Transforming Government Supply Chain Management **Ibm Center For The Business Of Government:**

Transforming Government Supply Chain Management Jacques S. Gansler, Robert E. Luby, 2004 World class commercial supply chain management standards are now exceptionally high The best organizations measure order to receipt time in two days or less with near perfect probability This speed is backed up by nimble systems capable of rapidly responding to unexpected contingencies and surge requirements Unfortunately while the commercial sector has been rapidly adopting modern information based supply chain systems in order to remain competitive in the worldwide marketplace the shift to such systems in the public sector has met with significant resistance and has moved far more slowly Transforming Government Supply Chain Management provides the insights and expertise to overcome this inertia In Part I the editors provide a primer on supply chain management an overview of innovative practices and tools and a blueprint for government wide transformation Part II consists of ten case studies of public and private sector success stories The intent of this book is to help speed up the needed transformation in the public sector

Transforming the Business of Government Michael J. Keegan, Daniel Chenok, 2023-11-13 Governments face increasingly serious seemingly intractable management challenges This book brings together scholars thought leaders and government executives to address the future of government operations and provide government leaders with practical actionable insights on how best to manage and lead through uncertain and disruptive times

Competition, Choice, and Incentives in Government Programs Albert Morales, John M. Kamensky, 2006 Since the 1980s the language used around market based government has muddled its meaning and polarized its proponents and critics making the topic politicized and controversial Competition Choice and Incentives in Government Programs hopes to reframe competing views of market based government so it is seen not as an ideology but rather as a fact based set of approaches for managing government services and programs more efficiently and effectively

Logistics for the Public Sector Training Course, 2008

Integrating Performance and Budgets Jonathan D. Breul, Carl Moravitz, 2007 Governments are under increasing pressure to produce OCoand to demonstrate OCoresults in terms of their mission Over the last decade countries around the world have undertaken reforms with the aim of improving the relevance and effectiveness of public services and the quality of public sector management Integrating Performance and Budgets showcases attempts by federal and state governments as well as a mix of developed and developing countries to introduce performance or results oriented budgeting and management as a means to support better decision making and accountability

The Operator's Manual for the New Administration Mark A. Abramson, 2008-06-27 The Operator s Manual for the New Administration explains how government works and how to make it work to advance policy goals and objectives Bringing decades of experience in government administration the authors have identified eight key tools leadership performance people money contracting technology innovation and collaboration that executives must utilize in order to be successful

Learning the Ropes Mark A. Abramson, Paul R. Lawrence, 2005-05-26 Learning the Ropes Insights for Political

Appointees is geared to providing helpful advice to new political appointees on a variety of topics related to the challenge of managing in government. Chapters include advice of how to work well with career executives, how to work with congress and media and how to effectively manage their own organization. A major theme throughout the book is that creating productive partnerships with career civil servants is crucial to the achievement of Administration goals and objectives. Getting It Done Mark A. Abramson, 2009. From the Introduction to Getting it Done. Simply put Washington is a tough town. Succeeding in Washington requires not only hard work which is clearly needed but also a highly sensitive antenna about the environment surrounding your agency. You must succeed with all 14 of the stakeholder groups described in this book. Any one of them can cause problems for you. Conversely every one of them can serve as a key leverage point for you to succeed in Washington. Written for newly appointed government agency heads and their senior management teams, Getting It Done addresses the environment of government. Part I of the book offers a straightforward to do list to guide officials in their new leadership positions. Tip includes how to act quickly on what can't wait, develop a vision and a focused agenda and much more. Part II of the book provides short overviews of the fourteen stakeholders that government officials will most frequently encounter. These stakeholders include policy councils, Congress, unions and the Government Accountability Office. Managing for Results 2005 John M. Kamensky, Albert Morales, 2005. The managing for results movement that began in the early 1990s has now reached adolescence and is creating new challenges for government managers. After spending years creating planning and performance measuring systems, managers and policy makers now need to focus on how to use performance information to make data driven decisions. Managing Results for 2005 describes through a series of case studies the progress being made in federal, state and local governments in managing for results. Part I increases our understanding about the potential use of performance information in government. It starts with a chapter on how government leaders can overcome obstacles to using performance information. Another chapter presents a comprehensive framework for tying performance to the budget process. The book provides specific examples of how performance information has been used to dramatically improve program outcomes. Part II presents case studies on the use of performance information to improve results in a range of federal agencies in Texas state government and in the City of Baltimore. As pioneering efforts, these examples do not all present success stories; nevertheless the lessons learned will be instructive to public managers as the managing for results movement advances toward maturity.
