whilst these men go about their lives and struggle to hold on Three different generations of men come to terms with love life and other peoples expectations Living in a society where the scars of toxic masculinity are becoming more and more visible on the cultural landscape Rules For Being A Man looks at the marks men create in themselves and others Following three generations of a family centred around one pivotal action this honest new play attempts to try to come to terms with the different pressures men face going through life trying to be a man and the damaging toll they take on their mental health Inspired by interviews with survivors of suicide and The Samaritans Presence Brenda Iijima,2024-01-15 At Treasure Island a humanly made island in the San Francisco Bay a performance troupe dressed in hazmat suits articulate gestures that resemble toxic remediation As they become more attuned to the site and to its history and ecology enigmatic presences infiltrate their spacetime Are they from the past the present or the future What is the significance of their sudden arrival What happens when historical and geological eras converge Meanwhile elsewhere various earth scientists at sites around the globe search for the golden spike a telltale geologic marker that synchronously indicates a definitive time change in the strata a change from the Holocene epoch to the Anthropocene Within their data is Earth s biography but how is humanity insinuated within this chronology Throughout Presence encounter and contact are the major elements of consequence action implication and resounding significance Encounter and contact between timeframes cultures ecologies persons intuitions ways of living and worlding At these junctures are the moments of possibility of violence and or of budding community

Online Games, Social Narratives Esther MacCallum-Stewart,2014-06-13 The study of online gaming is changing It is no longer enough to analyse one type of online community in order to understand the plethora of players who take part in online worlds and the behaviours they exhibit MacCallum Stewart studies the different ways in which online games create social environments and how players choose to interpret these These games vary from the immensely popular social networking games on Facebook such as Farmville to Massively Multiplayer Online Roleplaying Games to Free to Play online gaming and console communities such as players of Xbox Live and PS3 games Each chapter deals with a different aspect of social gaming online breaking down when games are social and what narrative devices make them so This cross disciplinary study will appeal to those interested in cyberculture the evolution of gaming technology and sociologies of media *The Politics of Culture in Turkey, Greece & Cyprus* Leonidas Karakatsanis,Nikolaos Papadogiannis,2017-03-27 Performing a political identity usually involves more than just casting a vote For Left wingers in Turkey Greece and Cyprus countries that emerged as the only non socialist constituents of South eastern Europe after WWII political preference meant immersion to distinct ways of life to cultures in times of dictatorship or persecution the desire to find alternative ways to express themselves gave content to these cultures In times of political normality it was the echoes of such memories of precarity and loss that took the lead This book explores the intersection between the politics and cultures of the Left since the sixties in Turkey Greece and Cyprus With the use of 12 case studies the contributors expose the moments in which the Left has been claimed and

performed not only through political manifestos and traditional political boundaries but also through corporeal acts discursive practices and affective encounters These are all transformed into distinct modalities of everyday life and conduct which are commemorated narrated or sung versed painted or captured in photographic images and on reels of tape By focusing on culture and performance this book highlights the complex link between nationalism and internationalism in left wing cultures and illuminates the entanglements between the ways in which left wingers experienced transitions from dictatorship to democracy and vice versa As the first book to analyse cultures and performances of the Left in the three countries The Politics of Culture in Turkey Greece and Cyprus causes a rethinking of the boundaries of political practice and fosters new understandings of the formation of diverse expressions of the Left As such it will be a valuable resource for students and scholars of cultural and social anthropology modern European history and political science **Luxury Online** Uché Okonkwo,2010-02-26 This new book focuses on the analysis of the online strategy and development of the luxury industry tracing the evolution of the Internet from a means of communication to a trade and distribution channel The author provides a comprehensive evaluation and a critical assessment of the tactics required for the management of luxury brands online
