Transforming Catholicism David R. Maines, Michael J. McCallion, 2007-01-01 This book is among the first social scientific studies of liturgical change in the Catholic church The analysis is guided by a consistent theory of policy implementation and it uses first hand empirical data to ground its assessment and conclusions *Transforming Catholicism* David R. Maines, Michael J. McCallion, 2007 The Constitution of Sacred Liturgy is widely regarded as the most significant among the sixteen documents produced by the Second Vatican Council The constitution has radically redefined the methods and meanings of Catholic worship including a shift from rote enactment of rituals to the laity as a spiritual community Transforming Catholicism offers the first social scientific analysis of these liturgical changes in worship and their implementations in local situations Guided by a consistent theory of policy implementation Michael J McCallion and David R Maines examine the growing emphasis placed on biblical interpretations of sacred meanings interpretative homilies and the production of mass in local languages This book incorporates first hand empirical data in studying the influence of professional liturgists on parish worship practices and the subsequent symbolic interactionist theories Transforming Catholicism is a sophisticated and engaging read that will captivate seminary professors and those interested in policy analysis American Catholicism Transformed Joseph P. Chinnici, 2021-04-27 Situating the church within the context of post World War II globalization and the Cold War American Catholicism Transformed draws on previously untapped archival sources to provide deep background to developments within the American Catholic Church in relationship to American society at large and Vatican Council II During this time the Catholic community entered a transitional stage in which those on the right and those on the left battled for control of the Church's vision This convergence of international and national forces of renewal and resistance to them will continue to shape the American Catholic community's global identity in the twenty first century *Communion Ecclesiology and Social Transformation in African Catholicism* Idara Otu, 2020-05-15 In this book Idara Otu one of the new theological voices from Africa rethinks ecclesiology in the changing context of a wounded and broken world What does the Catholic Church in Africa look like post Vatican II This book creatively illuminates the intrinsic connections between ecclesial communion and social mission in the changing face of the church in Africa The multiple levels of dialogue in African Catholicism especially in the reception and contextualization of conciliar teachings is redefining world Christianity The author explores how dialogue synodality inculturation leadership human security social issues and social transformation are shaping the identity and mission of the church in Africa This book also engages recent magisterial teachings and diverse theological voices in developing the praxis for the emergence of particular churches in Africa that are defined by the joys and sorrows of God's people The book calls for a Triple C church revitalized through Conversion Communality and Conversation as well as fostering integral and sustainable social transformation in Africa's contested march toward modernity **The Transformation of American Religion** Alan Wolfe, 2005-04 In this astounding account a

leading sociologist demonstrates that religion in America has become so tamed and softened that it hardly serves any of its original functions

Religious Crisis and Civic Transformation Kimba Allie Tichenor, 2016-05-26 A rich analysis of how issues related to gender and sexuality transformed the West German Catholic Church

Becoming Catholic David Yamane, 2014-03-03 Conversion has been an essential element of Christianity and especially of Roman Catholicism for centuries from the Apostle Paul's dramatic conversion on the road to Damascus to the spiritual transformations of such prominent modern individuals as Cardinal Newman St Elizabeth Ann Seton Thomas Merton and G K Chesterton In a 1926 essay Chesterton expressed reluctance to describe his conversion on account of a strong feeling that this method makes the business look much smaller than it really is As David Yamane shows in *Becoming Catholic* the business was not only spiritually but literally very large and growing ever larger roughly 150 000 Americans join the Catholic Church each year and more than one in fifty American adults is a Catholic convert Altogether these 58.5 million individuals are the fifth largest religious group in America In this first significant study of the phenomenon of Roman Catholic conversion in the contemporary United States Yamane provides an in depth look at the process of adult initiation in the twenty first century Catholic Church including the new process of spiritual formation called the Rite of Christian Initiation of Adults RCIA that was ushered in by Vatican II The RCIA process which has become an integral part of Catholic parish life takes individuals on a journey through four distinct formative periods punctuated by elaborate ritual transitions before they are finally baptized at Easter Drawing on years of observational fieldwork and candid interviews with more than 200 individuals undergoing the initiation process Yamane follows would be Catholics through all four stages of the RCIA and offers an incisive new perspective on what it means to choose Catholicism in America today

Transformation in Theosis Yohanes Bambang Mulyono, 2025-02-18 Transformation in Theosis invites readers on a spiritual odyssey exploring the ancient Christian concept of theosis the audacious idea that humans can participate in the divine nature In a world obsessed with material gain and fleeting achievements what if our truest calling is to become godlike The author weaves a tapestry of wisdom drawing from early church fathers to modern theologians venturing into social justice and environmental stewardship The journey begins with the restoration of the imago Dei and goes through biblical foundations Christ's transfiguration and diverse denominational perspectives But this isn't just a scholarly tome It's a radical call to action challenging readers to transcend religious boundaries and embrace a transformative path Theosis is not some lofty unreachable ideal but a tangible reality with far reaching implications for personal growth and societal change As it explores theosis in the context of our digital age readers are left with a provocative question In a world of artificial intelligence and virtual realities what does it mean to embody the divine Transformation in Theosis offers no easy answers instead extending an invitation to scholars seekers and believers alike to step into a journey of self discovery and inner transformation and ultimately to dare to embrace their own divine nature

Pope Francis and the Transformation of Health Care Ethics Todd A. Salzman, Michael G. Lawler, 2021-06-01

Inspired by the teachings of Pope Francis Salzman and Lawler provide the first extended critical commentary on the 2018 Ethical and Religious Directives for Catholic Health Care Services ERD proposing new ways forward for US Catholic health care ethics that prioritize human dignity as their guiding principle Mass Exodus Stephen Bullivant, 2019-05-30 Of those raised Catholic just 13% still attend Mass weekly and 37% say they have no religion But is this all the fault of Vatican II and its runaway reforms Or are wider social cultural and moral forces primarily to blame In 1962 Pope John XXIII opened the Second Vatican Council with the prophecy that a new day is dawning on the Church bathing her in radiant splendour Desiring to impart an ever increasing vigour to the Christian life of the faithful the Council Fathers devoted particular attention to the laity and set in motion a series of sweeping reforms The most significant of these centred on refashioning the Church's liturgy the source and summit of the Christian life in order to make it pastorally efficacious to the fullest degree Over fifty years on however the statistics speak for themselves In America only 15% of cradle Catholics say that they attend Mass on a weekly basis meanwhile 35% no longer even tick the Catholic box on surveys In Britain the signs are direr still Catholicism is not the only Christian group to have suffered serious declines since the 1960s If anything Catholics exhibit higher church attendance and better retention than most Protestant churches do If Vatican II is not the cause of Catholicism's crisis might it instead be the secret to its comparative success Mass Exodus is the first serious historical and sociological study of Catholic lapsation and disaffiliation Drawing on a wide range of theological historical and sociological sources Stephen Bullivant offers a comparative study of secularization across two famously contrasting religious cultures Britain and the USA
