Transiciones Todd Ruecker:

Transiciones Todd Ruecker, 2015-02-15 *Transiciones* is a thorough ethnography of seven Latino students in transition between high school and community college or university. Data gathered over two years of interviews with the students, their high school English teachers and their writing teachers and administrators at postsecondary institutions reveal a rich picture of the conflicted experience of these students as they attempted to balance the demands of schooling with a variety of personal responsibilities. Todd Ruecker explores the disconnect between students' writing experiences in high school and higher education and examines the integral role that writing plays in college. Considering the almost universal requirement that students take a writing class in their critical first year of college, he contends that it is essential for composition researchers and teachers to gain a fuller understanding of the role they play in supporting and hindering Latina and Latino students' transition to college. Arguing for situating writing programs in larger discussions of high school/college alignment, student engagement and retention, *Transiciones* raises the profile of what writing programs can do while calling composition teachers, administrators and scholars to engage in more collaboration across the institution, across institutions and across disciplines to make the transition from high school to college writing more successful for this important group of students.

Other chapters provide an in-depth look at the issues second language writing specialists face as they go through various stages of professional development in their institutional contexts. Tardy. *Translingual Pedagogical Perspectives* Julia Kiernan, Alanna Frost, Suzanne Blum Malley, 2021-09-01

Translingual Pedagogical Perspectives addresses the movement toward translingualism in the writing classroom and demonstrates the practical pedagogical strategies faculty can take to represent both domestic and international monolingual and multilingual students' perspectives in writing programs. Contributors explore approaches used by diverse writing programs across the United States, insisting that traditional strategies used in teaching writing need to be reimagined if they are to engage the growing number of diverse learners who take composition classes. The book showcases concrete and adaptable writing assignments from a variety of learning environments in postsecondary English medium writing classrooms, writing centers, and writing programs populated by monolingual and multilingual students. By providing descriptive and reflective examples of how understanding translinguaging can influence pedagogy, *Translingual Pedagogical Perspectives* fills the gap between theoretical inquiry surrounding translinguaging and existing translingual pedagogical models for writing classrooms and programs. Additional appendixes provide a variety of readings, exercises, larger assignments, and other entry points, making *Translingual Pedagogical Perspectives* useful for instructors and graduate students interested in engaging translingual theories in their classrooms.
