s Poetics Lewis begins the book by tracing the ideas and practices of tragedy as they were known to Shakespeare and his contemporaries in the sixteenth century He then takes a chronological approach to Shakespeare s plays ultimately seeking to affirm the status of dramatic art in Shakespeare s time as a medium for telling the truth about the human experience in a world that is not fully susceptible to rational analysis

Jonson, Shakespeare, and Aristotle on Comedy Jonathan Goossen,2018-01-02 Jonson Shakespeare and Aristotle on Comedy relates new understandings of Aristotle s dramatic theory to the comedy of Ben Jonson and William Shakespeare Typically scholars of Renaissance drama have treated Aristotle s theory only as a possible historical influence on Jonson s and Shakespeare s drama focusing primarily on their tragedies Yet recent classical scholarship has undone important misconceptions about Aristotle s Poetics held by early modern commentators and fleshed out the theory of comedy latent within it By first synthesizing these developments and

then treating them as an interpretive theory rather than simply an historical influence this book demonstrates a remarkable consonance between Aristotelian principles of plot and its emotional effect on the one hand and the comedy of Shakespeare and Jonson on the other In doing so it also reveals surprising similarities between these seemingly divergent dramatists

How to Do Things with Dead People Alice Dailey, 2022-06-15 How to Do Things with Dead People studies human contrivances for representing and relating to the dead Alice Dailey takes as her principal objects of inquiry Shakespeare's English history plays describing them as reproductive mechanisms by which living replicas of dead historical figures are regenerated in the present and re-killed Considering the plays in these terms exposes their affinity with a transhistorical array of technologies for producing reproducing and interacting with dead things technologies such as literary doppelgängers photography ventriloquism puppetry X-ray imaging glitch art capital punishment machines and cloning By situating Shakespeare's historical drama in this intermedial conversation Dailey challenges conventional assumptions about what constitutes the context of a work of art and contests foundational models of linear temporality that inform long-standing conceptions of historical periodization and teleological order Working from an eclectic body of theories pictures and machines that transcend time and media Dailey composes a searching exploration of how the living use the dead to think back and look forward to rule to love to wish and create

Mermaids and the Production of Knowledge in Early Modern England Tara E. Pedersen, 2016-04-22 We no longer ascribe the term mermaid to those we deem sexually or economically threatening we do not ubiquitously use the mermaid's image in political propaganda or feature her within our houses of worship perhaps most notably we do not entertain the possibility of the mermaid's existence This author Tara Pedersen argues makes it difficult for contemporary scholars to consider the mermaid as a figure who wields much social significance During the early modern period however this was not the case and Pedersen illustrates the complicated category distinctions that the mermaid inhabits and challenges in 16th and 17th century England Addressing epistemological questions about embodiment and perception this study furthers research about early modern theatrical culture by focusing on under-theorized and seldom-acknowledged representations of mermaids in English locations and texts While individuals in early modern England were under pressure to conform to seemingly monolithic ideals about the natural order there were also significant challenges to this order Pedersen uses the figure of the mermaid to rethink some of these challenges for the mermaid often appears in surprising places she is situated at the nexus of historically specific debates about gender sexuality religion the marketplace the new science and the culture of curiosity and travel Although these topics of inquiry are not new Pedersen argues that the mermaid provides a new lens through which to look at these subjects and also helps scholars think about the present moment methodologies of reading and many category distinctions that are important to contemporary scholarly debates

Shakespeare's Tragedies Dieter Mehl, 1986 Twelve plays are examined individually regarding their origins stage and critical histories and the problems associated with their categorization as tragedy

Shakespeare's

Anti-Politics D. Gil, 2013-08-15 Argues that Shakespeare is anti political dissecting the nature of the nation state and charting a surprising form of resistance to it using sovereign power against itself to engineer new forms of selfhood and relationality that escape the orbit of the nation state It is these new experiences that the book terms the life of the flesh

Shakespeare's Great Stage of Fools R. Bell, 2011-09-26 This lively lucid book undertakes a detailed and provocative study of Shakespeare's fascination with clowns fools and fooling Through close reading of plays over the whole course of Shakespeare's theatrical career Bell highlights the fun wit insights and mysteries of some of Shakespeare's most vibrant and often vexing figures

King Richard II Charles R. Forker, 2022-02-10 This revised edition of King Richard II Critical Tradition increases our the play was received and understood by critics editors and general readers Updated with a new introduction providing a survey of critical responses to Richard II since the 1990s to the present day this volume offers in separate sections both critical opinions about the play across the centuries and an evaluation of their positions within and their impact on the reception of the play The updated introduction offers an overview of recent criticism on the play in relation to feminist theory queer theory performance theory and ecocriticism The chronological arrangement of the text excerpts engages the readers in a direct and unbiased dialogue whereas the introduction offers a critical evaluation from a current stance including modern theories and methods Featuring criticism by A C Swinburne Walter Pater Oscar Wilde and W B Yeats this volume makes a major contribution to our understanding of the play and of the traditions of Shakespearean criticism surrounding it as they have developed from century to century

William Shakespeare's Macbeth Harold Bloom, 2010 A collection of literary criticism focusing on Shakespeare's play Macbeth *Christian Settings in Shakespeare's Tragedies* D. Douglas Waters, 1994 Battenhouse's Shakespearean tragedy Its art and Christian premises Irving Ribner's Patterns in Shakespearean tragedy Virgil K Whitaker's The mirror up to nature The techniques of Shakespeare's tragedies and Robert Grams Hunter's Shakespeare and the mystery of God's judgments Waters questions for example Battenhouse's validity of Christian theological and didactic emphases on the old purgation theory of catharsis His approach differs also from Northrop Frye's views on the tragedies in Northrop Frye on Shakespeare an archetypal approach to representative plays including the tragedies
