Transnational Crime And Human Rights Transnational Crime And Human Rights:

Transnational Crime and Human Rights Susan Kneebone, Julie Debeljak, 2012-08-06 Transnational Crime and Human Rights offers an evaluation of the responses to the transnational crime of human trafficking and governance of the issue through a case study of the Greater Mekong Subregion GMS which comprises Cambodia the People's Republic of China Lao People's Democratic Republic Myanmar Thailand and Viet Nam The book analyses the international and national legal policy frameworks and the role of governments international and national non governmental institutions and regional processes in responding to trafficking issues in the GMS The book is based on the findings of a three year study conducted in the region involving interviews with more than 60 individuals from relevant organizations and agencies and examines the social political and historical factors including gender and age labour exploitation and migration which form the background to human trafficking in the GMS The authors consider issues of competing mandates and gaps in strategies for protection and conclude with a discussion of broader lessons to be learned from the GMS situation and suggestions for future governance strategies in the fight against trafficking

Human Security, Transnational Crime and Human Trafficking Shiro Okubo, Louise Shelley, 2011-03-17 Examining transnational crime human trafficking and its implications for human security from both Western and Asian perspectives this book assesses the extent of the problem outlines how it is perceived differently in different countries and the diverse social and legal policy reactions which have developed to address these issues

The Transnational Crime of Human Trafficking Maria O'Neill, 2023-11-10 Human trafficking is a multi faceted crime It suffers from definitional and implementation problems One facet the focus of this book is the transnational nature of much of the crime and the need for practitioners to operate across borders to combat it Europe has taken a distinctive approach to cross border law enforcement and judicial cooperation which could be used as a model in other areas of the world This publication examines these problems from a Council of Europe and European Union perspective including the now post Brexit UK The UK has adopted a distinctive approach to legislating and operationalising its trafficking in human beings THB legal frameworks also legislating for slavery servitude forced and compulsory labour resulting in distinctive results in internal UK law enforcement It is argued here that this approach and the results should inform THB legislative and operational developments more widely Further action in legal and operational frameworks is however clearly needed and the book advocates the adoption of a human security freedom from fear approach Ultimately the interaction of different legal frameworks and different jurisdictions requires transnational practitioners to adopt a constructivist approach as was adopted for the development of the internal EU area of freedom security and justice The book will be of interest to academics researchers and policy makers working in the areas of transnational law migration law criminology and international relations

Transnational Crime Jessica Roher, Nicola Guarda, Maryam Khalid, 2018-09-03 Philip Jessup coined the term transnational law in his Storrs Lecture on Jurisprudence delivered in 1956 to describe law that regulates activities or actions

that transcend national borders The term redefined the development and practice of the law and became a distinct field of study In 2001 Neil Boister applied Jessup s concept to the field of criminal law and identified the emergence of transnational criminal law in a formative article published in the European Journal of International Law Inspired by Boister s work the editors of the journal Transnational Legal Theory sought contributions from leading academics and practitioners for a symposium issue on transnational criminal law In their papers the authors built upon and developed novel approaches to legal issues arising in an increasingly globalized world where both crimes and the regulation of crimes transcend borders The publication of this book marks the sixtieth anniversary of Jessup s seminal lecture and exemplifies the significant impact that Jessup and later Boister have had on legal scholarship and practice in the area of criminal law We are honoured to publish the symposium as a monograph and to contribute to this rapidly evolving field This book was previously published as a special issue of Transnational Legal Theory

Transnational Crimes in the Americas Marshall B. Lloyd, 2018-10-30 Transnational Crimes in the Americas addresses contemporary issues with respect to public institutions that are stakeholders in the fight against globalization of crime Regional public organizations with a primary focus on the Americas constitute a framework for understanding the need for an institutional response within the Western Hemisphere While other authors have addressed the growth of organized crime no one has explained institutional developments in the struggle against transnational crimes Transnational Crimes in the Americas highlights existing organizations emphasizing a regional response to transnational crimes suggestions for a permanent criminal court in the Americas and an appraisal of the current state of institutional developments in the region

International Law as Social Construct Carlo Focarelli, 2012-05-24 The book distils and articulates international law as a social construct It does so by analysing its social foundations essence and roots in practical and socially workable as opposed to pure reason In addition to well known doctrines of jurisprudence and international law it draws upon psycho analytic insights into the origins and nature of law as well as philosophical social constructivism The work suggests that seeing law as a social construct is crucial to our understanding of international law and to the struggle to create better working rules The book re conceptualizes both past and new doctrines of international law as constructs namely as strategies of concomitantly de mythologizing and re

mythologizing international law Key areas of international law including subjects sources hierarchy values and remedies are shown to be part of this process The social impact on international law of transnational actors and stakeholders normative fragmentation global justice legitimacy of both rules and players dynamics and hierarchization of norms compliance and implementation in municipal law is also extensively investigated Five basic values of the international community namely security humanity wealth environment and knowledge are explored by stressing their inter and intra tensions Finally the analysis is extended to the role that international courts play in the prosecution of heads of state and other transnational players who violate international law **Handbook of Transnational Crime and Justice** Philip Reichel, Jay

Albanese, 2013-04-29 Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century In the Handbook of Transnational Crime and Justice Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws crimes and criminal justice responses to transnational crime This concise reader friendly handbook is organized logically around four major themes the problem of transnational crime analysis of specific transnational crimes approaches to its control and regional geographical analyses Each comprehensive chapter is designed to be explored as a stand alone topic making this handbook an important textbook and reference tool for students and practitioners alike The Routledge Handbook of International Crime and Justice
