Training that Delivers Results: Instructional Design that Aligns with Business Goals Dick Handshaw, 2014

Training That Delivers Results Dick Handshaw, 2014 *Training That Delivers Results* Dick Handshaw, 2014-05-28

This book offers a far better way to educate employees one that connects learning solutions with strategic business goals. When companies recognize the need for training in a specific topic they often apply the same standard instruction they utilized the last time they addressed a need for training which was in a completely different area. However a one size fits all approaches rarely work anywhere especially in the professional world. With more than 30 years of experience as a learning and performance improvement professional author Dick Handshaw proposes that organizations cannot simply tell their trainers what to teach but rather they need to proactively collect data to define problems and develop unique training interventions. Handshaw's results oriented model is systematic yet flexible and works for both instructor led training and e learning. In *Training That Delivers Results* you will learn how to Analyze performance gaps Create targeted performance objectives and connect them with the right measurement tools Determine the best instructional strategy and the appropriate media Build consensus with project blueprint meetings Evaluate the effectiveness of training and use the data to continually improve. Training will not be effective and beneficial in sustaining rewarding ways unless the employee education experience is successfully linked with the overall business goals. *Training That Delivers Results* supplies the tools worksheets and assessments needed to tie the learning experience to enhanced performance outcomes and deliver sustainable quantifiable business results.
