Travels In Icaria Utopianism And Communitarianism:

Travels in Icaria Etienne Cabet, 2003-11-01 Radical in its day and long overdue in English this rare French classic traces the journey of fictional British Lord Claris dall to the exotic island nation of Icaria To his delight Claris dell discovers an ideal utopian democracy prospering amid peace and harmony Devoid of competition or property Icaria triumphs over the social evils of nineteenth century capitalism Claris dell s amazement is constant Foreign affairs are conducted by the community Money and domestic commerce do not exist Everyone gives to and draws from the common pot in equal measure No pastoral idyll the narrative describes a modern machine age economy with social policies free education equality for the sexes strict family moral ties that reflect enlightenment Crime here is a myth arts and culture are treasured commodities Cabet described a totally integrated community of goods in the fifty years following the great revolution of 1782 Published at personal risk his bold allegory gave birth to a real Icarian community that lasted into the late 1800s *America's Communal Utopias* Donald E. Pitzer, 2010-01-20 From the Shakers to the Branch Davidians America s communal utopians have captured the popular imagination Seventeen original essays here demonstrate the relevance of such groups to the mainstream of American social religious and economic life The contributors examine the beliefs and practices of the most prominent utopian communities founded before 1965 including the long overlooked Catholic monastic communities and Jewish agricultural colonies Also featured are the Ephrata Baptists Moravians Shakers Harmonists Hutterites Inspirationists of Amana Mormons Owenites Fourierists Icarians Janssonists Theosophists Cyrus Teed s Koreshans and Father Divine s Peace Mission Based on a new conceptual framework known as developmental communalism the book examines these utopian movements throughout the course of their development before during and after their communal period Each chapter includes a brief chronology giving basic information about the group discussed An appendix presents the most complete list of American utopian communities ever published The contributors are Jonathan G Andelson Karl J R Arndt Pearl W Bartelt Priscilla J Brewer Donald F Durnbaugh Lawrence Foster Carl J Guarneri Robert V Hine Gertrude E Huntington James E Landing Dean L May Lawrence J McCrank J Gordon Melton Donald E Pitzer Robert P Sutton Jon Wagner and Robert S Weisbrot *Social Innovation* Geoff Mulgan, 2019-11-26 The 21st century has brought a cornucopia of new knowledge and technologies But there has been little progress in our ability to solve social problems using social innovation the deliberate invention of new solutions to meet social needs across the globe Geoff Mulgan is a pioneer in the global field of social innovation Building on his experience advising international governments businesses and foundations he explains how it provides answers to today s global social economic and sustainability issues He argues for matching R D in technology and science with a socially focused R D and harnessing creative imagination on a larger scale than ever before Weaving together history ideas policy and practice he shows how social innovation is now coming of age offering a comprehensive view of what can be done to solve the global social challenges we face **Making Sense of Health, Disease, and the Environment in Cross-Cultural History: The**

Arabic-Islamic World, China, Europe, and North America Florence Bretelle-Establet, Marie Gaille, Mehrnaz

Katouzian-Safadi, 2020-01-01 This book has been defined around three important issues the first sheds light on how people in various philosophical religious and political contexts understand the natural environment and how the relationship between the environment and the body is perceived the second focuses on the perceptions that a particular natural environment is good or bad for human health and examines the reasons behind such characterizations the third examines the promotion in history of specific practices to take advantage of the health benefits or avoid the harm caused by certain environments and also efforts made to change environments supposed to be harmful to human health The feeling and or the observation that the natural environment can have effects on human health have been and are still commonly shared throughout the world This led us to raise the issue of the links observed and believed to exist between human beings and the natural environment in a broad chronological and geographical framework In this investigation we bring the reader from ancient and late imperial China to the medieval Arab world up to medieval modern and contemporary Europe This book does not examine these relationships through the prism of the knowledge of our modern contemporary European experience which still too often leads to the feeling of totally different worlds Rather it questions protagonists who in different times and in different places have reflected on their own terms on the links between environment and health and tries to obtain a better understanding of why these links took the form they did in these precise contexts This book targets an academic readership as well as an informed audience for whom present issues of environment and health can be nourished by the reflections of the past

