Transnational Transcendence Essays On Religion And Globalization:

Transnational Transcendence Thomas J. Csordas, 2009-03-31 This innovative collection examines the transnational movements effects and transformations of religion in the contemporary world offering a fresh perspective on the interrelation between globalization and religion Transnational Transcendence challenges some widely accepted ideas about this relationship in particular that globalization can be understood solely as an economic phenomenon and that its religious manifestations are secondary The book points out that religion s role remains understudied and undertheorized as an element in debates about globalization and it raises questions about how and why certain forms of religious practice and intersubjectivity succeed as they cross national and cultural boundaries Framed by Thomas J Csordas s introduction this timely volume both urges further development of a theory of religion and globalization and constitutes an important step toward that theory

Asian Migrants and Religious Experience Bernardo Brown, Brenda Yeoh, 2025-10-01 Typically scholars approach migrants religions as a safeguard of cultural identity something that connects migrants to their communities of origin This ethnographic anthology challenges that position by reframing the religious experiences of migrants as a transformative force capable of refashioning narratives of displacement into journeys of spiritual awakening and missionary calling These essays explore migrants motivations in support of an argument that to travel inspires a search for new meaning in religion
