Translation The New Critical Idiom:

Joseph Brodsky and Collaborative Self-Translation Natasha Rulyova, 2020-11-12 Joseph Brodsky and Collaborative Self Translation is the first in depth archival study to scrutinize the Russian American poet Joseph Brodsky's self translation practices during the period of his exile to the USA in 1972-1996. The book draws on a large amount of previously unpublished archival material including the poet's manuscripts in Russian and English, draft translations, notes, comments in the margins, and correspondence with his translators, editors, and friends. Rulyova's approach to the study of self translation is informed by the social turn in translation studies. She focuses on the process of text production, the agents and institutions involved, translation practices, and the role played by translators and publishers in the production of the text. Positionalities of Translation Studies Garda Elsherif, Joanna Sobesto, 2025-06-12 This volume explores historical, cultural, linguistic, and anthropocentric influences on Translation Studies (TS). It brings together nuanced individual self-reflexive case studies and juxtaposes them in order to provoke discussion on the role of contemporary researchers in the discipline of TS. As well as reflecting on the historical and geographical dimensions of the situatedness of TS, the book builds on existing reflections on the local political and linguistic positions of TS and examines the practical and methodological consequences of these discussions. By considering insights and perspectives from various disciplines, the contributors refer to the current state of the art in TS and reconstruct the discussions held on Eurocentrism, anthropocentrism, and the historicity of TS that have been discussed in isolation so far. This volume maps potential relations between them and introduces an analytical concept of positionality that highlights commonalities among various discourses. As well as theoretical and historical analysis, the contributors ask how to methodologically deal with this inevitable positioning of research in contemporary research practice. The contributions cover various aspects of positionalities and its influences on translation research, including gender, anthropocentrism, experiential knowledge, and geopolitics. They also explore various histories of translation studies in different temporal, spatial, and linguistic settings, such as China, Chinese, Iran, Persian, the Netherlands, English, Ukraine, Ukrainian, Russian, and France, French, thereby highlighting that TS as a discipline is not a monolith but consists of various histories interconnected with each other.

Women and Early Modern Cultures of Translation Hilary Brown, 2022 Women and Early Modern Cultures of Translation: Beyond the Female Tradition is a major new intervention in research on early modern translation and will be an essential point of reference for anyone interested in the history of women translators. Research on women translators has often focused on early modern England; the example of early modern England has been taken as the norm for the rest of the continent and has shaped research on gender and translation more generally. This book brings a new European perspective to the field by introducing the case of Germany. It draws attention to forty women who can be identified as translators in sixteenth and seventeenth century Germany and shows how their work does not fit easily into traditional narratives about marginalization and subversiveness. The study uses the example of Germany to argue against

reading the work of translating women primarily through the lens of gender and to challenge claims about the existence of a female translation tradition which transcends the boundaries of time and place Broadening our perspective to include Germany provides a more nuanced and informed account of the position of women within European translation cultures and forces us to rethink gender as a category of analysis in translation history The book makes the case for a new woman interrogated approach to translation history to borrow a concept from Carol Maier and as such it will provide a blueprint for future work in the area Provided by publisher Redefining Translation and Interpretation in Cultural Evolution Seel, Olaf Immanuel, 2017-10-31 Culture has a significant influence on the emerging trends in translation and interpretation By studying language from a diverse perspective deeper insights and understanding can be gained Redefining Translation and Interpretation in Cultural Evolution is a pivotal reference source for the latest scholarly research on culture oriented translation and interpretation studies in the contemporary globalized society Featuring coverage on a range of topics such as sociopolitical factors gender considerations and intercultural communication this book is ideally designed for linguistics educators researchers academics professionals and students interested in cultural discourse in translation studies

Translation Reconsidered Chandrani Chatterjee, 2009-12-14 The present work is an interdisciplinary study cutting across the disciplines of translation studies genre studies literary history and cultural history It primarily deals with a phase of transition in the socio cultural history of Bengal but has implications for the study of Indian literature as a whole It takes the view that translation does not merely relocate the text in the target language but negotiates several sets of relationships between the two cultures involved altering the nature of relations between them The study considers the mediating and shaping agency of genre in this context Not only are works translated but genres are translated too and assume striking and unprecedented shapes in the linguistic culture of the target audience **The Latino Continuum and the**

Nineteenth-century Americas Carmen E. Lamas, 2021 This work demonstrates how Latinas have been integral to US and Latin American literature and history since the nineteenth century *Translation and Big Details* Jeroen

Vandaele, 2023-12-11 In the age of big data evidence keeps suggesting that small elusive and infrequent details make all the difference in our appreciation of humanistic texts film fiction and philosophy This book argues from a cross disciplinary perspective that expertise in humanistic translation is precisely the capacity to capture those details that are bigger than they seem In humanistic translation the expert handling of big details usually serves audiences and the original but mala fide translation also works the details for subtle manipulation and audience deception A focus on textual detail is therefore characteristic of humanistic translators but also compatible with central claims of the cultural turn in translation studies This book written by a scholar and teacher of literary essayistic and audiovisual translation endeavors to articulate a seemingly dual interest on textual detail and cultural analysis as a single one It theorizes connections between micro and macro analysis between translation as detail and translation as culture thus hoping to build bridges between humanistic translators

and translation scholars It acknowledges tensions between practice and theory and proposes a way forward practitioners and scholars share ways of thinking varieties of part whole thinking that machines can never acquire

Children's Literature in Translation Jan Van Coillie, Walter P. Verschueren, 2014-07-16 Children's classics from Alice in Wonderland to the works of Astrid Lindgren Roald Dahl J K Rowling and Philip Pullman are now generally recognized as literary achievements that from a translator's point of view are no less demanding than serious adult literature This volume attempts to explore the various challenges posed by the translation of children's literature and at the same time highlight some of the strategies that translators can and do follow when facing these challenges A variety of translation theories and concepts are put to critical use including Even Zohar's polysystem theory Toury's concept of norms Venuti's views on foreignizing and domesticating translations and on the translator's in visibility and Chesterman's prototypical approach Topics include the ethics of translating for children the importance of childhood images the revelation of the translator in prefaces the role of translated children's books in the establishment of literary canons the status of translations in the former East Germany questions of taboo and censorship in the translation of adolescent novels the collision of norms in different translations of a Swedish children's classic the handling of cultural intertextuality in the Spanish translations of contemporary British fantasy books strategies for translating cultural markers such as juvenile expressions functional shifts caused by different translation strategies dealing with character names and complex translation strategies used in dealing with the dual audience in Hans Christian Andersen's fairy tales and in Salman Rushdie's *Haroun and the Sea of Stories*

Italian-Canadian Narratives of Return Michela Baldo, 2019-01-04 This book examines the concept of translation as a return to origins and as restitution of lost narratives and is based on the idea of diaspora as a term that depicts the longing to return home and the imaginary reconstructions and reconstitutions of home by migrants and translators The author analyses a corpus made up of novels and a memoir by Italian Canadian writers Mary Melfi Nino Ricci and Frank Paci examining the theme of return both within the writing itself and also in the discourse surrounding the translations of these works into Italian These reconstructions are analysed through the lens of translation and more specifically through the notion of written code switching understood here as a fictional tool which symbolizes the translational movements between different points of view This book will be of particular interest to students and scholars of translation and interpreting migration studies and Italian and diasporic writing