Communal Utopias and the American Experience Robert P. Sutton, 2004-02-28 This important study begins with America's first secular utopia at New Harmony in 1824 and traces successive utopian experiments in the United States through the following centuries For the first time readers will come to realize that American communalism is not a disjointed erratic almost ephemeral part of our past but has been an on going essential part of American history We have a communal utopian motif that sets the history of the United States apart from any other nation The utopian communal story is just one other dimension of the Puritan concept that America was a city upon a hill a beacon light to all the world where the perfect society could be built and could flourish After discussing New Harmony and other Owenite communities the author examines nine Fourierist utopias that were built before the Civil War Next he analyzes the five Icarian colonies that collectively were the longest lived non religious communal experiments in American history Then discussion moves to the seven Gilded Age socialist cooperatives followed by the utopian communities created during President Franklin D Roosevelt's New Deal Finally Sutton turns to the hippie colonies and intentional communities of the last half of the 20th century *Utopian Communities of Illinois: Heaven on the Prairie* Randall J. Soland, 2017 The Prairie State became a crucial testing ground for the grand American thought experiment on how a society should be constructed Between 1839 and 1901 six different utopian communities chose Illinois as the laboratory and sanctuary to elevate their ideals into reality The Mormons and the Icarians

selected Nauvoo The Janssonists picked Bishop Hill The Fourierists settled on the north edge of Loami The employees of the Pullman Railroad Car Company naturally resided in Pullman and the Dowietes put down roots in Zion Three were religious and the others secular All possessed charismatic leaders and dramatic stories that drew attention from across the globe Randy Soland examines the relationship between these havens and their legacies **Utopian Moments** J. C. Davis, Miguel Ángel Ramiro Avilés, 2012-04-12 Within literature history politics philosophy and theology the interpretation of utopian ideals has evolved constantly Juxtaposing historical views on utopian diagnoses prescriptions and on the character and value of utopian thought with more modern interpretations this volume explores how our ideal utopia has transformed over time Challenging long held interpretations the contributors turn a fresh eye to canonical texts and open them up to a twenty first century audience From Moore s Utopia to Le Guin s The Dispossessed Utopian Moments puts forward a lively and accessible debate on the nature and significance of utopian thought and tradition Each essay focuses on a key passage from the selected work using it to encourage both the specialist and the reader new to the field to read afresh Written by an international team of leading scholars the essays range from the sixteenth century to the present day and are designed to be both stimulating and accessible *Utopian Communities of Illinois* Randall J. Soland, 2017-07-24 The Prairie State became a crucial testing ground for the grand American thought experiment on how a society should be constructed Between 1839 and 1901 six different utopian communities chose Illinois as the laboratory and sanctuary to elevate their ideals into reality The Mormons and the Icarians selected Nauvoo The Janssonists picked Bishop Hill The Fourierists settled on the north edge of Loami The employees of the Pullman Railroad Car Company naturally resided in Pullman and the Dowietes put down roots in Zion Three were religious and the others secular All possessed charismatic leaders and dramatic stories that drew attention from across the globe Randy Soland examines the relationship between these havens and their legacies In Search of the Utopian States of America Verena Adamik, 2020-12-01 This book endeavours to understand the seemingly direct link between utopianism and the USA discussing novels that have never been brought together in this combination before even though they all revolve around intentional communities Imlay s The Emigrants 1793 Hawthorne s The Blithedale Romance 1852 Howland s Papas Own Girl 1874 Griggs s Imperium in Imperio 1899 and Du Bois s The Quest of the Silver Fleece 1911 They relate nation and utopia not by describing perfect societies but by writing about attempts to immediately live radically different lives Signposting the respective communal history the readings provide a literary perspective to communal studies and add to a deeply necessary historicization for strictly literary approaches to US utopianism and for studies that focus on Pilgrims Puritans Founding Fathers as utopian practitioners This book therefore highlights how the authors evaluated the USA s utopian potential and traces the nineteenth century development of the utopian imagination from various perspectives
